

Planning for a clean air environment!

St John of God Hospital Subiaco

**Smoke – Free
on January 1, 2009**

We are committed to providing our patients, visitors, caregivers and volunteers with a smoke free site.

Research indicates that workplace smoking bans reduce the prevalence of Environmental Tobacco Smoke, reduces the daily consumption amongst smokers and increases participation in cessation programs. The positive flow on community health impacts are convincing.

As of January 1, 2009 smoking will not be permitted on our property.

We will provide smoking cessation support to patients and caregivers as we make the transition to a smoke free environment. Many other activities will be undertaken to enable us to be smoke free.

If you would like more information or have any suggestions to help us become 'smoke free' please contact the Occupational Safety and Environment Unit on 9382 6236.

St John of God Health Care is a leading provider of Catholic Health Care in Australia and bases its care on the Christian values of Hospitality, Compassion, Respect, Justice and Excellence.
