# Introduction

St John of God Midland Public and Private Hospitals provides high quality care to people in the East Metropolitan region and adjacent Wheatbelt communities.

The 307-bed public general hospital, is operated under the terms of a Service Agreement with the State Government.

The 60-bed private hospital is co-located with the public hospital and is the only private hospital operating in the Midland area.

- Paediatrics
- Pain management
- Plastic surgery
- Renal medicine
- Respiratory medicine
- Sleep medicine
- Stroke medicine
- Urology
- Vascular surgery

Please refer to the Private Specialist Directory for a full listing of our private hospital specialists or for the most up to date information go to [sjog.org.au/find-a-doctor](http://sjog.org.au/find-a-doctor).

General Practitioner Services Directory

# Referrals and Doctor Hotline

## Public patients

### Surgical and clinical referrals

All surgical and clinical (not allied health or outpatients) referrals for St John of God Midland Public Hospital should be sent directly to the Central Referral Service (CRS).

To review the catchment area for public services, please see page 35.

#### Contact

F: 1300 365 056

E: [centralreferralservice@health.wa.gov.au](mailto:centralreferralservice@health.wa.gov.au)

#### Postal address

Central Referral Service

PO Box 3462, Midland WA 6056

If you have a patient that urgently requires operating, please phone the relevant on-call number. If you wish to admit a patient urgently who doesn't require Emergency Department triage and treatment, please phone our Patient Flow Unit on (08) 9462 4595. This number is operational 24 hours a day, seven days a week. Please fax any appropriate paperwork to (08) 9462 4075.

### Maternity referrals

Send referral direct to hospital when patient is 16 to 18 weeks via [MI.Referrals@sjog.org.au](mailto:MI.Referrals@sjog.org.au) or fax 9462 4085.

### Allied health and outpatient services

Outpatient services have separate referral pathways, including Midland Physician Service, orthopaedic services, allied health, general outpatient services.

### Medical and surgical outpatient appointments

Central Referral Service (CRS)

F: 1300 365 056

E: [centralreferralservice@health.wa.gov.au](mailto:centralreferralservice@health.wa.gov.au)

Post: Central Referral Services, PO Box 3462, Midland WA 6056

### Allied health and general outpatients appointments

Allied health appointments include: dietetics, hydrotherapy, occupational therapy, physiotherapy, podiatry, psychology, social work and speech pathology. General outpatients appointments include: continence, diabetes (nurse-led clinics), ENT (internal referrals only), fracture clinic (internal referrals only), general surgery, geriatric medicine, gynaecology, obstetrics, oncology, ophthalmology (Medicare referrals only), paediatric medicine, plastics (Medicare referrals only), stroke, stomal therapy, urology (Medicare referrals only) and wound management.

T: (08) 9462 4293

F: (08) 9462 4085

E: [MI.Referrals@sjog.org.au](mailto:MI.Referrals@sjog.org.au)

Post: PO Box 268, Midland WA 6936

## Hospital contacts

Director GP Liaison (clinical queries) – Dr Siobhain Brennan: 0429 684 484

GP Priority Hotline: (08) 9462 4222

Emergency Physician in Charge: (08) 9462 4679

Private GP Admission Hotline: (08) 9462 4444

Please do not email urgent communications and clinical correspondence via [info.midland@sjog.org](mailto:info.midland@sjog.org). For a prompt response, please call one of the numbers listed above.

## Private patients

Private patients should be referred directly to the individual specialist. Please refer to our Private Specialist Directory for more information, or visit our website: [sjog.org.au/midlandprivate](http://sjog.org.au/midlandprivate) (go to Medical Professionals section). Our website also includes a Find A Specialist function, which lists consultants working at the hospital and their contact details, see [www.sjog.org.au/find-a-specialist](http://www.sjog.org.au/find-a-specialist).

For more information on our private hospital, see Private hospital services section.

## Urgent admissions for private patients

For urgent admissions of private patients, please contact our Private GP Admission Hotline on (08) 9462 4444. The hotline gives GPs the ability to “fast-track” private admissions directly into the hospital by putting them in touch with the most appropriate consultant, without the need for patients to attend the ED.

## Aboriginal Health Team

Linda Cresdee – Aboriginal Health Manager

T: 9462 4098 or 0438 720 344

The Aboriginal Health Team plays an integral role in the patient journey for Aboriginal and Torres Strait Islander patients and their families. The team is committed to improving the health outcomes of patients by providing a culturally safe experience whilst in hospital and ensuring culturally appropriate referral pathways are completed, if required.

## Aged care, stroke and rehabilitation

Head of Department – Dr Amanda Boudville

Head of Service (stroke) – Dr Tim Bates

Our aged care, stroke and rehabilitation service located on level 1 provides multidisciplinary aged care and rehabilitation to patients aged 65 and over following illness, injury or surgery. The service has links with geriatric and aged care services, including the Swan Aged Care Assessment Team (ACAT).

Visit the My Aged Care web site to make an online referral for community services: [myagedcare.gov.au/for-health-professionals](http://myagedcare.gov.au/for-health-professionals)

### Stroke Unit

Our Comprehensive Stroke Unit provides inpatient care for patients with acute stroke and stroke rehabilitation. Care is provided by a multidisciplinary team led by a stroke physician. The team works closely with patients, their families and carers to provide evidence-based care to promote functional gain and recovery. Early stroke intervention and thrombolytic therapy is also provided, if clinically indicated.

### Acute Geriatrics

Our acute geriatrics inpatient service cares for frail elderly patients with acute medical problems, primarily after presentation to the Emergency Department.

### Rehabilitation Unit

St John of God Midland Public and Private Hospitals inpatient rehabilitation services (excluding stroke) are provided at St John of God Mt Lawley Hospital. The referral process has not changed for inpatients that require rehabilitation. The arrangement enables rehabilitation patients to receive highly specialised care in a dedicated rehabilitation ward and gym as a public patient. As a public patient, they do not incur any charges for their hospital stay, but still receive all the benefits from staying in a private facility. Stroke patients still undertake rehabilitation at St John of God Midland Public and Private Hospitals.

### Geriatric Evaluation and Management Unit

Our 10-bed Geriatric Evaluation and Management Unit provides assessment and management of care for frail, older adults with multiple medical problems. Patients may be admitted to the unit following acute illness or via a direct admission from their general practitioner or treating physician after consultation with one of our geriatricians. Care is provided by a multidisciplinary team who work closely with the patient and their family and carers to provide evidence-based care to assist with recovery.

Please contact (08) 9462 4222 to speak with our on-call geriatrician.

## Outpatient clinics

Patients have access to ongoing sub-acute care through the hospital's geriatric outpatient clinics:

- Contenance
- Falls
- Fragile bone
- General geriatrics
- Memory
- Parkinson's disease

Where further rehabilitation is required, this is provided by the multi-disciplinary team.

### Private patient referral pathway

Referrals can be made directly to medical specialists for private patients. Refer to the Private Specialist Directory.

## Allied health

Director of Allied Health and Outpatient Services - Erin Wilson

Outpatient enquiries

T: (08) 9462 4000

F: (08) 9462 4080

E: [mi.outpatients@sjog.org.au](mailto:mi.outpatients@sjog.org.au)

Patients have access to ongoing care and sub-acute care through the hospital's outpatient clinics where further rehabilitation is required. This is provided by the multi-disciplinary team.

Allied health professionals work within multidisciplinary teams alongside medical specialists to provide evidence-based and effective care for patients. This includes assessments, health promotion, education and direct provision of specialist treatment and rehabilitation services.

We place an emphasis on healthy lifestyle and independence and assist patients physically, psychologically, cognitively or socially to overcome barriers related to disability.

Our allied health services include:

- Aboriginal cultural and community liaison (inpatient services only)
- Occupational therapy
- Physiotherapy
- Clinical psychology
- Podiatry (inpatient services only)
- Social work (inpatient services only)
- Nutrition and dietetics
- Speech pathology

In addition, a care coordination team in the Emergency Department facilitates rapid assessment, treatment and discharge of ambulatory patients.

## Private patient referral pathway

T: (08) 9462 4281

F: (08) 9462 5004

E: [mi.alliedhealthprivate@sjog.org.au](mailto:mi.alliedhealthprivate@sjog.org.au)

Private patients requiring allied health care during their inpatient stay are able to access these services as a part of their treatment.

The following private allied health services are provided for outpatients:

- Occupational therapy
  - Lymphoedema, memory clinic, falls, parkinsons, neurology
- Physiotherapy
- Hydrotherapy, including antenatal exercise sessions
- GLAD:D® program for hip and knee osteoarthritis
- PD Warrior exercise program for Parkinson's disease
- Clinical psychology
  - Psychological approaches to pain, sleep issues and sleep disorders, memory and cognitive testing
- Speech pathology
  - Paediatrics – general feeding, swallowing, tongue tie / myofascial myology
  - Adults – communication, swallowing including videofluoroscopy clinic
- Dietetics
  - Nutrition assessment of diet-related diseases, paediatrics, clinical support for bariatric surgery patients

To find out more information contact: 9462 4281

## Anaesthetics

Head of Department - Dr Predrag Stanojlovic

Monday to Friday 8.00am - 4.00pm

T: (08) 9462 4766

### Paediatric anaesthetic restrictions

- Greater than 52 weeks corrected age (i.e. >1 year old)
- Greater than 10kg
- ASA 1 or 2 for paediatrics (no complex medical conditions)
- Tonsillectomies - further inclusion criteria of >12 kg and >30 months old

## Private patient referral pathway

Referrals can be made directly to pain management for private patients. Refer to the Private Specialist Directory.

## Cancer and chemotherapy

Head of Service (Medical Oncology) - Dr Sayed Ali

Head of Service (Palliative Care) - Dr Ranbir Dhillon

Head of Service (Haematology) - Dr Tony Calogero

Monday to Friday 8.00am - 4.00pm

T: (08) 9462 4373

The Chemotherapy Unit includes 11 day chemotherapy chairs, situated in a bright and open setting.

The unit has strong links to the comprehensive cancer units at Sir Charles Gairdner Hospital and Fiona Stanley Hospital as well as cancer / haematology services at Royal Perth Hospital. This enables the assessment and management of patients with common cancers, such as breast, lung, colorectal and haematological cancers, with access to care close to home. The hospital does not provide an inpatient service.

Patients who access the service receive patient centred care from a specialist medical, nursing and allied health team. They also provide support for the patient's psychological and social needs as well as offer links to other cancer and community services.

Children, adolescents and young adults with cancer are referred to Perth Children's Hospital.

## Critical Care / ICU

Head of Service - Dr Ashish Davda

T: (08) 9462 4222 and ask to speak with the intensivist on call

The Critical Care Unit provides intensive care and coronary care delivered by a highly experienced patient care team.

Intensive care consultants are supported by registrars, senior nurses and allied health professionals to deliver the highest possible standard of safe, individualised, quality patient care.

Our caregivers support patients' family and friends, and actively encourage their involvement in planning and delivering of care where appropriate.

The 12-bed unit includes six beds designed to provide complex care for critically ill patients. The unit is classified as a level 1 ICU under the College of Intensive Care Medicine Australia and New Zealand guidelines (incorporating high dependency level care). It is staffed to manage patients with life threatening conditions or critical illnesses at a level of care that cannot be provided on a general ward or high acuity area. This includes patients with acute coronary syndromes, heart rhythm disturbances, continuous renal replacement therapy, valvular heart disease or heart failure. The unit includes a hospital cardiologist and echocardiography.

The hospital does not offer interventional cardiology procedures. Patients who require this type of treatment will be referred to an appropriate tertiary hospital for ongoing management.

## D

### Discharge summaries of patients

If you do not receive discharge information about a patient following discharge, please let us know so we can update our files via email: [mihealth.information@sjog.org.au](mailto:mihealth.information@sjog.org.au) or fax: (08) 9462 4063.

For further information on our discharge summaries process, please contact Health Information Services on (08) 9462 5250.

## E

### Emergency Department

Heads of Department - Dr Michele Genevieve and Dr Matt Summerscales

Ground floor, car and pedestrian entry off Clayton Street

Open 24 hours a day, seven days a week

Emergency Physician in Charge (EPIC Hotline): (08) 9462 4679

GP ED referrals or patient support material can be sent to fax: 08 9462 4815 or email: [MI.Emergency@sjog.org.au](mailto:MI.Emergency@sjog.org.au)

The GP Liaison Consultant Emergency Physician can be contacted with any feedback, queries or suggestions regarding the Emergency Department via email: [David.deVos@sjog.org.au](mailto:David.deVos@sjog.org.au)

Our Emergency Department comprises 48 clinical treatment areas that provide free emergency care and treatment to public patients. The department includes three resuscitation bays and a self-contained paediatric assessment and treatment area. A close-knit team of 23 emergency consultants work in the department.

The Emergency Department provides care focusing on early assessment and treatment, prioritised according to the severity of illness.

Following initial triage, care is streamed to facilitate optimal patient flow by aligning the appropriate services and staff to deliver the necessary care in a timely manner.

The Emergency Department accepts patients for the following:

- Acute medicine, medical and general surgery
- Acute cardiology
- Acute adult psychiatry
- Geriatric medicine
- Obstetrics and gynaecology
- Paediatrics (medical)
- Stable GI bleeds

#### Limited ED services

Whilst the Emergency Department will see and treat all emergencies and determine whether a case can be admitted, the hospital does not generally provide emergency inpatient admissions in the following disciplines: ophthalmology, neurosurgery, child and adolescent psychiatry, ENT, orthopaedics, paediatric surgery, plastic surgery, urology and dental surgery.

If your patient requires specialist services not offered at this hospital, please refer them directly to a hospital that does provide these services.

Please note that after hours ultrasound availability is limited to suspected ectopic pregnancies or testicular torsion, and is not provided for DVT investigation. There is also restricted access to MR scanning for non life threatening illness.

## Sending your patient to the Emergency Department for emergency treatment

If directing your patient to attend the Emergency Department for a specific procedure that is not covered by the Central Referral Service, please provide them with the following:

- Referral letter outlining your clinical concern
- Past medical history
- Medications list
- Copies of any abnormal results (i.e; high potassium, abnormal x-ray).  
**Note:** we do not have access to results undertaken in community laboratories or radiology services.

If you have any concerns about your patient or the patient is very sick, in addition to providing a written referral letter, please contact the Emergency Physician In Charge (EPIC) on (08) 9462 4679, so the Emergency Department is prepared and can start the admission process. The EPIC can also provide advice about disposition or referral processes.

### Admission as a private patient

Depending on the patient's clinical condition, they can choose to be admitted as a private patient via the Emergency Department to St John of God Midland Private Hospital. Treatment in the Emergency Department remains free of charge in this case, as all emergency patients are classified as public patients.

To read more about the private hospital, please see Private hospital services section.

## F

### Feedback

To provide feedback to the hospital, please contact one of the following:

E: [MI.patientexperienceteam@sjog.org.au](mailto:MI.patientexperienceteam@sjog.org.au)

T: 0429 684 484 (Director GP Liaison, Dr Siobhain Brennan)

T: (08) 9265 4222 (GP Priority Line)

# G

## General surgery

Head of Department: Assoc Prof Mary Theophilus  
T: 9462 4488

Our specialist General Surgeons provide a range of elective surgery and endoscopy services and a 24-hour consultant-led emergency general surgical service.

Our surgical sub-specialities include:

- Colorectal
- Breast
- Endocrine
- Hepatobiliary
- Upper gastrointestinal
- General surgery

Patients referred for elective general surgery are registered on the elective surgical waitlist and are managed and treated within a clinically acceptable time-frame based on their clinical urgency. Prior to surgery, patients meeting the hospitals' preadmission inclusion criteria are contacted for a preadmission assessment.

Routine admissions can be referred via the CRS. Referrals can be also emailed to [mi.referrals@sjog.org.au](mailto:mi.referrals@sjog.org.au) or faxed to (08) 9462 4085, for more urgent or specific specialists' attention.

Our emergency general surgical service is accessed through our Emergency Department. Most patients are managed on-site, although a few patients may be transferred to a nearby tertiary hospital if they need complex care.

## Other surgical specialties

Elective services available:

- Bariatrics (private only)
- Dental surgery (private only)
- ENT surgery
- Ophthalmology
- Paediatric endoscopies (private only)
- Paediatric general
- Plastics surgery
- Podiatry (private only)
- Urology
- Vascular surgery

Public referrals for the listed specialties above should be sent directly to the specialist. For a full listing of specialists refer to the Private Specialist Directory.

## Private patient referral pathway

Private patients requiring gynaecological services can be referred to our private specialists. Refer to the Private Specialist Directory.

## Discharge

After discharge from the hospital, a post-operative review by the speciality surgical team may be required and this may be held in the hospital's outpatient clinic or in a specialist's room. Discharge summaries will be sent to the patient's general practitioner.

If you do not receive discharge information about a patient following discharge, please let us know so we can update our files. Please email [mihealth.information@sjog.org.au](mailto:mihealth.information@sjog.org.au) or fax: (08) 9462 4063.

## Gynaecology

Head of Department - Dr Premala Paramanathan

T: (08) 9462 4481

Our specialist gynaecologists run an adult Gynaecology service including:

- Colposcopy – including outpatient Lletz
- Menopause management
- Dysfunctional Uterine Bleeding
- Pelvic organ prolapse
- Urinary incontinence
- Management of endometriosis and chronic pain
- Vulval skin conditions

### Early Pregnancy Assessment Service (EPAS)

Monday 1:00pm to 5:00pm

Thursday 1:00pm to 5:00pm

The EPAS clinic is suitable for women in the first trimester who have had a positive pregnancy test and one or more of the following:

- Threatened miscarriages
- Missed miscarriages
- Abdominal / pelvic pain
- Vaginal bleeding
- Previous ectopic pregnancy
- Previous tubal surgery
- Two or more previous miscarriages
- IUCD in-situ.

GPs can refer directly to the EPAS clinic in the following two ways:

1. Fax the referral to our referrals team on 9462 4085 and mark for EPAS and/or urgent. Then make a follow up call to the referrals team on 9462 4293 to ensure it is immediately actioned.
2. Email the referral to [MI.UrgentReferrals@sjog.org.au](mailto:MI.UrgentReferrals@sjog.org.au), which is actioned immediately.

All referrals are triaged on a daily basis by the consultant on call.

Please note that this is the most effective referral process for patients and prevents ED presentations of stable patients with the above diagnosis. Patients that require urgent attention, can be sent to ED eg. ectopic pregnancies or heavy PV bleeding.

The Gynaecology service includes all areas, except IVF, sterilisation and oncology.

### Private patient referral pathway

Private patients requiring gynaecological services can be referred to our private specialists. Refer to the Private Specialist Directory.

## H

### Home healthcare services

St John of God Healthcare at Home

T: 1300 475 442

F: 1300 460 436

E: [athome@sjog.org.au](mailto:athome@sjog.org.au)

St John of God Healthcare at Home, formerly known as Health Choices, provides end-to-end care for patients, extending beyond the hospital, delivering extra clinical support after discharge.

The extra support at home can help reduce patients' feelings of isolation and vulnerability as they receive high quality, safe care in familiar and comfortable surroundings.

Our nurses and other health professionals provide the same high standard of care in the home as at St John of God Health Care hospitals.

We work closely with referring doctors and health services to develop person-centred care plans. Any concern or deterioration is flagged quickly with the patient's treating doctor.

GPs can refer patients to our care. For more information go to [www.sjog.org.au/athome](http://www.sjog.org.au/athome)

### Hydrotherapy

Monday to Friday 8.00am - 4.00pm

T: (08) 9462 4526

The hydrotherapy pool on the ground floor is used to assist patient rehabilitation from injury, illness and disability. It is also used in the treatment of chronic conditions and can be utilised by antenatal patients.

#### Private patient care

Private patients requiring hydrotherapy treatment can access this service during their inpatient stay. Antenatal hydrotherapy classes are also available.

For more information or to book a class, patients should contact (08) 9462 4526.

## M

### Maternity

Head of Department - Dr Premala Paramanathan

Maternity reception - (08) 9462 4871

Birth Suite - (08) 9462 4859

Antenatal clinic reception - (08) 9462 4570

The Maternity Unit, located on level two, is run by midwives, doctors, nurses and allied health professionals with the support of paediatricians and other relevant specialities.

It provides maternity services from antenatal to postnatal care for medium and low risk pregnancies for women in the catchment area.

## Model of care

The hospital provides two maternity models of care for public patients:

1. A public maternity service is provided for patients that live in the catchment area. The service includes access to single patient rooms.
  2. Shared care arrangements are provided in collaboration with some local general practitioners and Endorsed Midwives, to assist with continuity of care.
- Booking visit scheduled at 20 weeks with midwife and obstetrician
  - Mothers are streamed into either obstetrician clinic or midwifery clinic depending on risk factors which is determined using the National Midwifery Guidelines for Consultation and Referral
  - Regular visits are scheduled with a midwife, Category B & C patients will have obstetrician review
  - Seen by obstetrician at 36 weeks and then at 40+ weeks for birth plan

The following patients meet our exclusion criteria and GP's can refer directly to King Edward Memorial Hospital for care. The exclusion criteria includes:

- Expecting triplets or more
- Co-existing malignancy - significant
- Recognised severe respiratory syndrome
- Active TB
- Known major foetal abnormalities
- HIV
- Woman organ transplant recipient (due to medications being taken)
- No VBAC where the woman has previously had 2 or more CS
- Planned Vaginal Breech Births in singleton
- MCMA twins
- MCDA twins (as unable to provide MCA monitoring)
- Major growth restriction prior to 34 weeks
- Pre-eclampsia prior to 34 weeks necessitating delivery prior to 34 weeks
- Placenta accreta
- Type 1 and 2 diabetes mellitus
- Autoimmune disorder not well controlled
- New York Heart Classification > 1
- Uncorrected heart defect
- Acute mental illness eg acute schizophrenic episode
- Haemophilia A or B carriers with male babies or undetermined sex of baby

Some women who meet the exclusion criteria eg; BMI above 40, can continue to have care at Midland up until 36 weeks, prior to referral to KEMH for delivery.

Maternity patients are offered a range of inpatient and outpatient services, including:

- Daily specialist Obstetric clinics
- Midwifery clinics
- Twice weekly Wombat clinic for planned CTG monitoring, follow-up of growth restricted babies
- Moort Boodjari Mia (MBM) clinic, specific for Aboriginal and Torres Strait Islander women in our catchment area
- Physiotherapy to assist with pelvic girdle pain, back pain, painful episiotomy and incontinence
- Dietetics to provide education about healthy eating options while pregnant for GDM patients

- Antenatal education classes (usually Wednesday evenings and Saturday mornings)
- Emergency obstetric services provided through Maternal Fetal Assessment Unit (MFAU)
- Neonatal Unit with a six-cot level 2 Special Care Nursery
- Clinical Psychology services available for mothers at risk of postnatal depression
- Diabetes Nurse Educators to provide support for women with gestational diabetes

#### Maternity referrals

Send referral direct to hospital when patient is 16 to 18 weeks via MI.Referrals@sjog.org.au or fax 9462 4085.

## Moort Boodjari Mia (MBM)

#### Our team

Moort Boodjari Mia includes Aboriginal workers and a dedicated team will work closely with women throughout their pregnancy journey. This team includes a midwife, Aboriginal health liaison officer and Aboriginal liaison grandmother who develop care plans that meet the women's health and cultural needs.

#### What we offer

We provide a free, confidential service. This includes referrals to other health and wellbeing agencies, assistance with completing Centrelink forms or support at Department of Child Protection and Family Support meetings.

Our team is experienced in working with Aboriginal families expecting a baby and can support families to develop the knowledge and skills needed to stay healthy during pregnancy and for the new baby.

#### Our clients

To register for Moort Boodjari Mia's services, patients must:

- Be pregnant
- Live in the Midland area
- Identify as being Aboriginal or Torres Strait Island, or the father of the unborn child is Aboriginal or Torres Strait Islander.

Referral is very simple, for more information please call: 0406 880 142.

## Antenatal care

- Antenatal clinic rooms for obstetric clinics
- Midwifery clinics
- Maternal foetal monitoring rooms
- Specialist Aboriginal antenatal clinic
- Antenatal education classes twice a week
- Shared care with general practitioners, Community Midwife Program and Moort Boodjari Mia: mothers to be seen at the hospital for their initial booking visit then again at 36 and 40+ weeks. Additional appointments will be scheduled if they require more intensive supervision and management by hospital-based midwives and obstetricians.

## Birthing care

- Ward area
  - 24 single bedrooms, including one isolation room for acutely unwell mothers / babies to be managed with a high level of care
  - Other services are available such as baby photography, free entertainment, access to a pantry for visitors, boarder arrangements under some circumstances and discharge lounge facilities
- Five birth suites
  - All with ensuite facilities
  - One set up for twin deliveries

- Dedicated theatre for emergency caesarean section adjacent to birth suite in the operating theatres
- Three maternal foetal assessment rooms (MFAU)
- Six-cot Special Care Nursery – level two
  - One positive pressure isolation room
  - One isolation room
  - Admissions of infants from 34+ weeks
  - Care for short term CPAP and ventilation until transfer can be arranged to a tertiary hospital
  - Transfers from tertiary hospital for continued care close to home

## Postnatal care

- Home visiting midwife service by the hospital to provide continuity of care, ongoing advice and governance
- Lactation consultants
  - Referrals from midwives – ward and antenatal clinic.

## Mental health

Head of Department - Dr Stephanus Schutte

T: (08) 9462 4000

F: (08) 9462 4050

Our 56-bed Mental Health Unit located on level four provides a multidisciplinary service to people who need mental health care.

The unit comprises three public wards:

- 25-bed adult mental health ward (for patients aged 18-65)
- 16-bed older adult mental health ward (for patients aged 65 and older, or 55 years and older for Aboriginal patients)
- 15-bed secure ward (for patients aged 18-65)

It provides a safe and supportive environment which includes abundant natural light in all patient rooms, four courtyards, a gymnasium, art therapy rooms and a variety of patient lounges.

Multidisciplinary care is provided to all patients based on an individualised recovery model, comprising an allied health-driven therapeutic program.

Inpatient services include medical consultation, assessment, treatment and diagnosis. A psychiatric consultation liaison service is available to patients in the public hospital. Electroconvulsive therapy is available as a treatment option.

Patients can be referred to the unit by community mental health services or other medical specialists, or by self-presenting at the Emergency Department for review by a mental health specialist practitioner.

Children and teenagers in urgent need of mental health care will receive care in the hospital's Emergency Department. Any child or teenager with a primary mental health diagnosis who needs to be admitted to hospital will be transferred to another hospital for care in an appropriate environment. St John of God Midland Public Hospital's Mental Health Unit admits patients aged 18 years and older.

The unit has close liaison and clear referral pathways with the local public community mental health service as well as other community agencies, including drug and alcohol services. A senior discharge coordinator ensures a smooth transition back into the community for all patients. In addition, community follow up is provided post discharge for our older adult patients for up to two weeks.

# Midland Physician Service

## Heads of Department:

General Medicine and Medical Specialties - Dr Cameron Britton and Dr Andrew Langlands

## Heads of Service:

Cardiology - Dr Justin Teng

Diabetes / Endocrinology - Dr Sukesh Chandran

Gastroenterology - Dr Jee Kong

General Medicine - Dr Cameron Britton and Dr Andrew Langlands

Haematology - Dr Tony Calagero

Infectious Medicine - Dr Ohide Otome

Nephrology - Dr Kalindu Muthucumanara

Neurology - Dr Tom Jenkins

Respiratory and Sleep Medicine - Dr David Manners

E: [mps.admin@sjog.org.au](mailto:mps.admin@sjog.org.au)

T: (08) 9462 5300

F: (08) 9462 4510

The Department of Medicine provides adult inpatient and outpatient general and sub-specialty medical care for people with medical illnesses and investigation of undiagnosed illnesses. It is staffed by physicians collectively known as the Midland Physician Service, who provide 24/7 general and internal medical cover to the Emergency Department and the public and private medical wards.

Patients who attend the hospital's Emergency Department may be transferred to the medical wards on level three to receive the most appropriate care. If patients require a level of care only available in a tertiary hospital, the department works with clinicians at other sites to seamlessly transfer patients to the most appropriate clinical team.

Midland Physician Service is a multispecialty practice encompassing the breadth of general medicine and medical sub-specialties for both inpatient and outpatient services, including:

- Cardiology
- Diabetes
- Endocrinology
- Gastroenterology (including endoscopy)
- General medical
- Haematology
- Infectious diseases
- Neurology
- Respiratory (including lung function testing)
- Renal medicine
- Sleep medicine

## Public referral pathways

Central Referral Service (CRS)

F: 1300 365 056

E: [centralreferralservice@health.wa.gov.au](mailto:centralreferralservice@health.wa.gov.au)

Post: Central Referral Services, PO Box 3462, Midland WA 6056

## Private patient referral pathway

Private patients requiring any general medical care as listed above can be referred to our private specialists. Refer to the Private Specialist Directory.

## N

# Neonatology

Head of Department - Dr Noel Friesen

T: (08) 9462 4482

F: (08) 9462 4442

Our Neonatal Unit is located adjacent to the Maternity Unit and is a level two Special Care Nursery. It provides care to sick and preterm babies who are delivered at or after 34 weeks' gestation. The Neonatal Unit may also admit preterm or sick babies who have been cared for at King Edward Memorial Hospital and Princess Margaret Hospital.

The unit is staffed by onsite Paediatricians 24 hours a day and includes four open cot bays and two isolation rooms, as well as an individual room to monitor babies requiring respiratory support. Mothers who have babies requiring extended stays in the Neonatal Unit can have access to overnight accommodation within the Maternity Unit.

## O

# Orthopaedics

Head of Department - Mr Gavin Clark

The Orthopaedic team provides a comprehensive range of general orthopaedic and sports injury services, including robotic total and partial knee replacement surgery, total joint replacement surgery, arthroscopic surgery and some paediatric orthopaedics.

The service provides opinions, evaluations and surgical treatments for the following specialties:

- Lower limb (hip, knee, foot and ankle)
- Upper limb (shoulder, elbow)

Following surgery, the hospital provides inpatient physiotherapy and occupational therapy delivered through the hospital's well equipped gymnasium, hydrotherapy pool and specialised assessment and treatment rooms.

No spinal, tumour or sarcoma service is currently available.

Limited trauma service for fractures seen through the Emergency Department. There is currently no GP pathway to the Orthopaedic Trauma Service.

## Midland Orthopaedics (General Enquiries)

T: (08) 9462 4523

E: [mi.orthopaedicssecretary@sjog.org.au](mailto:mi.orthopaedicssecretary@sjog.org.au)

**Public Patients:**

Public patients attend the bulk billed outpatient clinics run through the Midland Orthopaedics private sessional suites, based within SJG Midland Public Hospital's consulting suites.

Public patients have access to the comprehensive range of elective surgical procedures for both sporting injuries and general orthopaedics, as noted above.

All public referrals are to be sent and accepted via the Central Referral Service.

A preferred surgeon can be nominated for public patients, however, if the referral does not meet relevant criteria for allocation to St John of God Midland Public Hospital, the CRS will redirect the referral to the applicable hospital.

## Private patient referral pathway

A comprehensive range of private surgical procedures are provided for sporting injuries and general orthopaedics.

Referrals should be sent directly to the private specialists.

Refer to the Private Specialist Directory for details.

Urgent appointments are available for private patients, please contact the private specialist's primary contact for suitability.

## Outpatients

Director of Allied Health and Outpatient Services - Erin Wilson

Outpatient enquiries

T: (08) 9462 4030

E: [mi.outpatients@sjog.org.au](mailto:mi.outpatients@sjog.org.au)

## Outpatient services

Outpatient services have separate referral points: General Outpatients, Allied health, Midland Physician Service and Midland Orthopaedics.

## General outpatients

All medical and surgical referrals should be sent to the Central Referral Service (CRS)

F: 1300 365 056

E: [centralreferralservice@health.wa.gov.au](mailto:centralreferralservice@health.wa.gov.au)

Post: Central Referral Service  
PO Box 3462, Midland WA 6056

If you are referring a patient from a public hospital, please use the Standard Referral Template on our website [www.sjog.org.au/midland](http://www.sjog.org.au/midland) (go to "For medical professionals" section)

Referral queries:

T: (08) 9462 4293

F: (08) 9462 4085

E: [mi.referrals@sjog.org.au](mailto:mi.referrals@sjog.org.au)

General outpatient services include:

- Allied health
- Continence
- Diabetes (nurse-led clinic)
- Fracture clinic (internal referrals only)
- General surgery
- Geriatric medicine
- Gynaecology
- General paediatric
- Paediatric neurology
- Paediatric complex care (feeding difficulties and complex problems)
- Obstetrics
- Oncology
- Stroke
- Stomal therapy
- Urology (Medicare referrals only)
- Wound management

## Midland Multidisciplinary Complex Foot Service

T: (08) 9462 4325 to discuss urgent referrals

F: (08) 9462 5004

E: [mi.referrals@sjog.org.au](mailto:mi.referrals@sjog.org.au) and CC: [mi.podiatry@sjog.org.au](mailto:mi.podiatry@sjog.org.au)

Our Multidisciplinary Complex Foot Service provides assessment, management and coordination of care for acute or chronic foot problems that are at high risk of admission and amputation.

The service combines podiatry with diabetes physicians / endocrinologists, infectious disease specialists and vascular surgeon. The multidisciplinary team approach can improve outcomes for conditions, such as diabetic foot ulceration, poor circulation, severe infection and Charcot foot.

Send referral to email above and ring for urgent referrals (do not send referral to CRS). Please attach all medications, relevant investigations, reports and results to referral.

## P

## Paediatrics

Head of Department - Dr Noel Friesen

T: (08) 9462 4482

F: (08) 9462 4442

Our general paediatric ward, located on level two, provides inpatient and outpatient care for children under 16 years of age who live in the hospital's catchment area.

Our service offers general medical and private surgical inpatient care, with specialised care provided at Perth Children's Hospital as needed. Outpatient medical and allied health care is also provided to support patients once they are discharged from hospital.

The 12-bed ward features a bright and colourful communal area for younger patients, their siblings and family members to play in while on the ward.

Each room has furniture available for a parent or guardian to stay overnight.

Children under 16 years of age needing emergency medical care can be treated at our Emergency Department. If necessary, children are assessed and treated in the separate emergency paediatric area in the Emergency Department, depending on their symptoms.

Children can be referred to our public paediatric outpatient service via the Central Referral Service or their treating surgical specialist.

### Private patient referral pathways

Private patients requiring care for the following can be referred to our private specialists:

- Paediatric gastroenterology
- Hepatology
- Hypospadias repair
- Inguinal hernia repair
- Umbilical hernia repair
- Epigastric hernia repair
- Hydrocele repair

- Orchidopexy for undescended testis
- Laparoscopy for correction of adolescent varicocele
- Laparoscopic cholecystectomy
- Laparoscopic fundoplication
- Laparoscopic appendicocaecostomy for encopresis
- Rectal biopsy
- Lingual frenulotomy
- Circumcision
- Excision subcutaneous and skin lesions
- Excision thyroglossal cysts
- Neck and preauricular sinus care can be referred to our private specialists
- Management of patients with various allergic disorders including: food allergy, drug allergy, hayfever, asthma and eczema.
- Skin Prick Testing
- Guidance for food introduction in high risk infants.
- Faltering growth secondary to multiple food allergies.
- Management of anaphylaxis and provision of EpiPen training
- Provide oral, sublingual and subcutaneous immunotherapies
- Management of angioedema and chronic urticaria
- Management of children with recurrent infections and primary immunodeficiencies.

For more information on our paediatric surgeons, refer to the Private Specialist Directory.

## Pathology - Australian Clinical Labs

Laboratory Manager - Leah Bairstow

T: (08) 9462 5192

F: (08) 9462 5205

Australian Clinical Labs (ACL) provides the hospital's laboratory and outpatient collection centre needs. The laboratory operates 24 hours a day, seven days a week with a pathologist onsite and offers access to rapid outpatient diagnostic pathology services for doctors and patients in Midland and surrounding suburbs.

The pathology collection centre is located near the hospital's main entrance and has four rooms, ensuring minimal waiting times. Outpatient specimen collections are performed for clinic patients, general practitioners and external requests, such as glucose tolerance tests. Daily ward rounds for inpatients are performed by the collection centre throughout the year.

Note: GPs can access pathology test results of patients that have been admitted to our hospital. For more information, email your details to: [wa.support@clinicallabs.com.au](mailto:wa.support@clinicallabs.com.au)

### Collection centre hours:

T: (08) 9462 5190

F: (08) 9462 5206

Monday to Friday 7.00am - 6.00pm

Saturday 8.00am - 12.00pm

# Pharmacy - HPS Pharmacies

Director of Pharmacy - Nyree Marr

Pharmacy services are provided by HPS Pharmacies, which offers personalised inpatient and outpatient services, including, but not limited, to:

- Retail pharmacy services
- Inpatient, discharge and outpatient dispensing services
- Medication delivery service
- Clinical pharmacy services
- Oncology and aseptic manufacturing, and
- Pharmacy compounding.

The retail pharmacy stocks a large range of everyday pharmacy products to meet individual needs.

The Department of Veterans' Affairs will pay for all medications provided to veterans.

## **Retail hours:**

Monday to Friday 8.00am - 6.00pm

Saturday 8.00am - 3.00pm

Sunday and public holidays 8.00am - 12.00pm

## Radiology - Perth Radiological Clinic

Head of Department - Dr Susanne Guy and Dr Kevin Ho

T: (08) 6274 3500

F: (08) 6274 3590

Book online via [www.perthradclinic.com.au](http://www.perthradclinic.com.au)

Perth Radiological Clinic is based at St John of God Midland Public and Private Hospitals. Its clinic provides a comprehensive range of services to both hospital inpatients and outpatients referred from the local medical community.

### Services provided on site include:

- MRI (Medicare rebates may apply)
- Two low radiation dose CT scanners
- Ultrasound (including pregnancy scans, scans of the abdomen, blood vessels, joint and tendon scans, and Doppler)
- Fine needle aspiration
- Digital x-ray
- Nuclear medicine
- Interventional radiology (may require hospital admission)
- OPG (dental x-ray)
- PET scan

The comprehensive clinic is open Monday to Friday from 8.30am to 5.00pm for all outpatients. In addition the department provides out of hours emergency radiology (CT, ultrasound and x-ray) for hospital inpatients and patients from the Emergency Department.

Bookings can be made by calling the main clinic number or patients can request an appointment online via: [www.perthradclinic.com.au](http://www.perthradclinic.com.au)

## Services not provided

St John of God Midland Public Hospital provides all the services contracted by the State Government, which includes many new and expanded services for our region.

As with any public hospital, whether or not a treatment is provided depends on a number of factors, including whether the treatment is appropriate to be provided by that facility and whether it is medically indicated.

In line with our commitment to respect the dignity of human life from conception, there are a small number of reproductive services that are not provided at either the public or private hospital. These include termination of pregnancy, sterilisation or contraception, unless the primary purpose is to save a person's life or treat a disease.

Anyone seeking services not provided at the hospital will be given information on the availability of these services at other health care facilities, if that is the patient's preference. In keeping with the organisation's values, our staff fully respect and support patients' rights to exercise their choice in medical decisions and provide them with full information on their options, including directing them to their GP or treating specialist.

### What happens in an emergency situation?

Patients with a serious or life threatening complaint, regardless of its nature, always receive appropriate, respectful and high quality care.

### Complications arising from a service not provided at the hospital

Patients with a health condition or complication arising from pregnancy, or a procedure undertaken at another facility, always receive medically appropriate treatment at our hospitals, in keeping with our core values and ethical standards.

### What happens in the case of sexual assault?

As is the case at other facilities, a patient who has been sexually assaulted receives appropriate and respectful care at the hospital and referred to the WA Sexual Assault Resource Centre for further treatment.

### Will the morning after pill be provided to a rape victim?

Yes, provided a pregnancy test confirms the victim is not already pregnant. Clinical staff discuss all treatment options with the patient, including a transfer to the WA Sexual Assault Resource Centre, as undertaken by all WA hospitals.

### Prenatal blood tests

We provide prenatal blood tests to help doctors estimate the risk of genetic disorders. Parents are provided with information based on their results.

### For more information

The *Code of Ethical Standards for Catholic Health and Aged Care Services in Australia* is available online at <http://www.cha.org.au/code-of-ethical-standards.html>

# Social Outreach services

## Mental Wellbeing Services

T: 1800 313 016

E: [mentalwellbeing@sjog.org.au](mailto:mentalwellbeing@sjog.org.au)

W: [www.sjog.org.au/mentalwellbeing](http://www.sjog.org.au/mentalwellbeing)

St John of God Mental Wellbeing Services provide community based mental health treatment and support for people aged 16 years and over. Treatment is provided at low or no cost with a GP referral and Mental Health Care Plan and may include:

- Individual counselling – available via telehealth or in-person
- Psychiatric support

## Raphael Services

T: 1800 292 292

E: [raphael.wa@sjog.org.au](mailto:raphael.wa@sjog.org.au)

W: [www.sjog.org.au/raphael](http://www.sjog.org.au/raphael)

St John of God Raphael Services provides specialised mental health treatment and support for parents and families during the perinatal period, up to the child's fourth birthday.

Provided at no-out-of-pocket expense, with a GP referral and Mental Health Care Plan, the services are available to all members of the community not just St John of God hospital patients.

## Drug and Alcohol Withdrawal Network (DAWN)

T: (08) 9388 5000

F: (08) 9380 9793

E: [dawn@sjog.org.au](mailto:dawn@sjog.org.au)

W: [www.sjog.org.au/dawn](http://www.sjog.org.au/dawn)

St John of God Drug and Alcohol Withdrawal Network (DAWN) assists people to reduce or stop their substance use by providing care and support at home. The free and confidential withdrawal service is run by clinical nurse specialists who visit clients at home and support them through the withdrawal process in shared care with their general practitioner (GP).

Services include:

- Ability for clients to self-refer
- Assessment
- A medicated or non-medicated home-based withdrawal plan
- GP liaison
- Home visits
- Telephone withdrawal service
- Specialist case management with clinicians available to support GPs during consults with relevant patients via telephone
- Education and support for clients, their family and their GP
- Referrals to appropriate counseling and rehabilitation services

## Horizon House

E: [horizonhouse@sjog.org.au](mailto:horizonhouse@sjog.org.au)

W: [www.sjog.org.au/horizonhouse](http://www.sjog.org.au/horizonhouse)

St John of God Horizon House provides medium-term accommodation and support to young people aged 16-22 years who are currently experiencing, or are at serious risk of, homelessness. The service focuses on providing stability, support and building life-skills so young people can achieve their goals and transition to independent living.

**Horizon House offers:**

- Stable accommodation
- Counseling and support
- Supported links to specialist appointments
- Individualised case management
- A life skills program

Contact details for individual Horizon House locations are available at [www.sjog.org.au/horizonhouse](http://www.sjog.org.au/horizonhouse).

## Horizon House Young Mother and Baby Program

T: (08) 9276 6948

E: [horizonhouse@sjog.org.au](mailto:horizonhouse@sjog.org.au)

W: [www.sjog.org.au/horizonhouse](http://www.sjog.org.au/horizonhouse)

The St John of God Horizon House Young Mother and Baby Program provides accommodation and support to vulnerable young mothers aged 16-22 years from a wide variety of backgrounds and circumstances. The program helps them to take their pregnancy to term and focuses on providing stability, support and building life-skills so young mothers can achieve their goals and transition to independent living.

**Horizon House Young Mother & Baby Program offers:**

- Stable accommodation
- Counselling and support
- Supported links to specialist appointments
- Individualised case management
- A life skills program

Young women must be at least 12 weeks pregnant, confirmed by a gp to be eligible for the program.

A large, solid orange shape that resembles a stylized leaf or a curved arrow pointing towards the right. It is positioned in the upper right quadrant of the page.

## About St John of God Health Care

St John of God Midland Public and Private Hospitals is a division of St John of God Health Care, a leading Catholic not-for-profit provider of high-quality health care and community services in Australia and New Zealand.

As a not-for-profit health care provider, we return all surpluses to the communities we serve by updating and expanding our facilities and technology, developing new services, investing in people, and providing our social outreach services to those experiencing disadvantage.
