

# Familial Breast and Ovarian Cancer Information Day

St John of God Subiaco Hospital is hosting an information day, as part of our Research Week program, for women at high risk of breast and ovarian cancer.

We welcome those living with gene variants, their families and support people, and those at high risk due to their family history but who do not carry a known gene variant.

Leading specialists and researchers will present the latest research findings, treatments and cancer risk-reducing options for those at high risk of breast and ovarian cancer.

## Event Details

**Saturday 4 September 2021**

**8.00am – 3.00pm**

St John of God Subiaco Hospital  
Conference Centre Auditorium  
25 McCourt Street Subiaco

Cost: \$25 per person.

Complimentary parking, lunch and refreshments will be provided.

This event is kindly supported by Pink Hope.
