A MESSAGE FROM THE CHAIRMAN OF TRUSTEES

It is sometimes remarked that the Catholic Church is the oldest and largest health care provider in the world.

At St John of God Health Care we are mindful at all times of the great legacy and responsibility we have as a Catholic organisation to minister to the health care needs of all those who enter our doors.

Compassionate care has always been and continues to be the hallmark of our model of distinctive and exceptional care.

High quality is another distinguishing feature and St John of God Health Care strives to be at the vanguard of new technology and research so the communities we serve can be confident they are receiving the highest possible quality of care.

We are continuing to grow our services in communities where we already operate, through redevelopments, to meet changing needs and we are also expanding into new communities. We are shortly to open the newly constructed St John of God Midland Public Hospital in partnership with the Western Australian Government, offering more health care options to people in that area and our own work in public health.

We are also extending our capabilities to provide community support, part of our social justice agenda, in social outreach, disability services and mental health.

While continuing to expand and grow in response to community needs we are also maintaining our focus on having the right internal culture and the right framework in place to ensure we remain a Catholic ministry.

In 2014/15, in response to the significant growth and development of the organisation, we commenced a comprehensive review of our Mission Management Model, last reviewed in 1999. The review will look at the structures, processes, resources and people that support the ongoing development and integration of Mission within the organisation to ensure we have a model to meet our future needs and remain at the forefront of exceptional care.

Change of Trustees

I was delighted to welcome new Trustees Frank Cooper AO and Sr Anne Derwin in 2014/15 who have taken over from long-standing Trustees Clive Macknay and Don Good.

Frank is a highly respected member of the Perth business community. In 2014 he was awarded an Officer of the Order of Australia (AO) and in 2015 he was awarded a Western Australian of the Year Award in the Professions category for his many years of service to the community.

Sr Anne has outstanding credentials in Catholic leadership and formation as a former Congregational Leader of the Sisters of St Joseph of the Sacred Heart and former Board member of St John of God Health Care.

I express our profound gratitude to outgoing Trustees Don and Clive who have so positively influenced the growth and success of St John of God Health Care through their vision and leadership.

Don has been an astute and wise leader over nearly four decades and has been instrumental in facilitating numerous transformative milestones in our history. His appointment as the first lay Trustee and subsequently as Chairman of Trustees demonstrates the trust and high esteem in which he is held throughout the ministry. In 2014 Don was bestowed with the Benemerenti Medal by his Holiness Pope Francis for his long and faithful service to health care, the Church and society.

Clive’s involvement with the ministry commenced in 1976 and he went on to hold key governance positions. He embraced these leadership roles with passion and his skillful discernment has been invaluable. His contribution to this ministry is immeasurable.

Finally, I acknowledge the support of our Members and Members’ Representatives.

I invite you to enjoy St John of God Health Care’s Annual Report.

Eva Skira
Chairman of Trustees
**Hospital services**

Increased hospital overnight separations by 12.5% and day separations by 11.2% compared to 2013/14. Procedures increased by almost 15% and emergency presentations increased by 20.6% thanks to the first full operational year of the St John of God Geelong Hospital Emergency Department.

Births increased by 10% and for the first time St John of God Health Care delivered more than 10,500 babies in a year (p23-24).

**New hospitals**

Completed construction of St John of God Midland Public and Private Hospitals with handover in June 2015. Commissioning is now under way and the hospitals are due to open on schedule in November 2015 (p36-37).

**Pathology**

Opened six new collection centres across Victoria and Western Australia; upgraded regional biochemistry platforms and introduced a molecular microbiology testing platform at the core laboratory in Victoria (p55).

Pathology episodes year on year increased by 2% in a competitive market (p25).

**Home nursing**

Undertook 115,477 episodes of care and commenced Hospital in the Home services from St John of God Geelong Hospital (p56).

**Press Ganey satisfaction surveys**

St John of God Frankston Rehabilitation and Geelong Hospitals ranked by inpatients as ‘best in class’ (99th percentile) of private hospitals surveyed by Press Ganey in Australia and St John of God Ballarat and Subiaco Hospitals ranked at the 90th percentile.

St John of God Murdoch Hospital Emergency Department achieved ‘best in class’ (99th percentile).

St John of God Geelong Hospital also ranked by day patients as ‘best in class’ (99th percentile) for the sixth year in a row.

Stronger doctor engagement than not-for-profit sector average with 40% of St John of God Health Care doctors self-rated as ‘dedicated partners.’

St John of God Bendigo and Subiaco Hospitals ranked ‘best in class’ (99th percentile) for doctor satisfaction compared to private peers (p60).

**Training and education**

Partnered with 26 universities and 30 Registered Training Organisations to provide undergraduate clinical placement opportunities for nursing, medical and allied health students from all over Australia (p72).

**Nursing and midwifery education**

Developed St John of God Health Care’s first state-wide graduate nurse program in Western Australia, known as the Pathways to Practice Program, providing opportunities for graduates to rotate to different divisions and across specialties (p73).

**Medical education**

Appointed 50 registrars in a range of specialties and continued GP-WISE, a hospital-based arm of the Prevocational General Practice Placement Program in collaboration with the Western Australian General Practice Education and Training.

**Formation**

Many Faces – One Story caregiver formation program developed with more than 1,000 participants since launch (p76).

**Information technology**

Completed major consultation establishing clinical and other information requirements for St John of God Health Care to achieve strategic priority one to be a ‘recognised leader in the Australian health sector for the provision of high quality health care’ by 2019 (p62). Completed requirements gathering, scoping and technical design for new intranet and website.

**Research**

Research activity continued to increase with 120 new research proposals submitted in 2014/15, an increase of 36% (p67).

**Financial performance**

Achieved revenue of $1.3 billion in 2014/15, an increase of 12.5% on 2013/14 (p23).
St John of God Health Care received its highest ever inpatient satisfaction mean score in the annual Press Ganey survey, with St John of God Geelong and Frankston Hospitals ranked ‘best in class’ (99th percentile).
Developments and expansions
Completed $410 million St John of God Midland Private and Public Hospitals on time and on budget.
Completed $8 million expansion at St John of God Accord (Greensborough); new $9 million St John of God Wembley Day Surgery at St John of God Subiaco Hospital; and the $8 million earthquake recovery works and a second disability home at Selwyn at St John of God Hauora Trust in New Zealand.
Completed stage one of St John of God Murdoch Hospital’s $236 million development and commenced stage two which is due for completion in 2018. Progressed $41 million redevelopment of St John of God Bendigo Hospital with completion due in 2016.
Commenced new $20 million project at St John of God Geelong Hospital for expanded and upgraded cardiac and intensive care services, commenced $17 million redevelopment at St John of God Mt Lawley Hospital and agreed terms with Generation Healthcare REIT on $120 million development for the new St John of God Berwick Hospital (p28-29).

Clinical risk management and quality
Electronic incident report system simplified and enhanced. Root cause analysis training and support materials developed and provided to caregivers. Implementation of a dedicated infection prevention and control software surveillance system commenced. Review of open disclosure process undertaken and educational program established to strengthen patient and family communication. National quality benchmarks reported by the National Hospital Performance Authority on the MyHospitals website exceeded (p62-63).

Accreditation
St John of God Ballarat, Frankston, Geraldton, Subiaco and Warrnambool Hospitals underwent accreditation against the Australian Council on Healthcare Standards National Safety and Quality Health Service and EQuiP National Standards, successfully meeting all required actions with the hospitals achieving an average of 19 ‘Met with Merit’ ratings. This demonstrates exceptional performance beyond the required actions of the National Safety and Quality Health Service Standards.

Workforce
Increased number of caregivers by more than 5% from 10,850 in 2013/14 to 11,415 in 2014/15 (p78).

Occasional health, safety and wellness
Lost time injury frequency rate of 7.97, a deterioration from prior year and subject to increased focus in 2015/16. Caregiver wellness program Live Well, Work Well awarded 2014 Worksafe Victoria Award for Commitment to Workplace Health and Wellbeing (p82).

Nursing and midwifery
Continued to embed the Nursing and Midwifery Foundations of Excellence across all our hospital divisions. The Foundations were showcased internationally by The Advisory Board Company – a global research, consulting and technology firm helping hospital and health system leaders improve the quality and efficiency of patient care. Press Ganey Caregiver Satisfaction Survey results increased with 74% of nursing units showing improved engagement (p63).

Governance and stewardship
Group Director Governance appointed with responsibility for internal audit, risk and compliance. Transformation program framework established and two significant change programs focused on creating holistic value commenced. Development of a capital development framework is being finalised, five-year financial targets developed and new property funding models developed (p27).

Environment
Reduced carbon emissions by more than 2.5% year on year from the previous year (p96).

Social Justice and Advocacy
Established a group social advocacy framework with main focus on Disability Access and Inclusion (employing people with disabilities) and Reconciliation (building better relationships with Aboriginal and Torres Strait Islander peoples) (p88).

Heritage
Established a group heritage action plan (p26).

Arts and health
Art curator appointed to develop and manage St John of God Health Care art collection. Arts and health framework formalised (p91).

Awards
Long-standing caregiver and recently retired Group Director Nursing, Kate Birrell, awarded a Medal of the Order of Australia (OAM) for services to nursing, particularly to professional education and the community St John of God Health Care Trustee, Therese Temby, was awarded an Officer of the Order of Australia (AO) for her services to education, and St John of God Health Care Trustee Frank Cooper AO, and Board member Peter Prendiville, were awarded Western Australian of the Year Awards in the Professions and Business categories respectively (p64-65).
OUR STRATEGIC PRIORITIES 2015–2019

Our Strategic Priorities 2015–2019 builds on and amplifies the strategies and expectations outlined by the Trustees in Our Vision 2015–2019 and assist us to achieve the outcomes identified.

01 To be a recognised leader in the Australian health sector for the provision of high quality health care

The delivery of exceptional health care is the overarching strategic priority for St John of God Health Care and this applies to all our service areas. The other four strategic priorities will enable us to achieve this critical priority.

02 To significantly increase our investment in information, analytics and technology

As a leader in health care we must significantly increase our investment in clinical and non-clinical information. Information drives practice and the required clinical information must be available to support the provision of high quality care. Timely and easily utilised information will also assist non-clinical caregivers to drive efficiency and productivity and best support our clinical care.

03 Increased agility in responding to changes in our environment and in implementing our plans

The key strategic issues we face, our predictions for what the future will look like and our implementation plans all require us to be more agile and flexible. We need to be faster at decision making and implementation. The nature of technological advances is unpredictable but likely to be significant. The nature and degree of competition is likely to materially change. We will need to be able to respond quickly in this dynamic environment.

04 Deeper partnering with key stakeholders

For St John of God Health Care to meet its objectives we need to engage more deeply with a wider range of stakeholders including patients, clients and their families. Our Vision has always required us to actively partner with other Catholic Church agencies as well as visiting medical officers. We will also strengthen our relationships with governments, health funds, media, community organisations, professional bodies, universities and other educators, as well as our own workforce.

05 Capital optimisation

Capital is a precious resource, critical to our survival and growth. Strong financial stewardship has always been important to our 119 year old Catholic Church ministry and will continue to be critical as we plan for the next century. We need to always have sufficient funds available to allow us to invest in our existing services, to develop new ones as need and opportunity warrants and to ensure we operate as a high quality service provider.

Investing in information, analytics and technology means both clinical and non-clinical caregivers will have quicker access to information, supporting the provision of timely, high quality care in our hospitals.
Our initiatives in 2015/16 under the five strategic priorities are outlined below:

**To be a recognised leader in the Australian health sector for the provision of high quality health care**
- Successfully commission and operate the new St John of God Midland Public and Private Hospitals.
- Implement best practice risk reduction initiatives for obstetric and midwifery services.
- Systematically re-engineer clinical incident review and management system.
- Publish our first St John of God Health Care online quality of care report.
- Conduct national brand perception audit and develop brand performance tracking and measurement.

**To significantly increase our investment in information, analytics and technology**
- Commence implementation of our clinical information system roll-out.
- Complete the update of our website and intranet.
- Implement IT priority projects including a new Incident Management System.
- Review and redesign clinical and non-clinical analytics and reporting for improved insight, performance-monitoring and decision making.

**Increased agility in responding to changes in our environment and in implementing our plans**
- Redesign divisional doctor accreditation processes in preparation for implementation of e-credentialling.
- Complete phase two of implementation of Health Records Forms Standardisation Project.
- Progress transformation programs for St John of God Pathology and operating rooms.

**Deeper partnering with key stakeholders**
- Transfer ownership of Hawkesbury District Health Services to St John of God Health Care and operate the public contract in partnership with the New South Wales Government, subject to approvals.
- Deepen funding partnerships that prioritise patient safety and quality of care with private health insurers and collaboratively create transparent, measurable processes and benchmarks.
- Expand internship program for Aboriginal university students under the Reconciliation Action Plan.

**Capital optimisation**
- Progress our major developments at St John of God Murdoch, Geelong, Bendigo and Mt Lawley Hospitals.
- Commence a significant capital program to build the new St John of God Berwick Hospital, in an innovative funding partnership with Generation Healthcare REIT.
- Create a capital development project management office to standardise development options, processes and reporting for future developments.

This year we will open the St John of God Midland Public and Private Hospitals in Western Australia, completed on time and on budget. The new hospitals are set to employ more than 1,000 caregivers and treat 191,000 patients in the first full year of operation. Pictured: future caregivers and their families touring the public hospital during a family open day.
OUR ORGANISATION

In this section

12 Organisation
14 Sustainability
15 Sustainability matrix
16 Chairman’s report
18 Group CEO’s report
St John of God Health Care is a ministry of the Catholic Church.

As a leading provider of high quality health care services that include hospitals, pathology, home nursing, disability and outreach services throughout Australia, New Zealand and the wider Asia-Pacific region, we strive to serve the common good and provide holistic, ethical care and support for the individual.

As a not-for-profit group, we return all surpluses to the communities we serve by updating and expanding our facilities and technology, developing new services, investing in people and providing social outreach services to people experiencing disadvantage.

Inspired by the religious women and men who founded our organisation, our services reflect a generosity of spirit that calls us to enthusiastically go beyond what might be expected. We stand in solidarity with people in their joy and suffering to deliver our services with a human touch.

Vision, Mission and Values

Vision
Our Vision for St John of God Health Care is that we live and proclaim the healing touch of God’s love. We invite people to discover the richness and fullness of their lives, give them a reason to hope, and a greater sense of their own dignity.

Mission
Our Mission is to continue the healing mission of Jesus Christ through the provision of services that promote life to the full by enhancing the physical, emotional, intellectual, social and spiritual dimensions of being human.

Values
Our Values that guide us are:

Hospitality
A welcoming openness to all; to the familiar and the mystery of self, people, ideas, experiences, nature and to God.

Compassion
Feeling with others in their discomfort or suffering, striving to understand the other’s experience with a willingness to reach out in solidarity.

Respect
The attitude which treasures the unique dignity of every person, and recognises the sacredness of all creation.

Justice
A balanced and fair relationship with self, our neighbour, all of creation and with God.

Excellence
Giving the optimum standard of care and service within the scope of available resources.

Our New Zealand division, St John of God Hauora Trust, provides health and ability services that support people living with a physical or neurological disability.
Our symbol

The pomegranate symbol represents our heritage – as the original symbol of the Sisters of St John of God – and our vision for the future. The cross is the symbol of Christianity, reminding us of Jesus’ suffering and our call to follow in His footsteps. Our five Values are reflected in the five seeds of the pomegranate, which is open to allow the seeds to scatter, providing new life and symbolising the generosity of self-giving to people in need.

Founding story

Saint John of God devoted his life to alleviating human suffering, and comforted the afflicted, sick and dying. He was particularly passionate about combating the great injustices experienced by people disadvantaged through illness or destitution.

The Congregation of the Sisters of St John of God was founded in Wexford, Ireland, in 1871. Word of their skill in health care spread rapidly and in 1895 eight Sisters were asked by Perth’s Bishop, Matthew Gibney, to travel to the Western Australian goldfields to care for the typhoid stricken. The Sisters went on to establish hospitals, pathology and social outreach services.

The Brothers of St John of God, or the Hospitaller Order of St John of God, came to Australia from Ireland in 1947 to care for people experiencing disadvantage. They began ministries in New South Wales, Victoria and New Zealand, focusing initially on helping those with learning difficulties and intellectual disability, then on psychiatric care and child and family social services.

St John of God Health Care today reflects the wisdom and inspiration of those Sisters and Brothers, as well as the many others who have contributed to our organisation, including the Sisters of St Joseph of the Apparition, various Mercy congregations, the Missionary Sisters of the Sacred Heart, the Sisters of the Franciscan Missionaries of the Divine Motherhood, and the secular traditions of those parts of our ministry sourced outside the Catholic sector.

Structure

St John of God Health Care is a wholly owned and controlled entity of St John of God Australia Ltd, a civil and canon law entity established in 2004 to sponsor the ministry previously sponsored by the Sisters of St John of God. The Sisters are members of St John of God Australia Ltd together with the majority of the dioceses in which we operate, as well as the Hospitaller Order of St John of God. This collaboration ensures a structure of sound and continuing governance and stewardship.

The non-executive Trustees of St John of God Health Care appoint members of the Board. The Board provides direction and guidance to the Group Chief Executive Officer and through him the Group Management Committee, which oversees performance in our five key result areas.

Key result areas

Our key result areas inform our annual operational plans. Further detail on how our organisation executed the plans for 2014/15 in each key result area follows throughout the Annual Report.

1. Culture (p76)
2. Excellence in care (p60-63)
3. Excellence in governance and management of resources (p101-103)
4. Formation and leadership (p76-85)
5. Social justice (p88-89)
As our Vision guides us at St John of God Health Care, we will acquire, allocate and utilise our resources justly, responsibly and in a sustainable manner.

We embark on this journey of stewardship for the people we serve, the communities in which we operate, our partners and our people. It was the Sisters of St John of God who entrusted us to continue their Mission and we do so with a view towards a long, healthy and sustainable future.

Throughout the Annual Report 2014-2015 are references to sustainable activities in the critical areas of operation within our organisation and the sustainability matrix provides a quick guide as to where to find this information.

Financial (p21)

Strong financial governance and forward-thinking strategic planning provide the foundations for financial sustainability. This is achieved through monthly management reporting, policies on authority limits and approval of expenditure, rigorous review and approval of budgets, comprehensive management of large capital redevelopments and expansions, and regular benchmarking of performance with comparable organisations.

Workforce (p75)

We attract, develop, motivate and retain high performing people within a safe and supportive work environment. We offer meaningful and innovative learning experiences that meet the expectations of our caregivers and support the organisation’s Vision, Mission and Values. We continue to review our learning and development opportunities to support and develop our caregivers in providing exceptional care.

Education and training (p72)

St John of God Health Care provides high quality training and education opportunities and contributes to a highly skilled Australian health and medical workforce. In 2014/15 we partnered with 26 universities and 30 Registered Training Organisations to provide undergraduate clinical placement opportunities for nursing, medical and allied health students from all over Australia. We have further invested in pastoral services education of our own people and others in the community through our Clinical Pastoral Education programs.

Environment (p95)

Our Group Environmental Sustainability Strategy is the framework through which the organisation reduces the environmental impact of its operations, to be a better steward of the environment. It does this by fostering an environmentally aware workplace culture, strengthening the management of environmental target areas such as utilities, waste and fleet management, ensuring appropriate resourcing and improving our measuring, monitoring and evaluation of environmental performance.

Community (p87)

In the communities in which it operates St John of God Health Care is actively contributing to the greater wellbeing, well beyond the services it provides. As a group we commit 2% of revenue to social outreach services that address disadvantage and build the capacity of local communities. We advocate for justice and compassion and contribute to strengthening community through community service, sponsorship and participation.

Culture (p75)

At St John of God Health Care our culture is informed by Gospel values where the innate dignity of each person is valued and upheld. All caregivers are equally valued as key participants in the ministry and genuine hospitality is offered to all. There is a demonstrable commitment to the organisation’s Values and justice and fairness is reflected throughout the organisation.
This is a guide to sections of the Annual Report 2014-2015 where references to our sustainable activities can be found.

</table>
Pleasingly the 2014/15 year has seen St John of God Health Care Inc. continue to expand and develop its ministry of delivering distinctive care in accordance with our Catholic tradition.

This year we have seen many of the trends we forecast when preparing our five year strategic priorities proved accurate: a decline in the broader Australian economy; increased pressure on government budgets and health care funding and greater accountability to health funds, which face their own fiscal and competitive challenges.

While St John of God Health Care felt the impact of these challenges, our five strategic priorities have positioned us well to respond to the changing environment and to continue to provide outstanding care in accordance with our Mission.

Redevelopments and projects

St John of God Health Care continues to invest in new developments and redevelopments that meet the growing demand for health care services and community expectations of the private hospital experience.

In 2014/15 we completed a number of major capital developments. All were delivered on budget and either on time or ahead of schedule. These include substantial refurbishments and expansions at our St John of God Murdoch and Geelong Hospitals and rebuilding of facilities at our Accord disability service in Victoria and our Hauora Trust service for people with physical disability in New Zealand.

Most significantly, the St John of God Midland Public and Private Hospitals, a Public Private Partnership with the State Government of Western Australia, achieved practical completion on time and on budget and handover occurred in June 2015. Work has now commenced on commissioning and the hospitals are well on track to open as scheduled in November 2015.

Approval was also given to proceed with three new capital projects: a $20 million project to establish cardiac surgery at St John of God Geelong Hospital, a facilities upgrade at St John of God Mt Lawley Hospital and a $120 million greenfield development for St John of God Berwick Hospital, which will increase capacity in one of Australia’s fastest growing residential corridors.

We continue to look at ways to optimise capital while expanding our services and are using an innovative funding model at St John of God Berwick Hospital, a partnership with a listed health care property trust with joint ownership and construction of the base building and a long term lease to St John of God Health Care as operator to fit out and operate clinical services from the facility.

Social justice and outreach

Social justice and outreach are a core part of our ministry. St John of God Health Care allocates 2% of revenue each year to help address inequity and improve health and wellbeing in communities with extra needs.

At a group level, St John of God Health Care commenced a new five year Social Outreach strategy in 2014/15. Among other things, we have initiatives to deepen our already significant support for homeless youth through augmenting our Horizon House program to provide a supported approach to independence. In addition, we are implanting a new model of support for families grappling with perinatal depression that will allow us to double the number of people we can service through our Raphael Services program in the next five years, and programs to extend capacity building through our international health activities.
Reconciliation Action Plan and Disability Access and Inclusion Action Plan

We have made great progress implementing our Reconciliation Action Plan across a range of areas in employment, education, parenting and family support, and local community partnerships.

In the coming year we will progress our new Reconciliation Action Plan 2015–2017 which will include stretch targets.

We have also achieved good results with our Disability Access and Inclusion Plan. We have a focus on opening up employment opportunities and in 2014/15 we employed a further 23 people with a declared disability. We have also progressed our advocacy agenda and will continue this work under our new Disability Access and Inclusion Plan 2014-2017.

Changes to Board

This year there were a number of changes to the Board. Jay Bonnington and Dalton Gooding completed their terms and Kerry Sanderson resigned to take up the position of Governor of Western Australia. I thank these three hardworking Board members for their contributions to St John of God Health Care.

I am pleased to welcome in their places the Hon Robert Knowles AO, Justin Carroll and Dr Julie Caldecott, who bring a diverse and rich skill base to our Board.

Year ahead

We expect continuing challenges for the health care industry in the year ahead.

While health funds continue to feel the squeeze as younger members demand cheaper products and older members claim more benefits, St John of God Health Care believes there is a strategic driver to partner more closely with health funds to achieve quality outcomes and improve productivity. Openness and transparency through public reporting will help drive a quality agenda.

We will also continue our push to do more in public health and establish deeper partnerships with governments. St John of God Health Care has reached agreement to take over the operation and management of Hawkesbury District Health Service in New South Wales, which will be our second Public Private Partnership.

I would like to end by thanking our Group Chief Executive Officer, Dr Michael Stanford, and all our caregivers, doctors, allied health professionals and volunteers for their continued dedication to continuing the ministry of St John of God Health Care and ensuring we remain at the forefront of exceptional care.

Tony Howarth AO
Chairman
Continual improvement of clinical outcomes, access to technology and research, a highly skilled and engaged workforce, the best possible patient experience and above all compassionate and human-centred care are what we consider to be the hallmarks of exceptional care.

Our activities in 2014/15 have focused on all these aspects, approached through the framework of our five strategic priorities, particularly our overarching priority to be a leader in the Australian health sector for the provision of high quality health care.

Service quality and clinical excellence

I’m delighted to report we received our highest ever inpatient satisfaction score in the internationally benchmarked Press Ganey surveys this year. We also performed strongly in the day patient and private emergency categories and received several ‘best in class’ awards.

The five hospitals that underwent accreditation this year not only met all required standards but achieved an average of 19 ‘Met with Merit’ ratings.

Importantly we continued to rank well above the national benchmark in the quality measures reported by the National Hospital Performance Authority on the MyHospitals website.

We will continue to focus on service quality and excellence in the coming year and will be accelerating our major long-term project to implement clinical information systems in all our hospitals by 2019. This will transform our current clinical processes and improve analytics, enabling enhanced clinical outcomes.

Financial stewardship

Largely as a result of the full year impact of our acquisition of St John of God Mt Lawley Hospital in Perth in May 2014, and the outstanding successes of our major St John of God Geelong Hospital (Victoria) expansion in June 2014 and our St John of God Murdoch Hospital (Western Australia) expansion in August 2015, our revenue grew 12.5% to $1.3 billion.

Our hospital-generated EBITDA (earnings before interest, tax, depreciation and amortisation) grew 17.6% driven by our growth of 389 beds (72 day, 317 overnight) during the year.

Activity matters to the efficient operation of hospitals and we were delighted during the year to see overnight patient numbers (separations) increase 12.5% and same day patients increase 11.2%. For the first time our obstetric deliveries exceeded 10,500.

Unfortunately we are finding pathology to be a very difficult industry environment with collection centre rentals continuing to escalate in a slow growth market. With healthy inpatient growth of 4.3% but below trend outpatient growth of 1.2% our pathology revenue grew only 2.5%. Pathology-generated EBITDA fell 12.4%.

People

As we have grown our services our workforce has also expanded. St John of God Health Care now employs 11,415 caregivers, just over a 5% increase on the previous year.

I am pleased to report that in our biennial Press Ganey Caregiver Satisfaction Survey we achieved our highest ever mean score, a 3.5% improvement as a result of many efforts aimed at increasing employee engagement.

An area of focus for the coming year is occupational health and safety where we have seen a slight increase in lost time injury frequency rates. It is our responsibility to keep our people safe and send them home healthy and we will be giving this area significant focus in the coming year to meet our goal of zero harm to caregivers.

Changes to Group Management Committee

In 2014/15 two long-serving Group Management Committee members retired. Kate Birrell, who commenced at St John of God Geelong Hospital in 1968, resigned as inaugural Group Director of Nursing after 12 years in that role. Kate was awarded a Medal of the Order of Australia (OAM) this year in recognition of her services for nursing.
Jennifer Stratton, our first lay Group Director of Mission also retired concluding 15 years of outstanding service. I thank them both for their wonderful contribution to St John of God Health Care and I welcome John Pease who has taken up the newly created position of Group Director Governance as we strengthen our focus on risk, compliance and assurance.

**Year ahead**

The commissioning and successful operation of the 367-bed St John of God Midland Public and Private Hospitals is our biggest priority. With commissioning due in November 2015 an enormous amount of work is going into this undertaking.

Our announcement in June 2015 of the agreement to purchase the Hawkesbury District Health Service (New South Wales) contract from Catholic Healthcare Ltd is expected to lead to a transfer of responsibility for the 125-bed hospital and community services in October 2015. Integration of Hawkesbury District Health Service into the St John of God Health Care family will bring many benefits to the community it serves.

We will also continue to consolidate the work we’ve commenced under our strategic priorities, ensuring that our patients and clients remain at the centre of everything we do.

I thank my Group Management Committee, our 11,415 caregivers, our doctors, allied health practitioners, volunteers, donors and consumer representatives who make up the great community of St John of God Health Care for their dedication and work in 2014/15 and look forward to continuing the Mission that is at the centre of everything we do in the coming year.

Dr Michael Stanford
Group Chief Executive Officer

</table>
The increase of 12.5% in total revenue was mostly accounted for by a 14.3% increase in hospital revenue. The full year impact of our Mt Lawley Hospital acquisition and our Geelong Hospital redevelopment, plus our Murdoch Hospital redevelopment completed in August were the key revenue drivers.

Whilst our like-for-like operating EBITDA rose 14.6%, our total EBITDA reduced by 8.6% due to increased expenditure on mission and pastoral care (+18.7%), social justice initiatives (+11.3%), and research (+41.3%). In addition a one-off profit on the St John of God Wexford Medical Centre development in FY14 did not recur in FY15.

Our EBITDA margin dropped this year to be below our long term (10 year) average of 9.7%. The principal change from the prior financial year was that in FY14 we achieved a one-off development profit from the St John of God Wexford Medical Centre which inflated the FY14 figures. Our $5 million increased commitment in FY15 to social justice, mission, pastoral care and research also reduced our margin.
Our ongoing investment in facility developments has required us to increase our bank debt during the year. As a not-for-profit charity, our ability to invest to service the community depends on the surplus we generate and the extent of commercial borrowings. We work closely with our banks and are conservative with regard to gearing levels.

Our total revenue growth of 12.5% was largely driven by 14.7% growth in our WA revenue. Vic revenue grew by 9.2%, NSW by 7.4% and NZ by 9.8%. Revenue growth in WA was largely driven by the full year impact of our Mt Lawley Hospital acquisition and impact of our Murdoch Hospital redevelopment.

Total separations increased by 11.6% with (for the first time in some years) overnight separations rising at a faster rate than same day separations (12.5% vs 11.2%). This occurred due to the full year impact of our Mt Lawley Hospital acquisition and our various facility redevelopments. Same day patients now represent 60.4% of all patient admissions.

As a Church-owned charity, an important expression of our Mission is our commitment to social justice. In FY15 we increased our St John of God Health Care contribution for social justice activities by 43%. Primarily this was due to a $7.2 million expenditure to dramatically upgrade our day patient facilities at St John of God Accord, our intellectual disability service.

As a Church-owned charity, an important expression of our Mission is our commitment to social justice. In FY15 we increased our St John of God Health Care contribution for social justice activities by 43%. Primarily this was due to a $7.2 million expenditure to dramatically upgrade our day patient facilities at St John of God Accord, our intellectual disability service.
The 14.8% increase in procedures was predominately due to a 17.1% increase in procedures for same day patients. The proportion of same day patients having procedures increased from 58.3% to 61.5%. The proportion of overnight patients undergoing procedures dropped slightly from 64.9% to 64.4% due to the numbers of medical and rehabilitation patients increasing.

The overall number of emergency department presentations rose by 20.6% due to the advent of our third emergency department in June 2014, located at our Geelong Hospital. Small declines in presentations occurred at our Murdoch and Ballarat Hospitals. St John of God Geelong Hospital’s 9,341 presentations greatly exceeded expectations for a new service.

For the first time in St John of God Health Care’s history, the number of babies born at our hospitals exceeded 10,500. The increase of 10.1% was largely due to the full year effect of our Mt Lawley Hospital acquisition.

In the highly competitive and difficult private pathology industry our total episode growth reduced from 5.3% in FY14 to 2% in FY15. The greatest proportion of that growth was attributable to inpatients, which grew 4.3% during the year, increasing our market share in that segment. Outpatient growth of 1.2% reflects intense competition and resulting high rental payments.
This summarises progress in our key result areas against the Group Operational Plan 2014/15 and outlines our focus for 2015/16. Outcomes generally affect multiple divisions or a significant component of our operations. Progress has been recorded using the following symbols:

✔ Achieved ➔ Good progress made ➔ Not achieved or delayed

BUILDING HEALTHY COMMUNITIES

St John of God Health Care continues to invest in redevelopments at our existing hospitals, and we partner with the state and federal governments on the new St John of God Midland Public Hospital.

Our building projects are a significant aspect of our commitment to strengthening the communities in which we operate. Through the provision of new and innovative services, we can deliver our distinctive, quality care to more people.

St John of God Midland Public and Private Hospitals (p36-37)

Greenfield Development 2012-2015
- St John of God Health Care has a 23-year contract with the Government of Western Australia to build and operate a public hospital in Midland, Perth. This project represents a joint state and federal government investment of $340 million with St John of God Health Care investing a further $70 million in an integrated private hospital.
- Construction began in August 2012 and was completed on time and on budget in June 2015. The hospitals are scheduled to open in November 2015.
- The 307-bed public hospital will offer a wide range of services free of charge to public patients in Perth’s eastern suburbs and areas of the Wheatbelt, while the 60-bed private hospital will offer the choice of private health care.
- The public hospital will significantly increase the number of patients able to be treated locally from 35% to 75%.

St John of God Accord (p44)

Redevelopment 2014
- St John of God Accord completed an $8 million project comprising purpose-built buildings and outdoor areas specifically designed for the delivery of day services to people with an intellectual disability. The facilities were completed within budget and officially opened in April 2015.

St John of God Bendigo Hospital (p46)

Redevelopment 2014-2016
- St John of God Bendigo Hospital has commenced a $41 million redevelopment project which will extend the existing three levels of the hospital and add 46 new beds. In addition, the project will deliver a new operating theatre and upgraded parking facilities.
- An upgrade and refurbishment of 69 rooms, existing theatres, front reception, the atrium and external façade is also planned as part of the redevelopment.
St John of God Berwick Hospital (p47)

Greenfield Development 2015-2018
• St John of God Health Care has agreed terms with listed property group Generation Healthcare REIT for a new $120 million hospital in Berwick. Once complete, all acute services will relocate to the new hospital, which will be co-located with Casey Public Hospital.
• St John of God Health Care and the developer will jointly own and construct the base building with St John of God Health Care entering into a long term secured lease to fit out and operate clinical services from the facility.
• The new facility will increase capacity of St John of God Berwick Hospital from 74 beds to 190 and from four theatres to six, with potential to increase to over 300 beds.
• The existing St John of God Berwick Hospital will undergo its own redevelopment to provide additional services when the new facility is completed.
• Construction is scheduled to commence in October 2015 and is due for completion in late 2017.

St John of God Geelong Hospital (p49)

Redevelopment 2014-2016
• St John of God Geelong Hospital has commenced a $20 million project to upgrade and expand its facilities to provide enhanced cardiac services.
• The project will also include a new eight-bed intensive care unit with capacity to expand to 12 beds, as well as refurbish the existing critical care unit.

St John of God Mt Lawley Hospital (p38)

Post acquisition upgrade 2015-2017
• St John of God Mt Lawley Hospital commenced a $17 million redevelopment in 2015 to upgrade various areas identified during the transfer from MercyCare in May 2014.

St John of God Murdoch Hospital (p40-41)

Redevelopment: 2011-2014 (stage one), 2014-2018 (stages two and three)
• Stage one of St John of God Murdoch Hospital’s $236 million redevelopment was completed in 2014/15 on budget and ahead of schedule.
• Stage two of the redevelopment project commenced in 2014/15 and includes the refurbishment of six existing wards, fit out of two theatres built in stage one, foyer refurbishment and construction of a new chapel.

St John of God Murdoch Hospital opened the 120-bed South Wing in July 2014, which is also home to a new 20-chair cancer centre.

St John of God Wembley Day Surgery

Development 2012-2015
• A $9 million project to develop and fit out a 23-hour day surgery unit was completed on budget in April 2015 and comprises three operating theatres, six stage-one recovery beds, nine stage-two beds, six chairs in the discharge lounge and eight overnight beds located adjacent to St John of God Subiaco Hospital.

St John of God Hauora Trust (New Zealand) (p54)

Redevelopment 2011-2014
• The $8 million (AUD) earthquake recovery works and second disability home in Selwyn were completed in 2015 on time and within budget, which increased capacity and strengthened our commitment to vulnerable clients in New Zealand.

Performance Snapshot

Services

- Completed expansion and refurbishment of the Renal Dialysis Unit from seven to 11 chairs. The refurbishment included two new isolation rooms, a new reverse osmosis machine, new dialysis machines, four additional treatment chairs and an additional lift for the medical centre.
- Commenced interventional cardiac angioplasty services.
- Increased the services provided by the McGrath Breast Cancer Nurse and Prostate Cancer Specialist Nurse.
- Provided 4,264 nights of accommodation at the South West Cancer Accommodation Centre.
- Relocated the St John of God Busselton Day Hospital Renal Dialysis Unit into the new Busselton Health Campus in March 2015.
- Piloted online patient admission registration in five surgeons’ practices to improve patients’ convenience and access.
- Completed the adoption of patient and visitor online feedback and satisfaction surveys through the use of mobile technology.
- Increased the routine use of telehealth especially for regional palliative care patients and general practitioners.

Community

- Caregivers volunteered for the twice-yearly Tour de Gracetown, a charity cycling event that raises funds for the South West coronary care service and the South West cancer service.
- Provided funding to Peel Youth Medical Service to employ a youth case manager and administrative support position.
- Was successful in a tender to the Western Australian Government to continue providing community alcohol and drug services at the South West Community Alcohol and Drug Service.
- Donated theatre equipment, pharmaceuticals and consumables to surgical nurses, anaesthetists and surgeons providing services in remote Western Australia and overseas.

Year ahead

- Expand the community alcohol management project officer positions to two regional towns in the South West.
- Increase our Aboriginal health services to local Noongar communities.
- Expand the cardiac and intervention services provided by the hospital.
- Actively promote the specialist medical services available at the South West Health Campus to the local community.
- Increase the utilisation of the Australian Government’s electronic health records to cancer and dialysis patients.
- Partner and support regional specialists to increase their availability to private patients and to also support regional general practitioners.
- Increase our research endeavours and participation in medical registries.

People

- Raymond Grapes returned to the role of Director of Mission in March 2015.
- Recruited an additional resident intervention cardiologist and increased the hospital registrar cover to support the new cardiac services.
- Introduced a hospital liaison position within the co-located public hospital’s emergency department to support patient admission to the private hospital.
- Undertook 718 clinical research nurse hours throughout the year.

- Increase our research endeavours and participation in medical registries.

People

- Raymond Grapes returned to the role of Director of Mission in March 2015.
- Recruited an additional resident intervention cardiologist and increased the hospital registrar cover to support the new cardiac services.
- Introduced a hospital liaison position within the co-located public hospital’s emergency department to support patient admission to the private hospital.
- Undertook 718 clinical research nurse hours throughout the year.
Services

- Commenced private paediatric orthopaedic services in May 2015 with the recruitment of a resident paediatric-trained orthopaedic surgeon. This means patients will not need to travel to Perth for treatment.
- Completed a major upgrade of the air conditioning systems to improve temperature control and deliver savings in running and maintenance costs.
- Installed external ramps, signage and tactile ground surface indicators to improve physical access to the hospital for people with a disability.
- Invested $200,000 in a new nurse call system and televisions for the hospital to enhance patient safety and experience.
- Ranked at the 75th percentile for day patient satisfaction and the 83rd percentile for inpatient satisfaction in the annual Press Ganey Survey of patients from hospitals in the All Hospital peer group.
- Ranked at the 77th percentile for doctor satisfaction in the annual Press Ganey Survey.

People

- Recruited a second resident ophthalmic surgeon in April 2015.
- Ranked at the 88th percentile for caregiver satisfaction in the biennial Press Ganey Caregiver Satisfaction Survey, up from the 13th percentile in 2013.
- Commenced simulated patient deterioration training workshops in collaboration with Western Australian Centre for Rural Health to improve nursing skills in responding to the deteriorating patient.

Community

- Developed a Memorandum of Understanding with Bundiyarra Aboriginal Community to improve collaboration and understanding between the two organisations and to enhance the hospital’s services in relation to caring for Aboriginal patients.
- Established a collaborative partnership with the Diocese of Geraldton, Horizon House Geraldton and Centacare Geraldton to provide routine maintenance and gardening services.
- Established an inaugural consumer advisory group to advise the hospital in every aspect of care delivery.
- Hosted an art exhibition featuring drawings and paintings from international artist Frida Lezius. The success of this exhibition has led to the commitment to bi-annual exhibitions as a way of expanding the hospital’s arts program.
- Introduced a charity of the year program to allow for funds raised throughout the year to be donated to one worthy organisation.

Year Ahead

- Collaborate with WA Country Health Service and Mid West Development Commission on a Mid West Health and Wellbeing Plan for the region.
- Work in collaboration with the Licensing and Regulatory Unit of WA Health to plan and carry out renovations in the operating suites to expand storage areas and improve functionality and efficiency.
At the Forefront of Exceptional Care

• Made more than 700 offers of employment, of which around 500 were to Swan District Hospital staff.
• Established the patient flow throughout the hospitals by charting the entire patient journey.
• Mapped the interfaces and relationships between each clinical specialty and external services, such as community health and social services.
• Installed the core information and communications technology (ICT) infrastructure in the hospital, completed user acceptance testing of the patient administration and clinical information systems, and close to completing interoperability requirements with the State’s ICT Systems.
• Received the inaugural Annual Notice from WA Health that outlines the amount and composition of the services to be provided by the public hospital from November 2015 to June 2016.
• Began preparations for a series of critical path licensing approvals and accreditation surveys necessary to open both hospitals.
• Began to install the first of 11 public artworks in the public hospital as part of the State Government’s Percent for Art Scheme.

People

• Dr Glen Power appointed Chief Executive Officer in January 2015.
• Katherine Wray appointed Director of Finance in September 2014.
• Craig Donovan appointed State Contract Manager in April 2015.
• Appointed all Medical Heads of Department between October 2014 to April 2015 including: Dr Amanda Boudville, Department of Aged Care and Rehabilitation; Dr Mike Babon, Department of Anaesthetics; Dr Michele Genevieve and Dr Matt Summerscales, Department of Emergency Medicine; Dr Mary Theophilus, Department of General Surgery; Dr Helen Bell, Department of Medicine; Mr Gavin Clark, Department of Orthopaedic Surgery; Dr Peggy Nair, Department of Paediatrics; and Dr Amit Banerjee, Department of Psychiatry.
• Made more than 700 offers of employment, of which around 500 were to Swan District Hospital staff.
• Launched an innovative online community to engage with the hundreds of caregivers who have accepted jobs at the hospitals.

Construction and services planning

• Completed accreditation for all intern and resident medical officer positions with the Postgraduate Medical Council of Western Australia, and trainee registrars with the Royal Australasian College of Physicians (General Medical and Geriatric training), the Australasian College of Emergency Medicine and the Australian and New Zealand College of Anaesthetics, and finalising accreditation for trainee registrars with the Royal Australian and New Zealand College of Psychiatry.
• Developed a ground-breaking Aboriginal workforce strategy that includes a commitment to retain over 30 roles and positions at the hospital for Aboriginal candidates, including frontline Aboriginal health workers and nurses in the Emergency Department, senior medical and nursing appointments and other non-clinical roles.
• Finalised a Memorandum of Understanding with Marr Mooditj Training to offer clinical placements for Aboriginal enrolled nursing students.
• Continued to develop relationships with educational organisations and inform them about education and training opportunities at the new hospitals.

Community

• Appointed two new members to the Community Advisory Council who will provide valuable input from an Aboriginal and multicultural community perspective.
• Continued a significant program of community engagement to educate the community about the new, expanded and other services that will be provided at the public hospital, free of charge to public patients.
• Hosted more than 600 people on site tours, including St John of God Health Care caregivers, Swan District Hospital staff and community groups.
• Ran a third consecutive annual round of Community Wellbeing Grants including awarding grants of $1,000 to Rush and $2,000 to the Eastern Region Domestic Violence Services Network.
• Appointed our second Aboriginal Youth Ambassador, Jack Whitby, and part-funded his school science tour to the United States of America that included a visit to The National Aeronautics Space Administration (NASA).
• Continued to reach out to a geographically large and diverse community to ensure they understand when the public hospital is opening and that it will provide free public hospital care.
• Commenced discussions with Curtin University on future interactions with the new Curtin Medical School, which will be located adjacent to the new hospitals.

ST JOHN OF GOD MIDLAND PUBLIC & PRIVATE HOSPITALS

Opening: 24 November 2015
Location: 1 Clayton Street, Midland
Chief Executive Officer: Dr Glen Power
Medical Advisory Committee Chair: Dr Amanda Boudville

Beds: 307 public, 60 private
Staff: 1,030 when fully operational
Theatre and procedure rooms: Nine theatres and three procedure rooms
Services: Public: General medicine and sub-specialties, general surgery and specialties, Aboriginal health, allied health, chemotherapy, coronary care, day surgery, emergency, intensive care, mental health, obstetrics, oncology, paediatrics and rehabilitation. Private: Medicine, surgery and day surgery.

Services:

- Western Australia

Australasia

Medicine, surgery and day surgery.

Australia – Western Australia

Construction and services planning

- Achieved practical completion and handover of the newly constructed hospital building in June 2015 as certified by an independent surveyor.
- Began to develop models of care for each clinical specialty, including ensuring the clinical design and clinical plans are reflective of each service.
- Implemented the patient flow throughout the hospitals by charting the entire patient journey.
- Mapped the interfaces and relationships between each clinical specialty and external services, such as community health and social services.
- Installed the core information and communications technology (ICT) infrastructure in the hospital, completed user acceptance testing of the patient administration and clinical information systems, and close to completing interoperability requirements with the State’s ICT Systems.
- Received the inaugural Annual Notice from WA Health that outlines the amount and composition of the services to be provided by the public hospital from November 2015 to June 2016.
- Began preparations for a series of critical path licensing approvals and accreditation surveys necessary to open both hospitals.
- Began to install the first of 11 public artworks in the public hospital as part of the State Government’s Percent for Art Scheme.

People

- Dr Glen Power appointed Chief Executive Officer in January 2015.
- Katherine Wray appointed Director of Finance in September 2014.
- Craig Donovan appointed State Contract Manager in April 2015.

Developed a ground-breaking Aboriginal workforce strategy that includes a commitment to retain over 30 roles and positions at the hospital for Aboriginal candidates, including frontline Aboriginal health workers and nurses in the Emergency Department, senior medical and nursing appointments and other non-clinical roles.

Finalised a Memorandum of Understanding with Marr Mooditj Training to offer clinical placements for Aboriginal enrolled nursing students.

Continued to develop relationships with educational organisations and inform them about education and training opportunities at the new hospitals.

Appointed two new members to the Community Advisory Council who will provide valuable input from an Aboriginal and multicultural community perspective.

Continued a significant program of community engagement to educate the community about the new, expanded and other services that will be provided at the public hospital, free of charge to public patients.

Hosted more than 600 people on site tours, including St John of God Health Care caregivers, Swan District Hospital staff and community groups.

Ran a third consecutive annual round of Community Wellbeing Grants including awarding grants of $1,000 to Rush and $2,000 to the Eastern Region Domestic Violence Services Network.

Appointed our second Aboriginal Youth Ambassador, Jack Whitby, and part-funded his school science tour to the United States of America that included a visit to The National Aeronautics Space Administration (NASA).

Continued to reach out to a geographically large and diverse community to ensure they understand when the public hospital is opening and that it will provide free public hospital care.

Commenced discussions with Curtin University on future interactions with the new Curtin Medical School, which will be located adjacent to the new hospitals.
Year ahead

- Finalise clinical services planning and undertake clinical commissioning to ensure clinical services delivery, equipment and infrastructure, caregiver induction and orientation are tested and ready for opening.
- Finalise the information services program and installation and testing of all systems and equipment required to run the hospitals, including clinical scenario testing and training for end users.
- Finalise patient transfer and reception planning, including logistics, communication and scenario testing.
- Finalise registrar accreditation with the Colleges of Orthopaedics, Surgery and Anaesthetics.
- Complete recruitment to ensure the required complement of caregivers with the correct skill mix is in place for opening.
- Open both hospitals on 24 November, when we expect up to 150 patients to be transferred from the existing Swan District Hospital to the new St John of God Midland Public Hospital.
- Deliver about 120,000 patient episodes of care from 24 November to the end of the financial year.
ST JOHN OF GOD
MT LAWLEY HOSPITAL

Established: 1937
Location: Thirlmere Road, Mt Lawley
Chief Executive Officer: Ms Chris Hanna
Medical Advisory Chair: Dr Anne Brady

Australia – Western Australia

Services

- Completed integration from Mercy Hospital Mount Lawley to St John of God Mt Lawley Hospital, with all systems, processes and policy changes made to reflect current practices.
- Continued redevelopment with $4.4 million invested in a refurbished front reception, upgraded admissions area, refurbished day surgery unit, upgrades to the service areas of theatres and the endoscopy unit, and new hospital equipment.
- Commenced postnatal ‘mums and bubs’ workshops as part of a service review recommendation with around 12 mothers attending each month.
- Experienced strong growth in the inpatient specialist rehabilitation service with a 44.5% increase in patient days from last year.
- Partnered with the Western Australian Department of Health and the Western Australian Mental Health Commission to provide public restorative services and mental health services to older adult patients.
- Received a $10,000 grant from Samsung to purchase an obstetric education mannequin which is used in the training of caregivers in childbirth emergencies.

Community

- Donated $4,000 to A Midwife’s Gift, a fundraising campaign led by Mt Lawley midwife, Kristy Wiegele, to purchase a cold cuddle cot for every maternity hospital in Western Australia.
- Provided internships for two Aboriginal university students in the specialist rehabilitation service, as part of a group wide partnership with CareerTrackers.
- Raised $625 for Caritas Australia and $500 for community-based mental health organisation GROW.
- Pledged $1,000 to the Lions Cancer Institute’s, Special Children’s Big Day Out.
- Introduced a charity of the year program to allow for funds raised throughout the year to be donated to one worthy organisation.

Year Ahead

- Continue redevelopment in the operating theatre storage areas, kitchen, central sterilising department and the ward areas of the hospital.
- Introduce an outpatient rehabilitation program, a new service that helps people return to everyday activities through a six week program.
- Complete the cognitive impairment project, which aims to improve hospital and community care of patients with dementia and Alzheimers.
- Establish a consumer reference group as part of a commitment to patient-centred care.

People

- Mario Bugna appointed Director of Mission in March 2015.
- Julia Morison appointed Director of Finance in May 2015.
- Midwife, Kristy Wiegele, won the Consumer Appreciation Award at the Western Australian Nursing and Midwifery Excellence Awards.
- Midwife, Joan Wild, was awarded Midwife of the Year for Western Australia by the Australian College of Midwives and Johnsons Baby.

- Received a $10,000 grant from Samsung to purchase an obstetric education mannequin which is used in the training of caregivers in childbirth emergencies.
St John of God Mt Lawley Hospital Chaplain, Father Brian, blesses the newly refurbished admissions area, part of the $17 million redevelopment of St John of God Mt Lawley Hospital.
Services

- Completed stage one of St John of God Murdoch Hospital’s $236 million redevelopment on budget and ahead of schedule.
- Opened a new cancer centre in August 2014 with 20 treatment chairs and a range of patient amenities.
- Commissioned 90 new inpatient beds in August 2014 and 10 new intensive care unit beds in September 2014.
- Commissioned four new theatres in August 2014 and a further two in November 2014.
- Completed an expansion of the central sterile supply department and kitchen in October 2014 and expansion of the hospital car park.
- Continued stage two of redevelopment including the refurbishment of the original six 1994 wards, the hospital foyer and patient administration area and construction of a new chapel.
- For a second year running, the Emergency Department was rated the ‘top large private emergency department in Australia’ by patients, and in the top 10% of all public and private emergency departments in the country in the annual Press Ganey Survey.
- Ranked at the 77th percentile for day patient satisfaction in the annual Press Ganey Survey of patients from participating public and private hospitals, up from the 55th percentile last year.
- Introduced the K2MS Guardian in the maternity ward, an electronic foetal monitoring system that allows the treating team to view the cardiotocograph trace of a baby before birth and during labour on a screen in a central station or the obstetrician’s phone or tablet.
- Partnered with Murdoch University on a project to further develop simulated training methods, made possible with funding from Health Workforce Australia.
- Implemented ultraviolet light auditing to inspect cleanliness in patient rooms.
- Initiated Western Australia’s first dedicated arts television channel for patients, featuring a series of 30 minute episodes that bring to life the artworks in the hospital’s art collection.

People

- Roshan Weddikkara appointed Director Marketing and Community Relations in March 2015.
- Dean Lavers appointed Director Facilities Management in March 2015.
- Clinical nurse, Bronzie Hicks, won the 2015 Ansell H.E.R.O Nurse Service Award in recognition of her lasting impression on peers, patients, the profession and the community.
- Registered nurse, Meagan Taylor, won the Cancer Nurses Society Australia’s Peoples’ Choice Award for best poster.
- Achieved AS/ NZS 4801:2001 and OHS 18001:2007 certification (occupational health and safety standards) and won a WA WorkSafe Safety Award for best safety and health management system in the private sector.
- More than 200 new caregivers were recruited as part of the Groundbreaker campaign to support expanded services at the hospital. Of these caregivers, 14 commenced employment supported by a disability employment service.
- Emergency department doctor, Nola McPherson, passed the final exam of the Fellowship of the Australasian College for Emergency Medicine in May 2015.
- Four midwives from the maternity ward qualified as lactation consultants in November 2014 with the International Board of Certified Lactation Consultants. This brings the total number of lactation consultants on the maternity ward to nine.

Community
- Raphael Services at St John of God Murdoch Hospital, in partnership with Fremantle Multicultural Centre, began providing the Circle of Security Program for culturally and linguistically diverse and refugee women. The program provides a supportive environment for women and their children to address any parenting concerns they may have.

Year ahead
- Continue stage two of redevelopment, with the foyer expansion and chapel construction to be finished by December 2015.
- Complete clinical services planning and renewed master site planning in response to expanded services at the hospital.
- Commission a major public artwork for the hospital entrance and foyer.
- Increase clinical collaboration with Fiona Stanley Hospital, including identifying clinical synergies and opportunities to work together across a variety of disciplines.
- Implement a new wayfinding and signage strategy, with the installation of one consistent signage design and system across the campus and the removal of old signage both internally and externally.
- Undergo accreditation through the Australian Council on Healthcare Standards EQuIP National Organisational Wide Survey in August 2015.
- Expand the arts program to include live music opportunities in hospital wards.
- Release and launch the inaugural St John of God Murdoch Hospital Centre for Nursing and Midwifery Research Report.

Caregivers from the St John of God Murdoch Hospital’s emergency department, which for a second year running was named the ‘top large private emergency department in Australia’ by patients.

### Services

- **Opened the $9 million St John of God Wembley Day Surgery in April 2015. The facility has three operating theatres and 23 beds including the capacity to admit eight patients overnight.**
- **Purchased a Stryker orthopaedic robot in April 2015, the first of its kind in Australia. The robot is currently used for partial knee replacement surgery and allows for more rapid recovery and a shorter hospital stay for patients.**
- **Commenced an endoscopic ultrasonography service that allows detailed imaging and examination of the oesophagus, stomach lining and others parts of the digestive tract.**
- **Ranked at the 91st percentile for day patient satisfaction and the 91st percentile for inpatient satisfaction in the annual Press Ganey Survey of patients from the same peer group, the highest results achieved by the hospital in 10 years.**
- **The Drug and Alcohol Withdrawal Network successfully completed a maintenance accreditation audit against the Standard of Culturally Secure Practice (Alcohol and Other Drug Sector) in June 2015.**
- **Established free lifestyle and early pregnancy community classes in February 2015 for anyone planning or in the early stages of pregnancy.**
- **Implemented the first stage of a new online admissions portal, giving patients the option of completing their admission online.**
- **Introduced an electronic auditing program, Measurement, Assessment and Reporting System, that provides rapid insight and access to a range of data to assist with clinical decision making.**
- **Installed ICNet software, an automated case management surveillance system designed to help reduce health care associated infections.**

### People

- **The hospital made a number of significant appointments at a senior level throughout the year including Dr Joe Pracilio as Deputy Chief Executive Officer, Dr Andrew Yeates as Director of Strategic Development and Dr Nik Zeps as Head of St John of God Subiaco Hospital Medical Research Network.**
- **Dr Andrew Wesseldine appointed Director Post Graduate Medical Services (incorporating Director Clinical Physician Training) in October 2014.**
- **Mr Michael Levitt appointed Clinical Director of Training in Surgery in September 2014.**
- **Professor Gabriel Lee appointed Head of Department Neurosurgery in June 2015.**
- **Mr Stephen Archer appointed Head of Department General Surgery in July 2014.**
Head of Department Paediatrics in June 2014.

• Professor Christobel Saunders appointed Director Breast Research in July 2014.

• Dr Joe Pracilio and Dr Nik Zeps appointed to the External Advisory Board for The University of Notre Dame, School of Medicine.

• Professor Eric Visser appointed Churack Chair of Chronic Pain Education and Research in April 2015, a joint appointment with The University of Notre Dame.

• Nurse Practitioner, Jill Kelly, was appointed an Adjunct Senior Lecturer at The University of Notre Dame in March 2015.

• Nurse Practitioner Palliative Care, Louise Angus, and Nursing and Midwifery Research Coordinator, Janie Brown, won Western Australian Nursing and Midwifery Excellence Awards for Excellence in Leadership - Emerging Leader and Excellence in Research.

• Clinical Nurse Specialist, Jeffrey Butterfield, was a finalist in the Western Australian Nursing and Midwifery Excellence Awards for Consumer Appreciation.

• The St John of God Subiaco Hospital soup patrol team won the 2015 Distinguished Team Award from the Red Cross Soup Patrol.

• Long serving and much loved hospital chaplain, Father Bryan Tiernan, retired in January 2015 after eight years of service.

Community

• Reinvigorated the consumer advisory committee to include a member group of 18 partners who offer support and input from the perspective of the local community.

• Raised $7,548 for the Clontarf Foundation, St John of God Subiaco Hospital’s Charity of Choice.

• Hospital volunteers raised nearly $31,800 for various social justice projects.

• Donated $5,000 to the Emerikus Land Foundation to purchase a cold cuddle cot for a maternity hospital in Western Australia.

• Continued to support various community organisations including Operation Rainbow, CanTeen and Rafiki Surgical Mission. Continued support for Horizon House Dianella and Wanneroo with parent education caregivers providing essential education and support to clients.

• Worked closely with Down Syndrome Western Australia to plan professional development with the organisation through employment opportunities, greater access to services provided and awareness and engagement of caregivers.

• Granted 705 hours of community service leave to 14 caregivers.

Year ahead

• Complete clinical services and site master plans.

• Commence an inflammatory bowel diseases service led by gastroenterologist Professor Ian Lawrance.

• In conjunction with SKG Radiology, install intra-operative computerised tomography (CT) scanning for spinal surgery procedures.

• Create working partnerships with the Medical Heads of Departments to drive adoption of the latest evidence based practice, a culture of audit and continuous improvement, and a commitment to the integration of research into everyday care.

• Expand the research program within neurosurgery, orthopaedics, cardiovascular medicine, gastroenterology and perinatal infant and maternal mental health.

• Commence health services research in collaboration with Curtin University and Murdoch University to further improve services.

• Install six information screens around the hospital to assist with communication and wayfinding.

Services

- Opened the new $8 million purpose-built facility in Greensborough, Victoria, designed to support people over the age of 18 living with intellectual disabilities.
- Supported 463 clients and the Individualised Support Service grew by 34% over the 12 months.
- Finalised and launched the new service delivery model that sets the expectations of both practice and service delivery for clients.
- Commenced specialist services in occupational therapy.
- Realigned the respite services to the eastern Accord Community Engagement Service (ACES), which will allow Accord to offer recreational services as determined under the National Disability Insurance Scheme (NDIS).
- Accord client Jamie Dawes was awarded second prize in the State Trustees CONNECTED Art Exhibition and five other clients were successful in exhibiting their work.
- Received funding from the Department of Health and Human Services Victoria to purchase and install a whirl swing at the ACES Western site.
- Achieved Department of Health and Human Services Standards certification.
- Partnered with AMAZE to deliver autism spectrum disorder workshops for caregivers, including sessions on ‘Introduction to Autism Spectrum Disorder’ and ‘Understanding Behaviour of Autism Spectrum Disorder’.

People

- Chief Executive Officer, Tony Hollamby, presented at the Catholic Religious Australia and Catholic Mission One Heart Many Voices conference in May 2015.
- Tony Hollamby has been working with other disability providers to develop benchmarks for various corporate services, such as human resources and finance.
- Improved in the Press Ganey Caregiver Satisfaction Survey with a caregiver satisfaction mean score of 66 this year compared to 64 last year.
- Long term caregiver, Marie Johnston, was awarded the ‘Croce pro ecclesia et pontifice’ by Pope Francis in March 2015, for her 40 years of work within the disability sector.
- ACES Western Program Manager, Peter Newsome, presented to students at Royal Melbourne Institute of Technology (RMIT) on working within the disability sector.
- Offered the Certificate IV in Disability to caregivers in partnership with RMIT. Fourteen caregivers completed the course in 2014.
- Partnered with RMIT and Australian Catholic University to offer student placements for two students undertaking a Certificate IV in Disability and two students undertaking a Bachelor in Occupational Therapy.

Community

- In preparation for the NDIS, family members from the NDIS trial sites in Geelong were invited to meet and speak with the families of current clients from the northern and eastern Accord Community Engagement Services.
- Met with the families of current clients to discuss the rollout of the NDIS and what it means for their family members receiving support.
- Opened a new opportunity shop (op shop) in Arndale, supported by the work of 12 volunteers.

Year ahead

- Finalise a feasibility study into the rebuilding of shared supported accommodation sites in the eastern region of Melbourne.
- Prepare for a 20% increase in clients at the ACES Northern service and a 10% increase in clients at the ACES Eastern service.
- Support additional clients through the Community Respite Service with additional funding from the Department of Health and Human Services Victoria.
- Prepare for AMAZE Autism accreditation, an autism-specific quality assurance framework.
- Continue to prepare for the rollout of the NDIS.
ST JOHN OF GOD  
BALLARAT HOSPITAL

Established: 1915  
Location: 101 Drummond Street North, Ballarat  
Chief Executive Officer: Mr Michael Krieg  
Medical Advisory Chair: Mr Lachlan Dodds  
Beds: 196  
Staff: 748  
Accredited doctors: 353  
Theatre and procedure rooms: Five theatres, one endoscopy suite, one cardiac interventional laboratory  
Services: Coronary care unit, intensive care unit, elective surgery, emergency department, rehabilitation unit, obstetrics, oncology, elective surgery, outpatient services, perinatal and infant mental health and community mental health including dual diagnosis services for young people.

Performance snapshot

Services

- Celebrated 100 years of service to the Ballarat community and published a book on the history of the hospital.  
- Commenced work on a new $1.7 million day oncology centre and a $3.1 million electrical upgrade.  
- Ranked at the 97th percentile for inpatient satisfaction and the 89th percentile for day patient satisfaction in the annual Press Ganey Survey of patients from hospitals in the same peer group. This is up from the 77th and 83rd percentiles respectively in the previous year.  
- Underwent accreditation through the Australian Council on Healthcare Standards EQuIPNational Organisational Wide Survey in October 2014.  
- Continued the Enhancing the Patient Experience Project, a hospital-wide integrated improvement system. More than 120 caregivers trained in process improvement and 100 projects were completed in theatre utilisation, length of stay management and improving patient safety.  
- Offered five medical intern placements for the first time, in conjunction with East Grampians Health Service and Maryborough Health Service.

Community

- Received $70,000 in donations from the Hospital Auxiliary.  
- In collaboration with Ballarat Health Services, St John of God Ballarat Hospital helped a Tongan man, Mr Suliveni 'Asi (Veni), to have a prosthetic leg fitted in Ballarat.

Year ahead

- Complete a redevelopment proposal for additional beds, operating theatres, a level-two intensive care unit and new mental health service, for Board approval in 2016.  
- Commission the new day oncology centre and electrical upgrade.  
- Upgrade lifts in the medical services building.  
- Continue expansion of the Enhancing the Patient Experience Project.

People

- Professor Karen Francis appointed Professor of Nursing in February 2015, a collaborative appointment by St John of God Health Care and Australian Catholic University.  
- Sister Assumption Neary awarded an Honorary Doctorate from Australian Catholic University.  
- Mr Rod Hansen appointed Director of Finance and Corporate Services in February 2015.  
- Dr Vince Russell appointed Director of Medical Services in April 2015.  
- Chief Executive Officer, Michael Krieg, was appointed Chair of Grampians Integrated Cancer Service in October 2014.  
- Registered nurse, Kylie Cross, received endorsement as Master of Advanced Nursing Practice (Nurse Practitioner) in 2014.  
- Registered nurse, Rajesh Kuriakose, was awarded the Australian College of Critical Care Nurses Victoria, Critical Care Nursing Postgraduate Prize.  
- St John of God Health Care and University of New South Wales Chair of Perinatal and Women’s Mental Health, Professor Marie-Paule Austin, presented to medical practitioners and midwives.

**People**

- Angela Cahill appointed Deputy Director of Nursing in November 2014.
- Ranked at the 44th percentile for caregiver satisfaction in the biennial Press Ganey Caregiver Satisfaction Survey, up from the 8th percentile in the last survey.
- Assistant Nurse Unit Manager, Jenny Pattinson, was seconded to Timor-Leste to participate in a train the trainers program as a nurse educator.
- Pastoral Practitioner, Anne Wieczorek, was accredited as a provisional pastoral supervisor.

**Community**

- Invited two members of the patient consumer reference group to attend the hospital operational planning day for managers.
- Ran the first Clinical Pastoral Education course at the hospital, with six graduates.
- Donated theatre time and a hospital room so Fijian man Joseva Bau could receive life changing surgery to correct deformed feet.
- Held two art exhibitions in the hospital atrium, one showcasing the work of local individuals living with a disability and the other with art by caregivers and young people from the local Horizon House.

**Year ahead**

- Continue stage one of the redevelopment with the new wing scheduled for completion in May 2016.
- Refurbish the cardiac interventional laboratory.
- Prepare for accreditation through the Australian Council on Healthcare Standards EQuIP National Organisational Wide Survey.
- Participate in a research project led by Federation University into the impact and effectiveness of face-to-face and web-based simulation on patient deterioration.

**Performance Snapshot**

**Services**

- Commenced stage one of a $41 million redevelopment project that includes a new three storey inpatient ward, an extra operating theatre and 46 new beds.
- Observed a 14% increase in the number of day surgery patients and a 52% increase in the number of day oncology patients.
- Demand for theatre time continued to increase with the operating theatres running at 93% utilisation.
- Ranked at the 99th percentile for doctor satisfaction and the 86th percentile for inpatient satisfaction in the annual Press Ganey Survey of patients from hospitals in the same peer group.
- Participated as an audit site in a patient identification and procedure matching project that was conducted by the Joanna Briggs Institute.
- Began participation in a three year research project with La Trobe University that is looking at quality systems and implementation of a pathway focused on better quality care outcomes and staff engagement in quality improvement.
- Opened an outpatient breast feeding clinic in June 2015.
- Increased the McGrath Breast Care Nurse hours by one extra day per fortnight in response to high demand for services.
- Expanded the nutrition department to two dietitians, who accept referrals from inpatients and outpatients.
- Became the first hospital in Bendigo to implant a new type of insulin pump into a Type 1 diabetic. This patient is only the 50th person in the world with this new type of pump that replaces four to six injections a day with one injection every three days.
- Began participation in a three year pathway focused on better quality care outcomes and staff engagement in quality improvement.

- Commenced multidisciplinary team meetings in April 2015 to discuss specific treatment plans for oncology patients.
- Ranked at the 95th percentile for patient loyalty in a Net Promoter Survey of patients from hospitals in an Australian benchmark group.

People

- Dr John Monagle appointed Director of Medical Services in September 2014.
- Lisa Evans appointed Director of Nursing in October 2014.
- Peter Mulvey appointed Director of Redevelopment in June 2015.
- Eveline Soon appointed Quality and Risk Manager in June 2015.
- Ranked at the 89th percentile for caregiver satisfaction in the biennial Press Ganey Caregiver Satisfaction Survey.
- Developed a workforce planning program in preparation for a 34% growth in caregiver numbers when the new hospital opens in July 2017.

Community

- Formed new consumer focus groups for maternity and oncology along with the continuation of the general focus group.
- Launched the Support-Enhance-Expand-Care Closer to Home campaign, with the support of the St John of God Foundation, to raise $5 million for the continued expansion of the current comprehensive cancer centre and a new cardiac care centre at the new hospital.
- Sixty caregivers volunteered with the St Vincent de Paul Berwick Soup Van.

Year ahead

- Commence construction of the new hospital in late 2015.
- Implement the workforce planning program by starting a database of prospective new caregivers, partnering with tertiary and vocational training institutes and enhancing the skills of current caregivers.
- Commence the operational preparedness program for the hospital.
- Undertake clinical services planning for the current Gibb Street hospital to determine the master site plan.
• Increased rehabilitation services with the provision of more than 42,000 sessions this year up from 39,000 the previous year.
• Expanded the Movement Disorders (MD) Program by appointing an MD specialty nurse and organising specialist training for five allied health caregivers in evidence based, Parkinson’s disease specific outpatient programs.
• Introduced Duodopa infusion intestinal gel therapy for the treatment of Parkinson’s disease, in collaboration with St John of God Berwick Hospital.
• Commenced an outpatient chronic disease management program at the hospital after a successful trial at St John of God Berwick Hospital in 2014.

Year ahead
• Refurbish patient rooms, general ward areas and consulting suites in early 2016.
• Introduce a yoga program for patients with Parkinson’s disease in July 2015.
• Introduce a new supportive care model for patients with life-limiting illnesses who, through their treatment or therapy journey, require a specific reconditioning program.
• Collaborate with St John of God Pinelodge Clinic and St John of God Berwick Hospital to establish a chronic pain service.
• Complete a review of all outpatient services to ensure ease of access and improved patient flow.
• Participate in collaborative research with the Florey Institute of Neuroscience and Mental Health into sensory assessment and rehabilitation in clinical settings.

Community
• Partnered with Peninsula Community Ownership Foundation for the fifth year to support Open Family Australia, providing $60,000 to fund an outreach worker to assist homeless and at-risk young people in Frankston.
• Medical Advisory Chair, Dr Geoff Abbott, travelled to Nepal as part of a rehabilitation team coordinated by Royal Melbourne Hospital. St John of God Frankston Rehabilitation Hospital donated medical supplies to assist the team.

ST JOHN OF GOD GEELONG HOSPITAL

Services

- Commenced a $20 million redevelopment project that includes a new intensive care unit, education centre, cardiac interventional laboratory, expanded imaging services and staff amenities.
- Introduced an endoscopic retrograde cholangiopancreatography service, a diagnostic procedure used to diagnose and investigate diseases of the liver, bile duct and pancreas.
- Commenced a bronchial thermoplasty service, a new treatment for patients suffering from chronic asthma.
- Ranked at the 99th percentile for day patient satisfaction and inpatient satisfaction in the annual Press Ganey Survey of patients from hospitals in the same peer group, the highest ranked hospital of its size Australia wide.
- Secured $100,000 of funding from the Harry Secomb Foundation and $100,000 of funding from The Percy Baxter Charitable Trust for a planned education centre.
- Received a $90,000 grant from The Percy Baxter Charitable Trust for the purchase of specialist medical equipment to support the expansion of cardiac services.
- Completed implementation of electronic scanned medical health records.
- Introduced new technology in the food services and central sterilising departments to reduce manual handling tasks.

People

- Dr Neil Orford appointed Director of Intensive Care in February 2015.
- Introduced a clinical nurse consultant to enhance patient support in the area of pain management.
- Introduced resident medical cover in collaboration with the public hospital and Barwon Health’s Geelong University Hospital, to enhance patient care.

Community

- Established a partnership with disability service provider, Karingal Kommercials, to supply pre-prepared vegetables for the hospital kitchen.
- Collaborated with Geelong Local Learning and Employment Network to host Aboriginal secondary school students as part of a program to increase awareness of career opportunities in health care and community services.
- Ran the first Clinical Pastoral Education course at the hospital, offering training opportunities for six interns.
- Granted 128 hours of community service leave to four caregivers who travelled to Viquque, Timor-Leste and Fiji to increase local capacity and enhance health outcomes.

Year ahead

- Establish a new cardiac surgery service.
- Establish a cardiac rehabilitation program and a falls and balance management and prevention program.
- Continue to review length of stay and patient flow to maximise efficiency and financial stewardship.
- Expand the in-house resident medical officer cover to support hospital growth.
- Prepare for accreditation through the Australian Council on Healthcare Standards EQuIPNational Periodic Review.

Services

- Introduced repetitive transcranial magnetic stimulation (rTMS) for the treatment of medication resistant depression and anxiety.
- Introduced new day programs, including an interpersonal effectiveness group, chronic pain management group and mindful art therapy.

People

- Tracey Tobias appointed Chief Executive Officer/Director of Nursing in November 2014.
- Tessa Moriarty appointed Clinical Risk and Quality Manager in July 2014.
- Expanded the number and specialty range of visiting medical staff, including recruiting specialists with specific interests in refugee mental health and women’s mental health.
- Ranked at the 95th percentile for caregiver satisfaction in the biennial Press Caney Caregiver Satisfaction Survey.

Community

- Continued a partnership with Victorian mental health service, Ermha, by providing funding for the Origins program – a program that cares for recently arrived migrants who experience mental health issues.
- Donated $500 worth of food each month to the Anglicare food cupboard, which provides food to people in need in the Dandenong area.
- Funded a play group at the local Anglican Church.
- Donated furniture on a regular basis to the St Vincent de Paul Society.
- Continued delivery of a community outreach program to a complex range of patients. This model of care allows patients with difficult mental health conditions to receive treatment and support in their own homes.

Year ahead

- Offer the rTMS service as an outpatient service.
- Develop a comprehensive and multidisciplinary model of care with an emphasis on the holistic wellbeing of clients.
- Introduce an expanded support program for carers and family members in response to feedback from the community.
- Conduct a feasibility study for an expansion of Pinelodge Clinic that will include additional inpatient, day therapy and consulting suite spaces.

St John of God Pinelodge Clinic celebrated 10 years as part of the St John of God Health Care family.
Performance snapshot

Separations

- Opened the refurbished Glenrye Centre in July 2014, with a refreshed interior, remodelled front entrance and new private reflection area.
- Performed 22 public elective surgeries under a new contract with the Victorian Department of Health, to reduce elective surgery times in south west and western Victoria.
- Celebrated 75 years of service to the Warrnambool community in October 2014.
- Underwent accreditation through the Australian Council on Healthcare Standards EQuIPNational Organisational Wide Survey achieving 19 ‘Met with Merits’.
- The Glenrye Centre underwent the Australian Council on Healthcare Standards National Standards for Mental Health Services accreditation in November 2014, receiving with no recommendations for improvement.
- Observed a 5% increase in outpatient numbers across allied health, diabetes and dietetics services delivered through the Health Services Centre.
- Ranked at the 90th percentile for day patient and inpatient satisfaction in the annual Press Ganey Survey of patients from participating public and private hospitals.
- Ranked at the 70th percentile for doctor satisfaction in the annual Press Ganey Survey.
- Participated in the Postgraduate Medical Council of Victoria’s Medical Intern Placement Program for the first time, with five interns rotating through St John of God Warrnambool Hospital and Warrnambool Base Hospital.
- Ranked at the 70th percentile for caregiver satisfaction in the biennial Press Ganey Caregiver Satisfaction Survey.

Community

- Signed a Memorandum of Understanding with Gunditjmara Aboriginal Cooperative in February 2015 to progress a range of initiatives that will benefit Indigenous health in the region.
- Physiotherapist, Karina Creed, took six months community service leave to work with the Mukti Orphanage in India.
- Continued to donate clothing and goods to the Salesian Mission Orphanages in Timor-Leste.

Year ahead

- Establish new consulting rooms in Hamilton in collaboration with the local parish, local medical providers and Western District Health Service.
- Commence a new urology service, including stone removal surgery which is currently not available in Warrnambool.
- Develop a Memorandum of Understanding with local secondary schools to provide specialist treatment and support to students.
- Begin a mental health nurse incentive program to deliver chronic mental health treatment and support to the primary care sector.
- Continue to expand rehabilitation services into areas of unmet demand in the community.
- Expand the car park facilities to improve access for patients, caregivers and doctors.

People

- Trevor Matheson appointed Chief Executive Officer in June 2015.
- Recruited an additional six medical specialists within the fields of rehabilitation medicine, general practice, anaesthetics and general/bariatric surgery.

Services

- Oncology unit, psychiatric unit/ward, rehabilitation unit, cancer treatment services, elective surgery, outpatient services and community mental health.
- Participated in the Postgraduate Medical Council of Victoria’s Medical Intern Placement Program for the first time, with five interns rotating through St John of God Warrnambool Hospital and Warrnambool Base Hospital.
- Ranked at the 70th percentile for caregiver satisfaction in the biennial Press Ganey Caregiver Satisfaction Survey.

Australia – Victoria
Performance snapshot

Separations

- The PWMHU was the Australian partner on a major research project funded by the Canadian Institute of Health Research and the Women and Children’s Health Research Institute at the University of Alberta.

People

- Cindy Foot appointed Director of Nursing in July 2014.
- Chief Executive Officer, June Mattner, was awarded the title of Clinical Associate Professor of Australian Catholic University in October 2014 for a three year period.
- June Mattner was invited to join the Burwood Council Economic Advisory Panel to discuss and recommend initiatives that support and boost the local economy.
- Professor Marie-Paule Austin was a keynote speaker at the International Maré Society Perinatal Mental Health Scientific Conference in Swansea, United Kingdom.
- Professor Marie-Paule Austin, Research Officer Carolyn Yin and the Burwood team convened an annual Perinatal Mental Health Seminar in November 2014.
- Director of Allied Health, Ian Smith, presented on harassment and discrimination in the Australian workplace at the No 2 Bullying Conference in Queensland.
- Senior Research Associate, Nicole Reilly, was awarded the University of New South Wales’ Dean’s List Award, which acknowledges the achievements of young researchers.

Community

- Joined a consortium of 10 organisations to open a new headspace centre in Ashfield, New South Wales to provide early intervention mental health services to 12-25 year olds.
- Twenty caregivers entered the Dragon Abreast Australia Festival Race Day and raised more than $4,000 to support breast cancer patients recovering from treatment.
- Raised $1,000 for St Joseph’s Hospital in Monrovia, Liberia, to support their work during the Ebola outbreak and raised $700 for victims of the Nepal earthquakes.

Year ahead

- Establish an inpatient transcranial magnetic stimulation program, offering patients a modality of treatment for treatment-resistant depression.
- Celebrate the 20-year anniversary of the Casa Venegas community home service for people with chronic mental health issues, in May 2016.
- Convene the fourth annual St John of God Burwood Hospital and South Eastern Sydney Local Health District’s Perinatal Mental Health Seminar.
- Introduce a mobile health application called ‘Wellness’ to support mental health patients after discharge.
- Continue a partnership with Bupa Australia to develop a mobile phone application that will allow women to initiate their own assessment of risk factors for anxiety and depression.

Services

- Enhanced the post traumatic stress disorder program, including improved outcome measures, refined program content and expanded inclusion criteria.
- Introduced massage therapy, hairdressing and a community garden on site in response to feedback from the Consumer Participation Advisory Committee.
- Celebrated 20 years of the post traumatic stress disorder program at St John of God Richmond Hospital.
- Commenced a volunteer program in February 2015, with six volunteers providing transport to outpatient programs and support with living skills.

People

- Appointed six additional medical officers to cater for a broader range of psychiatric presentations.
- Chief Executive Officer, Strephon Billinghurst, was appointed as a member of the Australian College of Mental Health Nurses’ Credentialing Committee.
- Manager Raphael Centre Blacktown, Maya Drum, was appointed Adjunct Associate Professor at the University of Western Sydney.
- Visiting medical officer Saroja Krishnaswamy was appointed a Professor in Psychiatry at University of Western Sydney.
- Partnered with University of Western Sydney to offer a postgraduate certificate in mental health nursing.
- Expanded the student placement program for psychologists, which resulted in improved clinical consultation within the allied health team.

Community

- Participated in various research projects led by St John of God Health Care and University of New South Wales Professorial Chair of Trauma and Mental Health, Professor Zachary Steel.
- Partnered with DefenceCare, Returned Service League of Australia, LifeCare, Holsworthy Barracks and Singleton Base to expand the services offered for the treatment of post traumatic stress disorder.
- Held the first continuing professional development (CPD) education events at the hospital for local general practitioners.
- Convened the second annual Perinatal Infant Mental Health Conference in May 2015, with more than 130 psychologists, nurses and mental health workers attending.

Year ahead

- Appoint a new Director of Nursing in July 2015.
- Complete a clinical services review and redevelopment proposal for new patient accommodation and a new medical centre and counselling and therapy centre.
- Introduce a new transcranial magnetic stimulation service for the treatment of depression.
- Commence an obsessive compulsive disorder support group program.
- Become a Royal Australian College of General Practitioners’ accredited training provider, to enable the hospital to offer accredited education events for general practitioners.
- Investigate the feasibility of a mobile phone application to allow more convenient and detailed assessment of patient changes during their participation in the obsessive compulsive disorder and post traumatic stress disorder programs.
Services
• Opened a second supported-living home in Canterbury in February 2015, achieving full occupancy in four weeks.
• Commenced redevelopment of the Trust Office at St John of God Halswell into a five-bed residential care unit, with the Trust Office relocating to the Christchurch central business district.
• Provided 40,888 bed nights in residential care and community living facilities to 160 people with a physical or neurological disability across Health and Ability Services.
• Achieved bed occupancy targets of over 90% across Health and Ability Services.
• Delivered counselling to 503 young people and social work support to 244 young people across Community, Youth and Child Services.
• Relaunched Little Owls’ Preschool with extended hours and payment flexibility, delivering 47,687 early childhood education hours.
• Supported 204 young parents through the delivery of 21 young parent education groups across 144 sessions.
• Experienced a 50% increase in young people supported by our Adventure Therapy programmes.
• Increased Health and Ability Services’ utilisation of physiotherapy, occupational therapy, speech and language therapy, hydrotherapy and counselling services.
• Was successful in an application to the Canterbury District Health Board to provide a pregnancy and parenting education programme for young parents across greater Christchurch.
• Received additional funding from Ministry of Social Development for the Earthquake Support Coordination Service, to meet increased community need.
• Completed the four-year $8 million (AUD) post-earthquakes capital works programme.

People
• George Anderson appointed National Manager Fundraising and Marketing in June 2015.
• Health and Ability Services Northern partnered with Careerforce and Whitireia Community Polytechnic to provide caregivers with the opportunity to pursue national qualifications and clinical training.
• Negotiated a partnership with Te Pou to double core training for Health and Ability Services caregivers incorporating client-led feedback.
• Piloted a workforce development program focused on the renewal and embedding of values, ethos, skills, knowledge and attitudes as a basis of excellence in service delivery.

Community
• Renewed the Community Action Youth and Drugs (CAYAD) contract with the Ministry of Health, for three years to 2018.
• Received funding from a record number of 25 local government organisations, community groups, businesses or philanthropic groups to deliver a range of social services.
• Increased resident community time from 0.9% to 12.3% at St John of God Halswell and increased community programs at St John of God Wellington by 73%.
• Key foundation partner in the East Collective capacity building project funded by the Ministry of Social Development, growing non-government and community organisation capacity in Christchurch.
• Established a community garden at St John of God Waipuna, with produce donated to youth and family organisations.
• Continued key community inclusion programs such as hosting the Halswell Menzshed at St John of God Halswell and the continuing Linkage Programme between St John of God Wellington and Karori West primary school.

Year ahead
• Implement a balanced scorecard reporting system.
• Open the five-bed residential Pampuri unit at St John of God Halswell.
• Establish feasibility of a new five-bed community home near Wellington.
• Establish feasibility of a new Community, Youth and Child Services hub in the north Canterbury region to support young people in more communities.
• Implement the innovative Housing Opportunities for Parental Enhancement (HOPE) social housing project providing young parents with housing, education and parenting support.
• Introduce the ‘My Life’ model of care at Health and Ability Services Northern after successful implementation across Health and Ability Services Southern.

Services

- Opened six new collection centres across Victoria and Western Australia.
- Upgraded the regional laboratory biochemistry analysers to maintain an optimum service to patients by utilising the latest technology.
- Introduced molecular microbiology pathology testing in the core laboratory in Victoria to deliver a wider range of testing and to improve the test result turnaround times to referring doctors.
- Upgraded the laboratory information system software in Western Australia to ensure service consistency.

People

- Patricia Fonay appointed Director of Mission in January 2015.
- Mahtab Minai appointed Victorian Operations Manager in November 2015.
- Pathologists Dr Damon Bell and Dr Chris Hemmings published significant research findings from research conducted throughout the year.
- Continued to partner with Curtin University, with students participating in pre-analytical and laboratory placements in Western Australia.
- Continued to partner with The University of Notre Dame to offer biomedical student placements at St John of God Pathology laboratories.

Community

- Supported Homeless Healthcare (Mobile GP) and Street Doctor Perth and Fremantle by providing diagnostic testing.
- Provided internships for four Aboriginal university students in the diagnostic pathology setting, as part of a group wide partnership with CareerTrackers.
- Provided funding to the Swan City Youth Service to employ a youth worker.
- Provided financial support to the Barwon Health Foundation, a philanthropic body created to enhance the delivery of comprehensive health services in the greater Geelong area.
- Sponsored Karingal BacLinks, a program that educates, supports and creates opportunities for community agencies to engage with each other to achieve community goals.

Year ahead

- Commission the St John of God Midland Public and Private Hospitals’ laboratory and collection centre.
- Finish construction of a new laboratory and commissioning of a collection centre in Berwick.
- Implement new immunohistochemistry and in situ hybridisation and serology testing equipment in the laboratories across Western Australia and Victoria.
- Launch a new mobile-enabled results platform so doctors can access test results on their smartphones and tablets.
Performance snapshot

Episodes of care

St John of God Health Choices

Established: 2009
Locations:
Vic: Ballarat, Bendigo, Berwick, Geelong, Melbourne, Warrnambool
WA: Murdoch, Subiaco, Mandurah

National Operations Manager: Mr Colin Young
Staff: 143
Services: Home nursing and personal care.

Services

- Undertook approximately 115,500 nursing and personal care visits and travelled more than 1.5 million kilometres.
- Commenced Hospital in the Home services from St John of God Geelong Hospital in March 2015. The service allows patients to receive acute clinical services in their own home, reducing the number of days they spend in hospital.
- Underwent accreditation through the Australian Council on Healthcare Standards EQuIP5 Periodic Review achieving ‘Moderate Achievements’ across all mandatory criteria.
- Invited to participate in a review of the draft guide for community health services, which interprets the applicability of the National Safety and Quality Health Service Standards for use in a home nursing setting.
- Health Choices Warrnambool was recognised for its business excellence in the delivery of nursing and personal care with a Powercor Business Excellence Award for Community/Government Enterprise.

Community

- Increased resident participation in diversional therapy programs funded by St John of God Health Choices for residents of VincentCare Victoria’s inner Melbourne Hub (Ozanam House).
- Completed a pilot program for youth counselling in partnership with VincentCare Victoria’s Northern Community Hub.
- Increased funding to the Esther Foundation in Western Australia to expand their resource library and art therapy program.
- Caregivers donated food, clothes and children’s toys to marginalised and disadvantaged people living in Ballarat, Bendigo, Warrnambool and inner Melbourne communities.

Year ahead

- Continue to expand Hospital in the Home and other acute services across Victoria and Western Australia, providing patients with an alternative to hospital treatment where suitable.
- Develop nursing services for oncology patients in the home setting.
- Further engage the communities we serve to ensure that the services we offer are contemporary, of high quality and meet the needs of our stakeholders.
- Introduce an expanded youth counselling program in partnership with VincentCare Victoria’s Northern Community Hub, to increase the number of young people accessing counselling.

People

- Revised the leadership structure and appointed a National Operations Manager and general managers for both Victoria and Western Australia.

Australia – National

At the Forefront of Exceptional Care
St John of God Social Outreach aims to improve community health and wellbeing by filling gaps in the provision of essential services.

We look for opportunities where our expertise can have the most positive impact on the lives of people in need.

Our Social Outreach services are available to all members of the community free of charge or at minimal cost and are underpinned by the principles of early intervention, prevention and capacity building.

Early Years (conception to four years of age)
- Developed a secondary specialist model of care for Raphael Services to achieve a nationally consistent, medically led, multi-disciplinary approach to service delivery.
- Commenced development of the Connected Parenting project, a training program to support the emotional, physical and social wellbeing of Aboriginal families.
- Secured $162,000 of funding from Western Australian Mental Health Commission and $46,080 of funding through the Rural Health Alliance for the Connected Parenting project.
- The Perinatal and Infant Mental Health Project was a finalist in the 2014 Western Australian Mental Health Good Outcomes Awards for improved mental health outcomes delivered in partnership.
- Introduced a new electronic practice management system across Raphael Services nationally.

Youth Services (12 to 25 years of age)
- Began implementation of a new model of care for Horizon House that introduces a two-tiered step-down approach to support gradual transition into independent living.
- Opened Lana House in Midland, Western Australia, in partnership with Rise Network. Lana House provides transitional accommodation for young homeless mothers and their baby.
- Acquired 10 transitional accommodation beds to support the new step-down model of care.
- Secured $60,000 in funding to employ a youth engagement officer who visits chronically truant youth who do not leave their homes due to issues with anxiety, depression or computer gaming addiction.
- Provided funding to Rise Network to employ a case manager to work with homeless youth within the Midland area in Western Australia.

International health
- Celebrated the 10-year anniversary of the St John of God Pathology Development Program in Timor-Leste.
- Opened a central pathology collection centre at Hospital Nacional Guido Valadares, resulting in a 50% reduction in the turnaround time for results.
- Established a courier service to bring blood tests from Dili’s six community health centres to the new pathology collection centre, increasing workload by more than 40%.
- Secured a third annual funding agreement with ConocoPhillips to support capacity building programs in Timor-Leste.
- Delivered five babies in the new birthing suite at Walamu Health Clinic in Papua New Guinea, opened in October 2014.

People
- Bev East appointed General Manager in April 2015.
- Ros Fahey appointed Director Youth Services in December 2014.
- Andrea Shaw appointed Country Manager Timor-Leste in February 2015.

Year ahead
- Introduce satellite, spoke and tele-psychiatry Raphael Services to increase reach and improve accessibility.
- Secure two new tier-one Horizon Houses to provide long-term accommodation and intensive support for homeless youth.
- Secure additional transitional beds for young people ready to move on from the intensive support provided at tier-one Horizon Houses.
- Renegotiate the Nursing Development Program in Timor-Leste and implement a new five-year plan.
- Review the Pathology Development Program in Timor-Leste and report on progress against the second five-year plan.
Orthopaedic surgeons Dr Gavin Clark and Dr Dermot Collopy with the new Stryker orthopaedic robot technology at St John of God Subiaco Hospital.
EXCELLENCE

In this section

60  Excellence in care
67  Excellence in research
72  Excellence in education and training
Excellence in care is an integral part of St John of God Health Care’s Mission. It is one of the guiding principles in our Vision and is captured in our number one strategic priority ‘To be a recognised leader in the Australian health sector for the provision of high quality care.’

Quality and clinical risk

Significant work has been undertaken over the past 12 months to ensure continuous improvement in clinical quality and risk management.

In 2014/15, in addition to the independent and nationally benchmarked 2015 Press Ganey surveys, St John of God Health Care introduced an additional survey, the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) patient experience survey, which assessed how frequently elements of care were done.

These results were benchmarked against 240 hospitals with international ’Magnet’ status, a US-based organisation credential awarded to health care organisations that meet American Nurses Credentialing Center (ANCC) standards for quality patient care, nursing excellence and innovations in professional nursing practice.

Patient/client satisfaction surveys

In 2014/15, St John of God Health Care achieved its highest ever inpatient satisfaction mean score and was positioned at the 86th percentile of all private peers in the Press Ganey survey.

St John of God Frankston Rehabilitation and Geelong Hospitals were ranked by inpatients as ‘best in class’ (99th percentile) of private hospitals surveyed by Press Ganey in Australia and St John of God Ballarat and Subiaco Hospitals were ranked at the 90th percentile.

Our emergency departments also scored in the top quartile for private emergency departments in the Press Ganey survey, with St John of God Murdoch Hospital achieving ‘best in class’ (99th percentile).

For the sixth year in a row, day patients ranked St John of God Geelong Hospital as ‘best in class’ (99th percentile) in the Press Ganey survey and St John of God Ballarat, Murdoch and Subiaco Hospitals were ranked in the top quartile by day patients.

Six of the divisions that were surveyed in the HCAHPS patient experience survey achieved top quartile rankings against all Australian hospitals surveyed by Press Ganey (St John of God Ballarat, Bendigo, Berwick, Frankston Rehabilitation, Geelong and Geraldton Hospitals) and four divisions (St John of God Geraldton, Berwick, Geelong and Ballarat Hospitals) achieved top quartile rankings compared to the 240 hospitals with Magnet status.

When asked to rate their experience, with a 10/10 rating being the ‘best hospital possible’, 68% of inpatients rated their experience 9/10 or 10/10.

Patients were also asked if they would recommend the hospital to friends and family and 78% of inpatients said ‘definitely yes’.

Doctor satisfaction surveys

Doctor satisfaction decreased marginally in 2014/15 compared to 2013/14 however two divisions, St John of God Bendigo Hospital and St John of God Subiaco Hospital achieved ‘best in class’ (99th percentile) rankings against private peers, and St John of God Berwick, Bunbury, and Subiaco Hospitals achieved top quartile performance.

In 2015, 40% of St John of God Health Care doctors considered themselves ‘dedicated partners’, which represents stronger engagement than for the not-for-profit sector as a whole.

Accreditation

Our hospital divisions are accredited by the Australian Council on Healthcare Standards (ACHS) against the Evaluation and Quality Improvement Program (EQuIP) National Program, which incorporates the Australian Commission on Safety and Quality in Health Care’s (ACSQHC) 10 National Safety and Quality Health Service (NSQHS) Standards plus the five additional ACHS standards. Health Choices is accredited under EQuIP standards.
Highlights:

• The five hospitals that underwent accreditation met all the required standards and achieved an average of 19 ‘Met with Merit’ ratings, demonstrating exceptional performance beyond the required actions of the NSQHS Standards.

• St John of God Health Choices was successful in its ACHS EQuIPS Periodic Review.

We have continued to strengthen our focus on the NSQHS Standards through the development of a clinical audit framework and introduction of specific audit tools designed to evaluate and monitor our performance in key patient safety and quality areas. St John of God Health Care has made these audit tools available to several other health care services that expressed interest in using these for their own safety programs.

St John of God Pathology laboratories are accredited by the National Association of Testing Authorities (NATA), under a joint accreditation scheme with the Royal College of Pathologists of Australasia.

Some highlights of the assessment were:

• Geelong Haematology Department was commended on the skill and knowledge of caregivers, thorough documentation and methods and its ongoing competency and education program.

• Bendigo Laboratory received commendations for the detailed review and communication of its Quality Assurance Program, staffing levels and the high level of caregiver competency, morale and commitment.

• Ballarat Laboratory received commendations for an equipment calibration program, the detailed review and communication of its Quality Assurance Program, staffing levels and the high level of caregiver competency, morale and commitment.

• Berwick Laboratory received commendations relating to laboratory records, the high level of organisation and competency of caregivers, the review of internal quality control records, general documentation and the detailed review and communication of its Quality Assurance Program.

Our New Zealand residential facilities for people with a disability, St John of God Hauora Trust Health and Ability Services, are certified by the New Zealand Ministry of Health against the New Zealand Health and Disability Service Standards.

All residential care and community home facilities also hold contracts with their local district health board and the Accident Compensation Corporation.

The Trust’s Community, Youth and Child Services, based at St John of God Waipuna, is approved and contracted as a service provider by the New Zealand Ministries of Health, Education and Social Development as well as the Department of Corrections and the Canterbury District Health Board.

The Adventure Therapy program holds an Outdoors Mark™ Accreditation for its activities.

St John of God Frankston Rehabilitation Hospital rated highly in the annual Press Ganey surveys, with inpatient and outpatient results ranking the hospital ‘best in class’. Pictured: patients taking part in a group physiotherapy session at St John of God Frankston Rehabilitation Hospital.
Clinical risk management and quality

In 2014/15, various activities were undertaken to strengthen St John of God Health Care’s clinical governance.

Clinical incident management policy

The clinical incident management policy was revised, systems and processes were standardised, roles and responsibilities clarified, and targeted training provided to clinical caregivers.

Aspects of the current electronic incident reporting system were revised to simplify incident outcome ratings and enhance notification processes and to prepare for the introduction of a new electronic incident and patient feedback management system in 2016.

Root cause analysis training and support materials were provided to relevant clinical caregivers across the group to provide them with skills to identify underlying factors associated with serious incidents and develop appropriate action plans to prevent future incidents. ‘Lessons learned’ briefings were developed and implemented across the group to facilitate organisation-wide adoption.

A review of the open disclosure process was undertaken and an educational program established to strengthen communication with patients and their families when harm unexpectedly occurs whilst receiving health care.

Clinical information system

St John of God Health Care has a strategic priority to increase our investment in information, analytics and technology to support the delivery of high quality patient care.

In 2014/15, St John of God Health Care engaged Boston Consulting Group to review our clinical information requirements and to recommend a technology roadmap.

This recommendation will lead to a major long-term project for St John of God Health Care that will allow for greater interaction and communication with patients, quicker and more accurate exchange of information with clinical practitioners, more efficient processes and significantly improved analytics capability to support our continuous clinical performance improvement activities of key hospital and other health care metrics.

Infection prevention

Since 2010, St John of God Health Care has participated in the National Hand Hygiene Initiative to improve hand hygiene compliance by health care workers and visitors.

In 2014/15, St John of God Health Care’s compliance rate was 80%, significantly above the 70% benchmark prescribed by the National Health Performance Authority.

Hand Hygiene Compliance Rates

St John of God Health Care continues to benchmark rates of *Staphylococcus aureus* bacteraemia – the most common bacteria causing serious healthcare-associated bloodstream infections – against other acute hospitals on the MyHospitals website. All St John of God Health Care hospitals performed
better (0.37 *staphylococcus aureus* bacteraemia cases per 10,000 patient care days) than the national benchmark of two cases per 10,000 patient care days.

In 2015, to further enhance our prevention efforts relating to hospital-acquired infections, St John of God Health Care commenced implementation of a dedicated infection prevention and control software surveillance system. The system provides direct interfaces with patient admission, laboratory and theatre systems, which enables more efficient and effective identification of patients with a suspected infection.

**Excellence in nursing and midwifery practice**

Our nursing and midwifery clinical practice has continued to focus on understanding and responding to the needs of our most vulnerable patients – the cognitively impaired, those preparing to transition to residential care and patients with severe or profound disability.

Pregnancy, childbirth and early parenting are an important and significant time in a family’s life and St John of God Health Care maintains a high standard of maternity care for all women and their babies. We commenced installation in 2014/15 of *K2MS Guardian*, an electronic foetal monitoring system that allows the treating team to view the cardiotocograph trace of a baby before birth and during labour on a screen in a central station or the obstetrician’s phone or tablet. *K2MS Guardian* will be installed in all hospitals in the coming year.

**Nursing and Midwifery Foundations of Excellence**

The Foundations of Excellence were developed to create a work environment that nurses and midwives value and that allows them to do their best work.

St John of God Health Care has continued to develop tools and techniques that embed the Foundations in our culture and work practices.

The value of the Foundations can be seen in the 2015 Press Ganey Caregiver Satisfaction Survey results. Of our nursing units surveyed in 2015, 74% showed improved caregiver engagement.

The Foundations have been showcased internationally by The Advisory Board Company, a global research, consulting and technology firm helping hospital and health system leaders improve the quality and efficiency of patient care.

A nursing unit balanced scorecard was developed for our clinical teams to link performance outcomes with actions and ways of doing things required by the Foundations of Excellence, and to facilitate continuous improvement. An electronic version will go live early in 2015/16.

**Palliative care**

Palliative care helps people with a life-limiting illness to have the best quality of life.

St John of God Health Care offers palliative care support to patients and their families. St John of God Murdoch Community Hospice and St John of God Subiaco, Geraldton, Bunbury, Geelong, Berwick and Warrnambool Hospitals provide specialist inpatient palliative care with dedicated beds.

Some major achievements in 2014/15 were:

- Nurse Practitioner Palliative Care, Louise Angus, from St John of God Subiaco Hospital received the Western Australian Nursing And Midwifery, Emerging Leader Award.
- Establishment of a nurse practitioner-led, outpatient palliative clinic at St John of God Subiaco Hospital.
- Commencement of a business plan for the development of dedicated palliative care beds within the oncology ward at St John of God Ballarat Hospital.
- Establishment of a direct admission process for palliative care patients at St John of God Warrnambool Hospital.

**Pastoral services**

Pastoral services play an integral role in the holistic approach to healing, which is the basis of Catholic health care.

St John of God Health Care pastoral practitioners have formal training to enable them to relate compassionately and skilfully to patients faced with significant events, such as illness, disability and death.

In 2014/15, we extended our pastoral care offering to family members and carers of our patients who may be experiencing grief, loss or burden. Services are available to all, regardless of culture, religion or spiritual orientation.

Highlights for 2014/15:

- Development of Pastoral Services Priorities 2015-2018.
- Successful implementation of pastoral internship programs.
- Establishment of pastoral care/chaplaincy work experience at St John of God Richmond Hospital.
- Support for fundraising for a community-based hospice at St John of God Warrnambool Hospital.
- Continuation of Circle of Life project, celebrating life stories of patients with picture displays.

The St John of God Health Care pastoral services teams have continuous quality improvement measures in place including:

- Evaluation of patient satisfaction with pastoral services at St John of God Murdoch, Burwood and Richmond Hospitals and St John of God Pinelodge Clinic.
- Refining the information collected to monitor and evaluate pastoral and bereavement service provision.
- Surveys of attendees at remembrance services at St John of God Murdoch and Geelong Hospitals.
- Review of referral response times by the pastoral services team at St John of God Murdoch Hospital.
- Annual reviews of effectiveness measures.
- Conducting a pilot project to promote spiritual literacy and the communal dimensions of spiritual care practice.
- Establishment of a music therapy program at St John of God Bendigo Hospital.
- Helping patients at group therapy sessions explore spirituality as part of their recovery in our mental health hospitals.
At St John of God Health Care we encourage participation in external awards to benchmark our performance and recognise the professionalism of our people and the service we deliver. These individual, divisional and group achievements ultimately serve to strengthen the communities in which we all participate.

</table>
Participation in clinical registries improves outcomes

To deliver exceptional care we are always looking at new ways to measure and monitor our clinical performance and make improvements to offer the best possible service to people in our care.

This year St John of God Health Care expanded its participation in the national bariatric surgery and breast implant clinical quality registries and continued to participate in the cardiothoracic and joint registries.

Across St John of God Health Care we work closely with clinicians and the agencies that coordinate the registries to ensure high participation rates. In doing so St John of God Health Care is significantly contributing to the broader knowledge base relating to the safety and quality of these types of procedures and devices.

With hospital and health institutes from across the country contributing data, national clinical registries are an increasingly important approach to monitoring and evaluating clinical outcomes, as well as sharing and adopting lessons learned so that we can provide the best possible care to the patients in our hospitals.

St John of God Warrnambool Hospital was one of four hospitals that participated in the bariatric surgery registry pilot study. The study demonstrated low bariatric surgery complication rates and positive outcomes in terms of sustained weight loss and the reduction in the prevalence of type 2 diabetes. These are important findings that will assist in providing better care and reducing the overall burden of disease.

Most recently St John of God Health Care gave ethics approval to participate in the Australian Breast Device Registry to advance the understanding of long term efficacy and safety of devices used in surgical breast implants.

This year, St John of God Health Care signed up to two additional clinical registries as part of our approach to becoming the recognised leader in Australia for the provision of high quality care.
EXCELLENCE IN RESEARCH

St John of God Health Care fosters a high quality and ethical research culture that enhances clinical practice standards.

We engage in research with the greatest potential community benefit in improving health care, whilst respecting and protecting our participating patients.

We appoint key research personnel, partner with other external researchers based at various universities, research institutes, and other health care facilities, and work together on projects across disciplines and across various St John of God Health Care divisions.

In 2013/14 we undertook a strategic review of our research activity and developed an overarching research framework to guide our hospitals in establishing their research programs, based upon their clinical services, research currently underway, and potential areas of unmet need within their communities.

Research highlights

Key appointments

St John of God Health Care uses research collaboration and cooperation to achieve clinical excellence.

The following appointments were made in 2014/15:

- Professor Karen Francis, Professor of Nursing St John of God Health Care Eastern Region, was appointed in collaboration with the Australian Catholic University to be based at St John of God Ballarat Hospital and lead an internal caregiver-driven nursing research program aimed at ensuring best practice in nursing.
- Associate Professor Richard Page, St John of God and Barwon Health Chair in Orthopaedic Surgery, was appointed in collaboration with Deakin University. Based at St John of God Geelong Hospital, he will develop the region’s academic, clinical and research capability in orthopaedic surgery.
- Dr Paul Cohen, a leading gynaecological oncology researcher, was appointed by St John of God Subiaco Hospital as the Jakovich Family Research Fellow, a position financially supported by the Bendat Focus Group and the St John of God Foundation.

Research governance

St John of God Health Care has a governance structure for research with clear processes and procedures in place, trained caregivers, timely start-up of research, regular reporting and, critically, implementation of research findings into improved health care on completion.

St John of God Health Care has operated a central Human Research Ethics Committee (HREC) since 1999. The Committee and its Scientific Review Sub-Committee (SRC) assist the organisation with the review and monitoring of research, ensuring that all research is grounded in sound science and conducted by capable researchers in an ethical manner.

A distinguishing feature of the St John of God Health Care HREC/SRC is the expertise, skills and dedication of its members who come from different backgrounds, both within St John of God Health Care and from the community, many of whom are leaders in their respective fields.

Recently, St John of God Subiaco Hospital was the first of our hospitals to employ the services of an experienced auditor to assess the hospital’s research program and develop strategies that will now be adopted to improve ‘research readiness.’ The opportunity also exists for other divisions to learn from these audit findings.

Research approvals

Number of new research proposals per year (last 10 year period):

Clinicians and caregivers have been active in publishing peer-reviewed articles, presenting their work at national and international conferences and participating in health and medical research workshops and education activities.

The upward trend in research at St John of God Health Care continued in 2014/15 with 120 proposals, a 36% increase on last year. Of these, 57 were multicentre studies and 62 were exclusively run by St John of God Health Care. Nearly 50% of all research is conducted at St John of God Subiaco Hospital.
A key focus is participation in various national clinical quality registries, which collect long-term patient outcome data for particular diseases and/or surgeries. These registries enable large-scale and comprehensive data capture to ensure useful information can be obtained to monitor health care outcomes and undertake useful research.

St John of God Health Care clinicians contribute to the following registries in collaboration with external partners, such as Monash University:

- The Prostate Cancer Registry
- Massive Transfusion Registry
- Victorian Cardiac Outcomes Registry (VCOR)
- Bariatric Surgery Clinical Quality Registry
- Australian Breast Device Registry (ABDR).

St John of God Health Care is the first Western Australian health service and private hospital partner collaborating with Victoria’s Biogrid to develop means of analysing and comparing our colorectal cancer patient outcomes data with those in other states and the public sector.

New technology at St John of God Pathology is providing a more targeted approach to the treatment of cancer by profiling a range of mutations in cancer tumours. Pictured: Dr Kerryn Garret and Dr Marie Rye reviewing the run data on the Illumina Miseq instrument where next generation sequencing data is produced.

Research proposals submitted for review to the St John of God Health Care Human Research Ethics Committee (1 July 2014 – 30 June 2015) by site*:

- Murdoch 27%
- Bunbury 6%
- Pathology 5%
- Bendigo 3%
- Richmond 2%
- Frankston 2%
- Warrnambool 1%
- External 1%
- Mount Lawley 2%
- Geelong 1%
- Ballarat 1%
- Burwood 1%
- Subiaco 48%

* St John of God Ballarat and Geelong Hospitals access their adjoining Public Hospital HREC.
Our primary areas of research are: oncology (cancer care), nursing, mental health and orthopaedics.

**Oncology**

Most research at St John of God Health Care continues to relate to cancer care, with a greater focus on ways to improve the quality of life for cancer patients and support the families and carers of these patients. Research over the past year investigated issues such as fear of cancer recurrence and how to provide psychosocial support to cancer patients while looking at lifestyle factors.

St John of God Ballarat and Bunbury Hospitals participated in a National Prostate Cancer Specialist Nursing Program, important in the development of frameworks for specialist cancer nursing practice and cancer care coordination. The program introduced a Prostate Cancer Specialist Nurse with the help of Federal Government funding and an evaluation of the program and its impacts on patient outcomes and clinical practice is now underway.

St John of God Bunbury, Murdoch and Subiaco Hospitals continued to participate in oncology research through their dedicated cancer clinical trial units. St John of God Subiaco Hospital’s Gynaecologic Oncology Research Program grew substantially, with more than 20 new research projects initiated in 2014/15.

**Nursing**

St John of God Health Care now has three nursing academic appointments in partnership with The University of Notre Dame, Curtin University and Australian Catholic University.

With this research leadership, St John of God Health Care continues to build a culture of enquiry across the organisation.

**Highlights in 2014/15:**

- Study into benefits of specialised nurse practitioner roles.
- Exploration of the impact of intergenerational tension amongst nurses (with Murdoch University).
- Analysis of patient falls rates and outcomes following total hip and total knee replacement surgery (with The University of Notre Dame).
- Study into indigenous maternity care for women birthing ‘off country’ (with Murdoch University).
- A multi-site National Health Medical Research Committee-funded study with Queensland University of Technology into women’s wellness after completion of cancer treatment.
- Determining educational needs for nursing graduates.
- Testing of existing evidence for nursing practice in key areas such as flexible endoscope processing.
- Study into caregivers’ needs in the provision of palliative care (with The University of Notre Dame).

**Mental Health**

St John of God Richmond Hospital

St John of God Richmond Hospital has continued its strong research focus on post traumatic stress disorder.

St John of God Health Care and University of New South Wales Professorial Chair of Trauma and Mental Health, Professor Zachary Steel, based at St John of God Richmond Hospital, was appointed in March 2014 to head a research program into understanding trauma and its impact on mental health, improve the effectiveness and provision of evidence based interventions for trauma-related mental disorders and to promote evidence based mental health promotion and early intervention.

Since commencement, the Trauma and Mental Health Group has published 24 peer-reviewed research outputs, co-published new national guidelines for the management of post traumatic stress disorder amongst emergency service workers, and presented at 18 international and national conferences and symposiums.

The Trauma and Mental Health Group are working with treatment and service organisations to implement a mobile app that screens and monitors contemporary veterans mental and physical health to assist with management of psychological and other clinical therapies and interventions.

New collaborative funding worth $1.6 million was also awarded by the National Health Medical Research Committee to support research programs into cycles of violence in Timor-Leste and risk factors for intimate partners amongst Australian-born and refugee-immigrant communities during the prenatal and postnatal periods.
St John of God Burwood Hospital continued its strong focus on perinatal mental health research and clinical excellence through its Perinatal Women’s Mental Health Unit (PWMHU) and Mother and Baby Unit (MBU) led by Chair of Perinatal and Women’s Mental Health, Professor Marie-Paule Austin.

In 2014/15, a partnership with Wesley Mission provided admission for disadvantaged mothers and infants to the MBU through the New South Wales Ministry of Health funded Mums and Kids Matter program.

The PWMHU was the Australian partner on a major Canadian research grant together with Associate Professor Dawn Kingston (University of Alberta). Funding worth C$350,000 was granted by the Canadian Institute of Health Research and the Women and Children’s Health Research Institute for a randomised, controlled trial on cognitive behavioural therapy for depressed pregnant women.

The research at St John of God Burwood Hospital’s PWMHU, supplemented by further research work by St John of God Raphael Services, allows St John of God Health Care to provide high quality psychosocial support services for new parents and their families. For instance, recent research is exploring the provision of specialised psychosocial services to specifically cater for multiple birth families.

Orthopaedics

St John of God Subiaco Hospital approved the only Australian post-market clinical trial evaluating the benefits of the Stryker Robotic-arm-assisted orthopaedic surgery and the quality of knee replacement surgery using advanced robotic technology. The randomised, controlled trial, which will involve two leading orthopaedic surgeons, also aims to demonstrate that this latest knee replacement option results in better outcomes for patients: reduced pain, more rapid recovery and fewer surgical complications.

A culture of inquiry and research is becoming a more tangible part of our culture. The research we engage in is enabling us to deliver more fully on clinical excellence so that we can be a recognised leader in the Australian health sector for the provision of high quality health care.

St John of God Richmond Hospital continued its strong focus on research, with one study looking at the role of exercise in the treatment of alcohol cravings.
Research at St John of God Subiaco Hospital continued to expand, overseen by Head of St John of God Subiaco Hospital Research Network, Dr Nik Zeps, and a team of leading researchers and clinicians.

More than 50 projects are underway (not including clinical trials in oncology) with many of these developed at grass roots levels by clinicians motivated by their experiences in patient care.

Partnering with universities remains a key component and Dr Zeps has continued to lead a program to engage with all five universities in Western Australia, with several new projects at Curtin University, Murdoch University and The University of Notre Dame, School of Medicine.

The research program will expand in the coming year to include new activity in neurosurgery, orthopaedics and cardiovascular medicine. A series of health services research projects with Curtin University and Murdoch University have begun that will utilise data from St John of God Subiaco Hospital to improve services further.

**Highlights in 2014/15:**

- More than 20 new research projects undertaken in gynaecological oncology.
- Six conference papers presented and 12 journal articles published on colorectal cancer.
- Three new clinical trials in breast cancer including an international study called POSITIVE, run by the International Breast Cancer Study Group, not available anywhere else in Australia.
- New studies in the psychological effects of breast cancer.
- Increased research nurse support in anaesthesia and pain management and intensive care.
- Participated in national anaesthesia and pain management clinical trials and set to be the number one recruitment site nationally for the Balance Study, a clinical trial looking at different levels of anaesthesia to see which is best for the patient.
- Article on bariatric surgery outcomes published by the Annals of Surgery, the number one surgical journal in the world.
- A total of 34 original journal articles published together with Subiaco-affiliated researchers.

---

St John of God Murdoch Hospital has developed a dedicated research hub to grow research capacity and involvement in clinical trials.

A research nurse has recently commenced to support the work of Dr Bart de Keulenaer and Dr Adrian Regli in national and international clinical trials.

One large, multidisciplinary study led by Dr Gail Ross-Adjie is trying to ascertain the rate of injurious and non-injurious falls, the economic cost of falls events and patient perceived quality of life after their surgery.

Falls are responsible for significant morbidity and mortality in the general older population and there is some suggestion that falls rates are even higher after total hip and total knee replacements.

Dr Ross-Adjie is aiming to recruit 534 patients who have had total hip and total knee replacements and follow them monthly for 12 months after discharge. The results of the study will enable St John of God Murdoch Hospital to stratify patients’ risk of fall prior to discharge and promote falls prevention strategies to at-risk patients.
Medical education and training.

St John of God Health Care provides high quality training and education opportunities for medical students and doctors-in-training in metropolitan and regional locations, to contribute to a sustainable and highly skilled Australian medical workforce.

During 2014/15, St John of God Health Care maintained its training partnerships with seven university medical schools across all states of Australia. The training spans a wide range of medical and surgical specialties that include obstetrics, paediatrics, psychiatry, anaesthetics, cardiology, pathology and emergency.

St John of God Health Care also continues to support the Commonwealth’s Specialist Training Program (STP) for registrars, in partnership with specialist medical colleges, State and Territory health departments, and public health services.

Importantly, this year it was announced that Commonwealth funding for the STP and the Emergency Medicine Program would be extended for 2016 in view of the track record of these programs successfully supporting the training of the next generation of medical professionals.

As there was no formal application round for new STP positions in 2015, STP registrar numbers have remained constant at St John of God Health Care.

From 2010 to 2014, the total number of STP positions has increased from 360 to 900 nationally. St John of God Health Care now attracts approximately 6% of all Australian STP positions, which is a significant increase from approximately just over 1% in 2010.

Nursing and midwifery education and training

Training our future nursing and midwifery workforce is a key objective for St John of God Health Care.

In 2013, St John of God Ballarat Hospital and Australian Catholic University (ACU) launched a nursing clinical school. St John of God Health Care has a Memorandum of Understanding with ACU for the eastern region and further discussions are planned with ACU to create additional clinical schools in New South Wales and Victoria.

In 2014/15, we have partnered with 26 universities and 30 Registered Training Organisations to provide undergraduate clinical placement opportunities for nursing, medical and allied health students from all over Australia.

Mental Health Simulations – enhancing clinical placements

Since February 2013, nursing and medical students completing their clinical placements at St John of God Richmond Hospital and St John of God Burwood Hospital have participated in mental health simulation workshops as an enhancement to their clinical placements. In 2014 the program, which is possible due to funding from Health Workforce Australia, was extended to students on placement at St John of God Pinelodge Clinic.

The Mental Health Clinical Education Toolkit, which includes a series of DVDs of 14 different scenarios and a facilitator’s toolkit, was launched in 2014 and is available to health services and education institutions to enhance education opportunities in mental health.

St John of God Social Outreach has built on this and developed a perinatal and infant mental health (PIMH) simulation program. Four PIMH scenarios were filmed with three Raphael Services clinical caregivers (one psychiatrist and two mental health nurses) demonstrating working with clients, played by professional actors. The DVD will be accompanied by a facilitator guide with guidance on designing inter-professional workshops for Raphael Services clinicians and mental health students.
Graduate nurse program

In July 2015, St John of God Health Care will invite applications for its first state-wide graduate nurse program in Western Australia, known as the Pathways to Practice Program, where graduates will have the opportunity to rotate to different divisions and across specialties.

Consultation to establish the Pathways to Practice Program occurred with existing divisional programs and through focus groups with graduates, nurse managers and information evenings.

Pastoral services education

St John of God Health Care invests in pastoral services education.

Clinical Pastoral Education (CPE) programs were delivered in Victoria and Western Australia in 2014/15 with 27 graduates in total.

The CPE centres have also been part of wider community formation, with one graduate working as a deacon from St. Charles Seminary, and others as pastoral providers within Catholic aged care and within community parishes from various faith backgrounds in regional and metropolitan locations.

The CPE centres also assist in succession planning within St John of God Health Care by providing opportunities for clinical placements within divisions.

Supervisory training is a key strategy for St John of God Health Care and we currently have two supervisors in training at the Victorian CPE Centre and two supervisors in training at the Western Australian CPE Centre.

St John of God Health Care also runs pastoral internship programs combining supported practice experience and rigorous practice and self-reflection that have received positive feedback from participants.

Professional reflective practice sessions facilitated by clinical pastoral supervisors have been offered to all divisional pastoral teams. These sessions assist in enhancing caregiver formation and pastoral competency so pastoral caregivers can meet the spiritual and emotional needs of patients and their families.

At St John of God Health Care, people from all beliefs are invited to be a part of a caring ministry and to see their role as contributing to something worthwhile and beyond ourselves. We refer to staff as caregivers because every person, regardless of their role, has a contribution to make to the health and wellbeing of the people we serve.

Our aim is to continue the healing mission of Jesus Christ through services that promote life to the full. With our organisation expanding rapidly, we are addressing the need for increased education opportunities for all caregivers around our Mission, Values and heritage - enhancing our culture of providing excellent, compassionate, Mission-inspired care.

Directors of Mission

Directors of Mission are appointed at each of our divisions and assist each person to find their personal point of connection with, and passion for, the organisation’s Mission today. They help to acknowledge and celebrate what is right in the organisation and harness the power of a strong community.

In 2015, the Trustees and Board instigated a comprehensive review of our Mission Management Model; the structures, processes, resources and people that support the ongoing development and integration of Mission within the organisation. The review is in response to the very significant growth and development of the organisation since the last formal review in 1999.

The role of Director of Mission has also evolved to include responsibilities in the leadership of social justice initiatives, safeguarding our heritage and relationships with Church hierarchy and agencies. The aim of the review is to ensure that St John of God Health Care has a world class model that can meet the needs of the organisation over the next decade.

The review coincides with the announcement by the Group Director of Mission, Jennifer Stratton, of her intended retirement in the second half of 2015. Jennifer has provided excellent leadership of the Mission for over 15 years and was the first Mission leader with national responsibilities who was not a Sister of St John of God.

During this time a great number of Mission resources and formation programs have been developed - all with the aim of embedding the Mission and keeping it the driving force in our organisation. Some of the other major achievements have been in the areas of social outreach, social justice and pastoral and palliative care services.

Service Ethos

Service is central to how we bring the Mission to life at St John of God Health Care. Development programs aim to support and develop caregivers in providing distinctive service.

The key tenets of our Service Ethos are:

- Our Mission inspires our service – we are continuing a great story of service entrusted to us by our founders.
- Relationships are central – every encounter is an opportunity and can have far-reaching effects.
- The way we work together as a community, in our own teams and with other teams, is integral to our effectiveness.
- Governance and management of resources are keys to our success.
- Feedback and evaluation about how well we’re doing is crucial.

Formation for caregivers

The Formation for Caregivers Policy introduced in June 2014 was implemented this year, with 1,375 caregivers from across the organisation attending a Many Faces – One Story formation event since the launch of the caregiver formation program in March 2015.

The new caregiver formation program was developed to assist new and existing caregivers to learn about our culture and the way we deliver service at St John of God Health Care.

Feedback from caregivers indicated engagement and a deeper personal connection with the Mission.
St John of God development

Caregivers are offered further formation opportunities to develop their understanding of our Mission and Service Ethos.

During this year, 65 caregivers participated in the Maintaining our Ethical Culture Program, 91 people undertook the Mission Mentoring Program, 16 of our people went on pilgrimage and 12 undertook the Graduate Certificate in Leadership and Catholic Culture.

Workforce

With unprecedented growth through redevelopments, new developments and acquisitions in the last two years, our workforce is a key organisational priority.

We want to attract, develop, motivate and retain a high performing, sustainable workforce within a safe and supportive work environment that embraces our Mission and Values.

Highlights in the execution of the Workforce Strategic Plan in 2014/15 have included:

- the integration of St John of God Mt Lawley Hospital
- the design and launch of a national nurse and midwifery manager leadership program
- the launch of Pathways to Practice, a graduate program in Western Australia for registered and enrolled nurses
- process improvements across payroll including the introduction of a single superannuation clearing house
- the negotiation of two enterprise agreements in Western Australia
- the introduction of business analytics into workforce planning and analysis
- certification of 16 divisions against the Australian and New Zealand Safety Management System Standards (AS/NZS 4801:2001)
- significant advances in our Disability Action and Inclusion Plan and the Reconciliation Action Plan.
- the launch and utilisation of the Net Promoter Score survey for workforce shared services.
Workforce profile

St John of God Health Care employs 11,415 (7,261 full time equivalent) caregivers. Nurses and midwives comprise 44% of our workforce.

In addition to the 1,517 health professionals and medical officers we employ, 4,150 private specialists are accredited to treat patients at our hospitals.

Caregiver satisfaction

Every two years, all caregivers across St John of God Health Care are encouraged to participate in a feedback survey, the Press Ganey Caregiver Satisfaction Survey, to help shape the future of their workplace.

It is considered a critical tool for decision making and the results are carefully considered so that appropriate action is taken to ensure St John of God Health Care is a great place to work.

The survey was open to all caregivers to complete anonymously, online throughout April 2015. The participation rate was 57% of the workforce and incremental improvements in the mean score reflect steady and sustainable improvements in caregiver satisfaction.

Across the group we achieved our highest mean score for caregiver satisfaction, which reflected the extensive work undertaken across the organisation to address areas identified in the 2013 survey, specifically around caregiver engagement.

The organisation had established its own aspirational targets for employee engagement after the 2013 caregiver survey and pleasingly we significantly improved our engagement scores.

The outcomes of this significant focus and support are reflected in the 2015 survey results, with 75% of employees considered to be ‘dedicated’, which means they feel the organisation is providing what they need and feel connected to their work and the organisation.

Parental leave

St John of God Health Care provides generous paid parental leave of between 10 and 14 weeks’ salary on top of the Government’s paid parental leave scheme of 18 weeks at minimum wage. This enables caregivers to receive income for up to 32 weeks while on parental leave.

During this year, 442 caregivers undertook parental leave and 89% of caregivers due to return from parental leave returned to a combination of full time, part time and casual roles.

Equal opportunity

St John of God Health Care is an inclusive organisation and recognises the contribution of all caregivers based on skill, expertise and experience and not on gender, race, ethnic origin or sexual preference.

Harmonious environment

Living the Values of St John of God Health Care ensures respect for every individual caregiver’s right to work in a harassment free and harmonious environment, with zero tolerance of discrimination or harassment of any kind.

We continue to review our practices and policies to ensure our caregivers have a framework to raise issues of concern within a supportive and caring environment.

Disability Access and Inclusion Plan

A new Disability Access and Inclusion Plan for 2014 – 2017 continued a focus on supporting processes in employment that create opportunities for people with a disability to access job interviews.

The online recruitment system now identifies people registered with a Disability Employment Service and managers are more confident in engaging people with a disability as potential caregivers.

St John of God Health Care created links with disability organisations that help to inform us to create an environment that is hospitable and supportive. This included growing our mental health understanding as an organisation and improving the capacity of our hospitals to meet the support needs of people with severe or profound disability.

We received 88 job applications from people with a declared disability, 63 people were interviewed and 23 people gained positions working within the group.

In recognition of our achievements, St John of God Health Care was a finalist in the National Disability Employment Australian Human Resource Industry Awards 2014.

Reconciliation Action Plan

Within the current Reconciliation Action Plan 2013 - 2015, great emphasis has been placed by divisions on establishing working relationships with their local Aboriginal communities.

Caregivers are connecting with Aboriginal Elders and others in their local Aboriginal communities and finding innovative ways to support each other and offer service where needed.

If required, Aboriginal and Torres Strait Islanders are given support in their first year of employment at St John of God Health Care, like the Marr Mooditj Aboriginal enrolled nurse graduates at our St John of God Subiaco Hospital who can access Kambarang services.

An innovative partnership with CareerTrackers established the first Indigenous internship program in 2014 with nine student interns placed at our hospitals, pathology and group workforce during their semester break from university.

In the coming year, we will progress our new Reconciliation Action Plan 2015 – 2017 to establish a ‘stretch’ plan that, in accordance with Reconciliation Australia, recognises that we’ve tested our strategies and approaches to reconciliation in the workplace and are ready to focus on the longer term and work toward defined targets and goals.

Employee benefits

St John of God Health Care supports the professional and personal lives of its caregivers through remuneration and non-financial benefits. We offer career and educational opportunities in a nurturing and supportive environment. Other benefits include employee assistance programs, subsidised wellness programs and salary packaging opportunities.
St John of God Health Care established a partnership with CareerTrackers, a not-for-profit organisation that creates internship opportunities for Indigenous university students. Pictured: Keneasha Lindsay (right) on placement at St John of God Pathology Osborne Park laboratory.
Employee relations

In 2014/15, two enterprise agreements were negotiated in Western Australia covering our enrolled nurses, clerical, technical and support caregivers. Three enterprise agreements were in the final stages of negotiation.

Our industrial climate remains stable, and we continue to respect the contribution and involvement of the unions that represent our caregivers.

The internal industrial relations service continued to support managers seeking advice on how to navigate the complexity of the industrial landscape when dealing with conduct and performance issues, including the provision of training to help them to approach difficult conversations in a workplace environment, with an understanding of industrial risks.

Occupational health, safety and wellness

The wellbeing of our caregivers and provision of a safe working environment is integral to our Mission. It is our driving focus in ensuring that St John of God Health Care actively works to maintain and strengthen our comprehensive occupational health and safety (OHS) management system across all divisions and services.

In the Occupational Health and Safety Strategy 2011 – 2015 we outlined our commitment to strive for continuous improvement, to become a safety leader within the health care industry and to care for ourselves as we care for others.

Highlights for occupational health, safety and wellness in 2014/15 included:

- Sixteen divisions (84%) attained certification against the Australian and New Zealand Safety Management System Standard (AS/NZS 4801:2001) and equivalent international safety standard (OHSAS 18001:2007). The remaining divisions are expected to attain certification within the coming year.
- Continued to build occupational health and safety knowledge and capabilities in our leaders, managers, supervisors and frontline caregivers through practical training workshops and e-learning modules.
- Improved our data reporting capabilities to produce safety reports that enhance the sharing of learning across the organisation and assist divisional management committees to prioritise and target further risk reduction and injury prevention at a local level.

- St John of God Health Care was recognised for its occupational health, safety and wellness achievements in this financial year with three awards:
  - WorkSafe WA - Best Solution to an Identified Workplace Safety and Health Issue. Awarded to St John of God Subiaco Hospital for involvement in the development of the GlideSafe IV Pole Transfer System.
  - WorkSafe Victoria - winner of the Commitment to Workplace Health and Wellbeing.
- An online wellness directory was developed to assist our caregivers, and their family and friends, to access wellness tools and resources to tailor their approach to their wellness and discover positive lifestyle choices. This can be accessed via the intranet and the St John of God Health Care website.

Monitoring performance

The health and safety performance of St John of God Health Care’s Australian divisions is monitored through a range of key performance indicators. We capture and report on a range of lead (proactive) activities and lag (harm) measures.

Lead indicators reflect those proactive activities being undertaken that aim to reduce risk and prevent workplace injuries and illness.

</tbody>
</table>
An organisation-wide target to increase workplace hazard reporting by 100% was set as part of the Group Workforce Plan for 2014/15. While the 2013/14 total was exceeded by 52% overall we fell short of the prescribed target.

There was a reported increase in workplace hazard inspections and non-manual handling risk assessments completed and a small drop in the volume of manual handling risk assessments undertaken.

Lost time injury frequency rates (LTIFR)
Lost time injury frequency rates are an indicator of our performance in ensuring a safe and healthy working environment for caregivers.

Lost time injuries are those requiring one day or more off work.

Lost time injury frequency rate

The overall reported number of lost time injuries has increased during 2014/15. We have continued to focus on increased reporting and investigation of all workplace incidents and injuries and on the occupational health and safety training of managers. With a goal of zero harm to caregivers we will refocus our energies to drive initiatives that keep all our caregivers safe.

Our internal measure for serious lost time injuries (SLTIFR), which are reported injuries that require a caregiver to take 10 days or more off work and are the subject of an accepted worker’s compensation claim, has increased slightly to 0.99 in 2014/15. This figure represents the number of serious lost time injury per million hours worked over the preceding 12-month period.

AS/NZS4801:2001 and OHSAS 18001:2007 certification
Sixteen divisions (84%) were externally assessed and certified against the Australian and New Zealand Safety Management System Standard (AS/NZS 4801:2001) and equivalent international Standard (OHSAS 18001:2007).

The remaining divisions are expected to attain certification in the coming year. St John of God Health Care is the largest health care provider in Australia to undertake this process and attain this certification for safety.

The three year certification and surveillance cycle will provide a framework that drives ongoing safety improvement across St John of God Health Care.

Live Well, Work Well caregiver wellness program
The St John of God Health Care Live Well, Work Well caregiver wellness program continued to evolve to engage our caregivers in making positive lifestyle changes in areas like physical activity, healthy eating, mental health and financial wellbeing.

The program targeted caregivers through a variety of mediums including an online wellness directory, electronic and hard copy newsletters and health information flyers, emails linking caregivers to information around key community awareness days, health information flyers and face-to-face initiatives.

The key themes for this year were positive behaviour change, physical activity and mental health awareness.

St John of God Health Care was recognised for its dedication to caregiver wellness as a winner in the 2014 WorkSafe Victoria awards for Commitment to Workplace Health and Wellbeing.
Learning and development

At St John of God Health Care we are focused on creating meaningful, innovative learning experiences for all caregivers that demonstrate return on expectations and support the organisation’s Vision, Mission and Values.

Leadership and management development

With the release of Our Strategic Priorities 2015–2019, a review of learning and development opportunities was undertaken. As a result, all new programs being developed and existing programs are being evaluated against the following priorities.

• Supporting the estimated 25% growth in caregiver numbers across St John of God Health Care over the next three years.

• Supporting major group initiatives requiring a learning and development component, such as non-clinical induction and mandatory training as well as improved clinical placement and graduate programs.

• Reviewing the need for specialised programs.

• Improving partnerships with education providers and professional bodies to participate in the education of our future workforce.

Executive coaching was introduced to provide tailored, in-house solutions to executive development and succession planning and to build on identified capability gaps. It also guided managers through transition and supported their strategic learning and development priorities. Executive coaching was delivered to 65 senior caregivers across the divisions.

An innovative leadership program was developed with the group nursing leadership team to develop and provide nurse and midwifery managers with additional skills and knowledge to support them in the delivery of excellence in care. A total of 28 nurse and midwifery managers from across the group participated in this new leadership program.

A three-month program unique to St John of God Health Care, Taking the Coaching Approach, was attended by 54 caregivers in five groups. The program was run in response to caregiver feedback identified in the Press Ganey Survey. The program involved caregivers coaching each other and having the experience of being coached, which increases their learning and the transfer of knowledge into practice in their workplace.

Crucial Conversations training was introduced across multiple sites in consultation with the industrial relations team to develop skills for having difficult conversations with individuals and as a part of a multidisciplinary team.

During this year, 79 caregivers completed a Diploma of Management, accredited and delivered collaboratively with the West Coast Institute of Technology.
Benefits of a coaching approach

A coaching approach to the development of our people has proven its benefits with caregivers reporting they felt more productive and engaged and have an improved life and work balance.

In this year, the Group Executive Programs Manager, Elaine Pavlos, supported 65 caregivers from divisions on the east and west coasts of Australia with executive coaching. The caregivers say they now feel better prepared to manage their teams.

Caregivers responded well to the confidential, individual and reflective discussions with their coach and have shown increased confidence as St John of God Health Care managers.

For new caregivers appointed to critical positions, the coaching relationship has been particularly valuable as they feel they’ve been able to quickly and effectively align their performance to expectations.

Claire Pysing was new to St John of God Bendigo Hospital when she received coaching support from Elaine. She came to the role of Nurse Manager of the Day Oncology Unit with experience in nursing, education and management.

As a result of the coaching, Claire has been able to implement significant changes in her unit and has learnt more about her management style and how best to engage with her team.

Claire has developed a greater understanding of the St John of God Health Care planning process and how her service fits within the group-wide focus on delivering exceptional care. She has applied her new skills to bring about change in productivity levels of the unit and to create new opportunities for the service to grow.

Claire said she strongly recommended coaching support to all new managers as it provided her with great insight into the organisation and how to guide caregivers through transition to benefit the whole team and the service.

Claire Pysing (right) working closely and providing guidance to her assistant unit manager, Jacqueline Byrne (left), at St John of God Bendigo Hospital.
Professional and technical development

Our strategic priority of clinical excellence can only be achieved with a commitment to our professional and technical development. Reflective practice and professional development are a fundamental part of each caregiver’s role. It is the responsibility of registered caregivers to maintain their competence and expertise through ongoing education and annual assessment of their skills and knowledge.

Learning Management System

Our Learning Management System (LMS) supports the on-site face-to-face training of our caregivers to enable them to deliver exceptional patient care.

The LMS now contains 97 online courses, including an additional 44 mandatory and optional courses that have been created since September 2014.

With 12,929 user accounts, the last 12 months have involved verifying the caregiver data and ensuring divisional learning and development teams are able to book and monitor training events using the single system.

Graduate nurse program

In July 2015, St John of God Health Care will invite applications for its first state-wide graduate nurse program in Western Australia, known as the Pathways to Practice Program, where graduates will have the opportunity to rotate to different divisions and across specialties.

The first Pathways to Practice Program will commence in January 2016 with 33 graduate enrolled nurses and 48 graduate registered nurses.

Integral to the development of this innovative program has been the learning and teaching of our nurse leaders, including the Group Director of Nursing, and the input from our nurse managers and current students.

Sisters of St John of God Fellowship

The Sisters of St John of God Fellowship provides caregivers the opportunity to undertake study external to St John of God Health Care that is personally and professionally valuable and enriches the organisation. This year, 208 caregivers received fellowships to a cost of $486,000.

St John of God Geraldton Hospital achieved impressive results in the Press Ganey Caregiver Satisfaction Survey, ranking at the 88th percentile for caregiver satisfaction, up from the 13th percentile in 2013.
The South West Cancer Accommodation Centre in Bunbury, Western Australia, provided 4,264 nights of accommodation for patients who had to travel for their treatment.
COMMUNITY

In this section

88 Social Justice
88 Social Outreach
88 Community responsibility
89 Patient concessions
89 Caregivers facing hardship
91 Arts and health
91 Sponsorship
91 Volunteers
92 St John of God Foundation
We seek to strengthen our relationships within the communities in which we operate, just as our founding Sisters of St John of God became a much-loved part of communities in towns around Australia upon their arrival from Ireland in 1895.

Being part of the community and the delivery of community service are hallmarks of all the Catholic ministries, like the Brothers of St John of God and other health care service providers who have since come together as St John of God Health Care.

A Community Relations Framework provides the structure to support further strengthening of relationships in our communities and enables our ministry to extend.

Our strategic priorities 2015-2019 pledges deeper partnering with community organisations to deliver on our commitment to high quality health care.

Social justice

Our Social Justice and Advocacy agenda focused on our Disability Access and Inclusion Plan, Reconciliation Action Plan and the practice of publicly advocating for greater inclusion of people with disability to access employment opportunities.

We shared our experience with other organisations to inspire and support them to bring about change. The Group Coordinator Social Justice and Advocacy presented on our disability employment experience at three conferences, Getting to Yes (Perth), National Disability Service (Melbourne) and Employment Outside the Box (Melbourne).

A community forum held in partnership with Bendigo and Adelaide Banks explored the systems, processes and culture necessary to become ‘disability confident’ as an organisation, to then be able to employ people through Disability Employment Services.

Social Outreach

Through our Social Outreach services, we strive to meet the needs of people within our communities who are experiencing disadvantage, with a focus on areas of unmet need in health care.

By concentrating on the underlying causes of poor health, our outreach services aim to reduce the impact of factors such as stigma, prejudice, powerlessness, poverty, disability and marginalisation that prevent people from living a full life.

Our services are underpinned by two key themes: capacity building and early intervention.

Capacity building supports individuals and communities to develop new skills and improve their ability to better manage their own health and wellbeing in a sustainable manner.

Early intervention is the provision of services in the beginning stages of a developing health concern, or at a key developmental stage in a person’s life. Early intervention can minimise a health issue before it becomes chronic.

We focus these themes on two distinct areas: from conception to around four years and young people aged 12 to 25 years.

Since our Social Outreach program began in 2002, we have dedicated $141 million of St John of God Health Care’s own funds to helping people in need. This is funded by our commitment to give 2% of annual eligible revenue to social justice initiatives, with further contributions coming from government and other external partners.

Community responsibility

Our community responsibility covers a range of supports provided to other agencies in response to areas of unmet social justice needs including; community meals programs for people experiencing hardship; educational support for marginalised groups; provision of a meeting space for use by community groups who are providing a service for the common good of the community; donations to emergency relief for humanitarian assistance and financial support to other agencies that provide services to people experiencing disadvantage.

In response to the humanitarian crisis due to the outbreak of Ebola in West Africa, St John of God Health Care gave $20,000 to support the Brothers of St John God who operate hospitals in Sierra Leone and Liberia. In April the organisation responded to the devastating earthquakes in Nepal by donating $20,000 to Caritas Australia, working with Caritas Nepal, to coordinate an emergency response.
Patient concessions

Our Social Justice Patient Concessions Policy ensures we can respond to requests from caregivers, benevolent agencies, international aid agencies or hospital clinicians and management who have assessed a patient as requiring treatment not available elsewhere.

Caregivers facing hardship

We also provide support for our staff during periods of personal crisis. Our Caregiver Hardship Policy allows us to offer many types of support, including practical responses such as providing financial support and/or additional leave.

Caregiver participation

We encourage caregivers to engage in social justice activities through fundraising and volunteering. Through Community Support Leave, caregivers can apply for up to four hours per month or one week per year of paid leave to match equivalent personal leave to provide voluntary services to organisations addressing disadvantage.

During this year, 60 caregivers used 1,447 hours of community service leave and contributed their time, skills and experience to local and international community programs.

Our Workplace Giving Program enables caregivers to donate to charities via our payroll system. Our caregivers donated $19,523 during 2014/15 with major beneficiaries being St John of God Foundation and Caritas Australia.

This year, St John of God Horizon Houses provided long-term accommodation and support to 91 young people who would have otherwise been homeless.
Art contributes to the community of Midland

Exploring the connection between art and health is the focus of St John of God Midland Public Hospital’s art collection, which has been seamlessly incorporated into the hospital’s design.

Art has been designed to guide and enhance the patient and visitor journey as they enter the hospital and navigate their way around the building.

Three ornate canopies designed by local Aboriginal artists provide shade over the plaza at the front of the hospital and decorative paving tiles in the main entrance continue the use of culturally appropriate symbolism.

A towering, illuminated sculpture in the entrance will contrast with delicate murals featured in the maternity and paediatric wards.

The hospital’s 13 featured artworks relate to the theme of journeys and spiritus. Journeys is about exploring connectivity, movement and pathways. Spiritus is the Latin word for breathe and can be translated as meaning spirit, soul, courage and vigour.

The artists have also considered the healing role of the hospital in creating emotive pieces.

St John of God Midland Public Hospital’s public art strategy was developed in partnership with not-for-profit cultural organisation Form, as part of the State Government’s Percent for Art program, to enhance the hospital and support local artists.

The art strategy also takes reference from the local community as well as the heritage of the site, which is located in the old Midland Railway Workshops precinct.

The public art strategy is a part of St John of God Health Care’s arts and health approach that considers art to be an important component of holistic health care, including the healing and wellbeing of people in our care and the broader community.

Eleven of the 13 artists who will create commissioned artworks for St John of God Midland Public Hospital under the State Government’s Percent for Art Scheme. Pictured: Monique Tippett, Thomas Hoareau, Deborah Bonar, Ian Dowling, Penny Bovell, Simon Gilby, Tony Funkiu, Peter Danley, Jahnne Rees and Rob McCulloch.
Arts and health

Our arts and health framework has formalised a long-term appreciation of the role the arts can play in the holistic health, healing and wellbeing of communities and individuals, and great progress was made in 2014/15.

New public art works that speak to our Mission and our founding story were commissioned for St John of God Midland Public Hospital, St John of God Accord and for our redeveloped facilities at St John of God Burwood, Geelong and Murdoch Hospitals. In some instances art has provided a creative solution, such as wayfinding at the new St John of God Midland Public and Private Hospitals.

A commitment has been made to devote a percentage to art in our capital development budgets. An art curator was appointed to manage the St John of God Health Care art collection and create exhibitions to tour and showcase within our Western Australian facilities.

Many divisions engaged local visual and performing artists to showcase their work. St John of God Murdoch Hospital began an artists-in-residence program.

Patients, clients, as well as their families and visitors, are actively encouraged to participate in creative arts and arts therapies. We have established community choirs that perform in our hospitals and at local events.

Partnerships with groups and organisations that have a common interest in the benefits that the arts bring to health and wellbeing have been established including partnerships with local schools, regional galleries, universities, local government authorities and arts and health and mental health networks.

In the coming year, we will expand our participation in the arts, including music and the creative arts, for our patients and clients - as part of their healing process - and caregivers. As a responsive leader we will contribute to evidence based research into the impact of the arts on health and wellbeing.

Sponsorship

St John of God Health Care is an active community participant in the cities, suburbs and towns in which we operate. We partner with organisations with similar aspirations and strategic goals.

In 2014/15 we expended $950,677 to support a broad range of initiatives and organisations across a range of sectors.

Arts sponsorships

As part of our commitment and recognition of the value that the arts play in enhancing the wellbeing of individuals and communities, we continued to support the Western Australian Youth Orchestra and the Western Australian Youth Jazz Orchestra, along with our long term partnership with The Mandorla Art Award and a more recent partnership with the Black Swan Prize for Portraiture.

Awards and leadership programs

St John of God Health Care continued as the sponsor of the Professions Award, as part of Celebrate WA’s Western Australian of the Year Awards. This award recognises excellence and innovation as well as fostering strong and inclusive communities.

Our sponsorship of Leadership Western Australia reflects our internal leadership ethos with a shared vision of enhancing leadership excellence and a respect for diversity, community service and commitment to ethical leadership.

We also sponsored the Mental Health Employee of the Year Award, part of the Western Australian Mental Health Commission’s, Good Outcomes Awards, which encourages individuals and organisations (government, non-government and private) to strive for excellence in their daily work within the mental health field to enhance the quality of life of people with a mental illness.

Volunteers

Our volunteers are a familiar and much-loved dimension of the care delivered in many of our hospitals. Volunteers generously give of their time and skill and are integral members of our communities.

In 2014/15, we had 1,358 volunteers working with us ensuring patients and their families were as comfortable as possible in our care. Many volunteers also contribute great time and effort to raise funds through the hospital auxiliaries, which further contributes to the life of our hospitals.
St John of God Foundation

The St John of God Foundation was established in 1994 by the Sisters of St John of God to raise funds to support the continuation of their ministry of outreach services.

Through a range of capital fundraising campaigns in 2014/15, the St John of God Foundation raised a total of $1,369,331. The monies will be used to improve the care of the sick by supporting medical research and the development of new health care infrastructure and help the disadvantaged through Social Outreach endeavours, like Horizon House.

The St John of God Foundation also provided advice and expertise to St John of God Health Care’s divisions to assist them in local fundraising campaigns to meet local health care and outreach needs.

In 2015, the St John of God Foundation commenced a capital campaign to raise $5 million for the establishment of a comprehensive cancer centre and cardiac care centre at St John of God Berwick Hospital.

The St John of God Foundation’s $5 million capital fundraising campaign for the South West Coronary Care Centre and Cancer Centre at St John of God Bunbury Hospital continued and $3,254,454 had been pledged as at 30 June 2015.

Significant funds were raised for the vital medical research being conducted at the Bendat Family Comprehensive Cancer Centre, as well as capital and outfitting funding for the Horizon House service.

Fundraising activities for Horizon House Western Australia included the Santos Great Bike Ride for Charity and the St John of God Foundation Annual Corporate Charity Golf Day that raised $128,438.00. A night of dumplings, drinks and donations was held at Bambamboo Restaurant which raised $130,665 for breast and ovarian cancer research at St John of God Subiaco Hospital.

In 2014/15, St John of God Foundation received a number of donations, bequests and grants greater than $10,000 for specific projects, services and campaigns. A huge thank you to the following supporters:

- Bendat Family Foundation
- Allan Jones Estate
- BHP Billiton Worsley Alumina

Caregivers from St John of God Health Care Group Services, Western Australia, joined together with the Spirit of the Streets Choir to sing at St John of God Murdoch, Mt Lawley and Subiaco Hospitals in the lead-up to Christmas.
St John of God Bendigo Hospital launched a new waste management system in July 2014, introducing colour-coded waste bins placed in all patient rooms and caregiver common areas. This initiative is diverting 15 cubic metres of recyclables from landfill every week.
ENVIRONMENT

In this section

96 Group Environmental Sustainability Strategy
96 Environmental data monitoring
96 Compliance
96 Year ahead
97 Environmental highlights 2014/15
In May 2015, Pope Francis released his encyclical on the environment, *Laudato Si* (Praise Be To You), *On the Care of Our Common Home*. In it he urgently appealed for:

“A new dialogue about how we are shaping the future of our planet. We need a conversation which includes everyone, since the environmental challenge we are undergoing, and its human roots, concern and affect us all.”

**Group Environmental Sustainability Strategy**

This was the final year of the Group Environmental Sustainability Strategy 2011-2015, during which there were some highlights in activity.

The Energy Efficient Light Replacement Project to replace conventional lighting with light emitting diode (LED) units moved into phase two of a staged roll out across the group. LED lights were installed at St John of God Mt Lawley, Murdoch, Subiaco and Geraldton Hospitals. The total spend on this environmental project, across phases one and two, was $3.25 million and it is estimated that CO2 emissions have reduced by 2,775 tonnes per annum as a result.

Through the promotion of events like Earth Hour and Clean Up Australia Day, caregivers were encouraged to take personal and professional responsibility for reducing their impact on the environment.

The St John of God Health Care Green Vehicle Guide was updated twice in this year to guide and assist divisions in purchasing energy-efficient vehicles.

**Environmental data monitoring**

The data management software, Envizi (previously known as ECIS), captured energy and water usage data to satisfy our legislative compliance reporting requirements under the National Greenhouse and Energy Reporting Act 2007 (NGER Act) and accurately measured our carbon footprint.

Energy and water consumption key performance reports were tabled to the Board and divisions each quarter. The data for these reports was taken from Envizi.

Waste data has also been entered into Envizi from 1 July 2012 however waste KPI reports are yet to be developed.

**Compliance**

In accordance with the NGER Act, every company in Australia that consumes over 200 terajoules of energy and/or emitted over 50 kilo tonnes of carbon dioxide-equivalent emissions in the financial year is required to report their energy consumption to the Commonwealth Government’s Clean Energy Regulator. St John of God Health Care reported its greenhouse gas emissions, energy consumption and energy production to the Clean Energy Regulator for the fifth consecutive year in October 2014.

**Key reportable emissions data 2013/14***:

- Energy consumption - 411 terajoules of energy
- Carbon emissions – 62,268 tonnes

The data showed a reduction of 1,635 tonnes of CO2 emissions compared to the 2012/13 financial year. This impressive result demonstrates that the environmental initiatives introduced are significantly reducing our impact on the environment.

*Final data for 2014/15 was not available at the time this report was published.

For each operational site there were 12 activities St John of God Health Care had to report against including consumption of natural gas, fuel (stationary and transport), petroleum-based greases, electricity, emissions from chiller plants and emissions from other gases.

St John of God Subiaco Hospital also reported on its electricity production.

**Year ahead**

The responsibility for environmental initiatives will to be shared across three new positions: Eastern Hospitals Engineering Services Director, Manager Engineering Services – Perth Northern Hospitals and Director Facilities Management for the Perth Southern Hospitals.

The eastern hospitals role will have responsibility for environmental reporting in accordance with the NGER Act and key performance indicator reporting and will Chair the Group Environmental Management Network.

The benefits of solar panels to generate electricity will be investigated for installation at one of St John of Health Care’s facilities in the coming year.
Environmental highlights 2014/15

- St John of God Bendigo Hospital launched a new waste system in July 2014 with the aim of reducing their waste to landfill by 70%. Blue bins for recycling bottles, cans, plastics, paper and cardboard and red bins for landfill were installed in every room. The hospital participated in Radius Disability Services’ new e-waste recycling service. Radius Disability Services provides support services and supported employment services for people with a disability.
- St John of God Warrnambool Hospital installed three high efficiency condensing hot water boilers in its Health Services Centre. These boilers are 10% more efficient than the original heating hot water boiler.
- The Travel Green allowance for caregivers at Subiaco Hospital was increased from $5 to $6 a day. More than 400 caregivers at St John of God Subiaco Hospital are leaving their car at home and taking more active and sustainable means to get to work.
- St John of God Warrnambool Hospital started recycling polystyrene through a local disability employment service. The hospital fills one to two bulk bags for recycling each week.
- St John of God Ballarat Hospital sent a shipment of 10 bales of recycled sterile wrap to Tonga and Timor-Leste where local hospitals use this valuable material for the central sterile supply departments.

Savings resulting from the Energy Efficient Light Replacement Project.

ORGANISATIONAL STRUCTURE
GOVERNANCE

Structure

St John of God Health Care Inc. is an incorporated association, the members of which are the directors of St John of God Australia Ltd, a civil and canon law entity established in 2004 to sponsor the ministry that was previously sponsored by the Sisters of St John of God. The Sisters are members of St John of God Australia Ltd and share sponsorship of the ministry with eight of the dioceses in which the group operates as well as the Hospitaller Order of St John of God. This collaboration ensures sound and continued governance and stewardship.

St John of God Health Care has a two-tiered governance structure comprising Trustees and a Board.

Trustees

The Trustees (p104–105) are appointed by the members of St John of God Australia Ltd and have canonical responsibility for St John of God Health Care. They bring a wealth of skills and experience and exercise a range of authorities, including the appointment and evaluation of Board members and ensuring that our ministry remains faithful to its role within the Catholic Church. The Trustees meet 11 times a year.

The Trustees Annual General Meeting was held on 2 October 2014. At the meeting, the Trustees received St John of God Health Care’s 2013/14 Annual Report and its financial accounts for the year ended 30 June 2014. The Chair of the Board and the Group Chief Executive Officer provided an overview of the year and discussed plans for the 2014/15 year.

Board

The Board (p106–107) is appointed by the Trustees, with members accountable to the Trustees for the organisation’s ongoing stewardship and strategic development. Board members are selected for their varied and complementary skills and are drawn from a wide range of backgrounds.

In addition to attending 11 Board meetings each year, Board members this year attended a Risk and Strategy Workshop in October 2014, a Board retreat in November 2014 and formation workshops in August 2014 and May 2015.

Group Management Committee

The Group Chief Executive Officer is appointed by the Board and, as the most senior operational appointment, is accountable to it for the organisation’s day-to-day management across Australia, New Zealand and the Asia-Pacific region.

The Group Chief Executive Officer convenes and chairs a Group Management Committee (p108-110) comprising senior executives who provide assistance and advice on operational matters. The committee meets six times a year in person for two days at a time, and participates in various other workshops as required.

Governance

Governance is the system by which St John of God Health Care is directed and managed. It is the framework within which the health care group works to realise its Vision and fulfil its Mission. Governance influences how objectives are set and achieved, how to monitor and assess risk and how performance is optimised.

St John of God Health Care governance structures are modelled on best practice and assist in ensuring innovation, development, prudent stewardship, accountability and control commensurate with the risks involved.

Good principles of governance

St John of God Health Care applies principles of good corporate governance and associated good practice recommendations based on those promulgated by, amongst others, the Corporate Governance Council of the Australian Stock Exchange. The application of these principles is as follows:

Laying solid foundations for management and oversight

The roles and responsibilities of the Trustees, Board and management are set out in the St John of God Health Care Inc. constitution. In addition, the Governance Authority Matrix addresses matters reserved for the Trustees, the Board and the Group Chief Executive Officer, while a Management Authority Matrix identifies matters for which the Group Chief Executive Officer, senior executives and the St John of God Hauora Trust Board (New Zealand) have delegated authority.

Appropriate mechanisms to monitor the performance and development of senior executives are in place with all senior executives assessed annually. In addition, senior executives participate in a 360-degree feedback process once every three years which assesses behaviour against a leadership profile, with feedback forming part of annual performance review and development conversations.

Structuring the Board to add value

With the exception of the Group Chief Executive Officer, members of the Board, including its Chair, are non-executive directors. The Trustees, the senior level of the two-tier governance structure, regularly consider future nominations to the Board to ensure it is comprised of individuals with an appropriate skill mix.

Through a formal evaluation process, the Board considers its performance as a whole as well as that of its subcommittees and individual directors. In addition, the Trustees consider Board performance through the Board Development Committee. The Trustees also evaluate their own performance.
The Board has adopted an annual Board timetable that schedules regular presentations from senior managers, focused on key operational, strategic or Mission-related issues.

**Promoting ethical and responsible decision making**

*Our Vision 2015-2019* is the cornerstone document that guides us and includes the Vision, Mission and Values of the organisation, the key result areas for work to be undertaken and the guiding principles and defined outcomes to be achieved in each key result area. The *Our Vision 2015-2019* document has been widely promulgated amongst caregivers. *Our Vision 2015-2019* has been utilised in the development of a new five-year strategic plan.

**Safeguarding integrity in financial reporting**

The Audit and Risk Committee has a key role in safeguarding the integrity of financial reporting. As with all Board committees, it has written terms of reference. Its membership comprises four non-executive Board members. In November 2014, Tony Howarth was appointed as the new Chair of the Audit and Risk Committee, replacing Ms Kerry Sanderson.

In addition to external audit, a well-resourced and effective internal audit function operates and reports to the Audit and Risk Committee. The focus of internal audit is on the key risks faced by the organisation.

**Recognising and managing risk**

During 2014/15, a dedicated governance team was established with accountability for embedding and maturing the group’s approach to enterprise risk management and compliance, as well as the internal audit function. The Group Director Governance reports quarterly to the Audit and Risk Committee on risk, compliance and audit matters and annually to the Board on the organisation’s risk profile.

Ongoing assessment of the adequacy and effectiveness of risk management systems is also undertaken by the Board through its committees and various internal, external and regulatory agency reviews including the internal audit program.

The internal audit program operates in accordance with an internal audit charter and an annual internal audit plan. Areas of assurance are mapped against key risk areas as part of the annual internal audit planning process, ensuring targeted and effective reviews. Management responses to risk issues, and action plans to rectify identified or potential risks, are monitored to ensure effectiveness and appropriate implementation.

In addition, internal audits are undertaken in relation to specific areas of risk. During 2015, internal audit conducted a series of project-specific risk reviews in relation to the construction and commissioning of St John of God Midland Public and Private Hospitals.

Management also signs an annual representation letter providing the Board with assurance that its operations, including financial reports, are based on a sound system of risk management and internal control.

**Remunerating fairly and responsibly**

The Board’s Remuneration Committee has written terms of reference to ensure remuneration for senior managers is appropriate and that its relationship to performance is clear.

Remuneration for non-executive directors is set by the Trustees and is therefore clearly distinguished from the process for setting remuneration for the Group Chief Executive Officer (the only executive director on the Board) and senior executives, which is set by the Board on advice from the Remuneration Committee.

**Board meetings and committees**

**Board meetings**

Chaired by Tony Howarth, the Board comprises 11 members including the Group Chief Executive Officer. The Board is accountable to the Trustees for the ongoing stewardship and development of the organisation, including all aspects of its Mission, service delivery and financial performance.

**Audit and Risk Committee**

Chaired by Ms Kerry Sanderson until October 2014 and then by Tony Howarth for the remainder of the year, the Audit and Risk Committee comprises four non-executive board members and assists the Board to fulfil its fiduciary and corporate governance responsibilities by: overseeing the integrity and quality of financial information presented to the Board; overseeing the scope and quality of internal and external audit functions; monitoring the identification and management of risks; and monitoring compliance with statutory responsibilities. Ernst & Young continued to act as the external auditor and the internal audit function was complemented by PwC and KPMG.

**Finance and Investment Committee**

Chaired by Dalton Gooding until November 2014 and then by Peter Prendiville for the remainder of the year, the Finance and Investment Committee comprises five Board members (four non-executive directors and the Group Chief Executive Officer), an independent investment expert and the Group Director Finance, Transformation and Capital Developments. The committee reviews financial performance, administers and manages surplus funds and also considers and makes recommendations on financial and investment matters.

**Formation Committee**

Chaired by Dr Tony Baker, the Formation Committee comprises four Board members (three non-executive directors and the Group Chief Executive Officer) and the Group Director Mission. The committee gives form and shape to Board members’ understanding of St John of God Health Care as a ministry of the Catholic Church and also works to raise awareness of the lived expression of the Vision in the delivery of services.
Clinical Performance Committee
Chaired by Dr Rosanna Capolingua, the Clinical Performance Committee comprises four Board members, the Group Chief Executive Officer, the Group Director Medical Services, the Group Director Nursing, a clinical nurse, a medical doctor and a consumer representative. The primary purpose of the committee is to assist the Board in fulfilling its governance responsibilities in relation to the organisation’s clinical performance, particularly with regard to patient safety and quality.

Remuneration Committee
Chaired by Tony Howarth, the Remuneration Committee comprises three non-executive Board members. It aims to ensure fair and responsible remuneration and takes advice from an independent remuneration consultant. It reviews the Group Chief Executive Officer’s performance and makes recommendations to the Board on remuneration for this position and that of the senior executive group.

• Completed a Master of Laws (with distinction) in 1998 from the University of Western Australia.
GLOSSARY

Accreditation
Independent, periodic evaluation of our Australian hospitals by the Australian Council on Healthcare Standards (ACHS); our New Zealand residential facilities by the New Zealand Ministry of Health; our New Zealand Community, Youth and Child Services by the New Zealand Ministries of Health, Education and Social Development, the Department of Corrections and the Canterbury District Health Board; and our Australian pathology services by the National Association of Testing Authorities (NATA).

Acute care
Treatment of a sudden episode of illness or injury.

American Nurses Credentialing Center (ANCC)
A subsidiary of the American Nurses Association (ANA) that promotes excellence in nursing and health care through internationally renowned credentialing programs.

Assurance map
A tool that visually presents all assurance activities of the organisation, both internal and external, as they apply to the organisation’s risks.

Australian Commission on Safety and Quality in Health Care (ACSQHC)
The Australian Government agency that leads and coordinates national improvements in safety and quality in health care across Australia.

Australian Council on Healthcare Standards (ACHS)
The agency that inspects and evaluates Australian health care facilities to award accreditation.

Balanced scorecard
A tool used by managers to monitor performance against a small number of financial and non-financial targets.

‘Best in class’
The highest current performance level in an industry, one that others use as a standard or benchmark to be equalled or exceeded.

Board
The second tier of St John of God Health Care’s bicameral governing structure. Board members are appointed by the Trustees, with members accountable to the Trustees for the organisation’s ongoing stewardship and strategic development.

Brothers of St John of God
A congregation of Catholic Brothers who established psychiatric hospitals, residential schools and other care facilities and programmes for intellectually disabled and at-risk people in Australia and New Zealand.

Business Continuity Plan
A detailed plan of how an organisation will continue to operate if there is an incident or crisis.

Caregiver
A term used to describe the majority of employees at St John of God Health Care.

Client
A person receiving a non-clinical service of St John of God Health Care.

Clinical care/clinical services
The health service provided to a patient by a doctor, nurse or other health professional.

Clinical Pastoral Education Program
An accredited education program on pastoral care offered by St John of God Health Care in Victoria and Western Australia.

Clinical risk management
Improving quality and safety by identifying circumstances that put patients at risk of harm, and acting to prevent or control those risks.

Collection centre
A centre offering pathology services.

Comprehensive Cancer Centre
A centre incorporating all aspects of care associated with cancer diagnosis and treatment, which enables cancer patients and their families to receive treatment and support in one location.

Coronary care unit (CCU)
A hospital unit specially staffed and equipped to treat patients with serious cardiac problems.

Critical/intensive care unit (CCU/ICU)
A hospital unit specially staffed and equipped to treat patients with sudden life-threatening conditions.

Cultural Alignment Strategy
An approach to supporting new caregivers during their integration to St John of God Health Care culture and ethos, and to support existing caregivers to deal with significant change.

Central Sterile Supply Department (CSSD)
Central Sterile Supply Department - a hospital department that sterilises medical equipment.
Disability and Inclusion Plan (DAIP)
A strategic plan to improve the organisation’s ability to include and respond to the needs of people with disability whether they are caregivers, patients, clients, volunteers or the general public.

Discharge
When an episode of care is completed and a patient leaves hospital.

Division
A major operating unit, such as a hospital, of St John of God Health Care.

Eastern Region
An internal expression referring to all St John of God Hospitals in Victoria and New South Wales.

Episode/occasion of service
Care provided by a health care facility or service that begins and finishes within a specific period.

EQuIP National Program
A four-year accreditation program for health care organisations, administered in Australia by the Australian Council on Healthcare Standards, that comprises 10 mandatory National Safety and Quality Health Services Standards (NSQHS Standards) and five other standards that focus on the performance of non-clinical systems.

Formation
Formal education and activities for caregivers that aims to grow their understanding of and commitment to the Mission.

Foundations of Excellence
A set of seven standards reflecting principles widely understood in nursing and midwifery literature as contributing to a healthy and positive work environment, focusing on person-centred holistic care.

Group
The collective of all divisions and services operated by St John of God Health Care.

Hospital Consumer Assessment of Healthcare Providers (HCAHPS) Survey
A standardised patient experience survey that focuses on the frequency with which certain tasks were done, as opposed to how well something was done.

Holistic care
Care that nurtures the physical, intellectual, social and spiritual aspects of wellbeing.

Hospital in the Home (HITH)
The provision of health care to patients in their home as a substitute for hospital accommodation.

Inpatient
A person admitted to a hospital for treatment, usually requiring at least one overnight stay in an acute bed.

Intern
A student or trainee who may or may not have finished study and who is working to gain experience or satisfy requirements for a qualification.

Magnet status
An award given by the American Nurses Credentialing Center, to health care organisations that meet certain standards for quality patient care, nursing excellence and innovation in professional nursing practice.

Memorandum of Understanding
A written agreement between two or more parties.

Mental health simulation
A highly realistic, staged clinical interaction between an actor and a mental health practitioner.

Multicentre studies
Research that takes place across more than one location.

National Safety and Quality Health Service Standards (NSQHS Standards)
Ten mandatory national standards, developed by the Australian Commission on Safety and Quality in Health Care, that aim to improve the safety and quality of health service provision.

National Association of Testing Authorities, Australia (NATA)
The national authority responsible for the accreditation of laboratories, inspection bodies and calibration services in Australia.

Net Promoter Score (NPS)
A customer loyalty metric that measures the loyalty between a provider and a consumer, based on how likely a consumer would be to recommend the provider to others.

Not-for-profit or non-profit organisation
An organisation not operating for the profit or gain of individual members. Any profits made are returned to the operation of the organisation.

Outpatient
A patient/client receiving services from a hospital but not requiring admission as an inpatient.

Overnight patient
An inpatient who is admitted and discharged following at least one overnight stay.

Palliative care
The care provided to a patient who has an illness that cannot be cured, where the focus is on helping the patient have the best quality of life by addressing physical symptoms and supporting emotional, spiritual and social needs.

Pastoral services
The care of people’s spiritual, religious and emotional needs.
Pathology
The diagnostic branch of medicine examining changes in cells and tissues that signal disease.

Perinatal mental health
Mental health issues arising around the time of birth, generally accepted to cover the period from conception to four years after birth.

Perth Northern Hospitals
An internal expression referring to a group of St John of God Hospitals in Western Australia, specifically St John of God Midland Public and Private Hospitals, St John of God Subiaco Hospital and St John of God Mt Lawley Hospital.

Perth Southern and Regional Hospitals
An internal expression referring to a group of St John of God Hospitals in Western Australia, and in regional locations, specifically St John of God Murdoch Hospital, St John of God Geraldton Hospital and St John of God Bunbury Hospital.

Press Ganey
An independent company that conducts benchmarked satisfaction surveys.

Procedure
An activity performed on an individual with the object of improving health, treating disease or injury, or making a diagnosis.

Public Private Partnership (PPP)
A government service or private business venture funded and operated through a partnership of government and private sector company or companies, involving a contract between a public sector authority and a party or parties.

Reconciliation Action Plan (RAP)
A plan designed to build stronger relationships and enhanced respect between Aboriginal and Torres Strait Islander peoples and other Australians.

Registered Training Organisation
An organisation or training provider registered by Australia Skills Quality Authority (ASQA), or in some cases a state regulator, to deliver vocational education and training services.

Registrar
A doctor training to be a specialist in a particular field of medicine, such as obstetrics or surgery.

Resident Medical Officer
A doctor-in-training who is training and working in general practice in a hospital.

Root cause analysis
A method of problem solving used to identify the root causes of faults or problems.

Same day patient
An inpatient who is admitted and discharged on the same day.

Separation/discharge
The completion of an episode of care.

Service Ethos
The ethos behind our service delivery to patients, clients, caregivers and others with whom we interact, guided by our Mission.

Social justice
A commitment to people who are vulnerable, materially poor, powerless, or marginalised, and a fundamental and non-negotiable part of our ministry.

Social Outreach
St John of God Health Care services that reach out to people experiencing disadvantage, to improve health and wellbeing.

Sisters of St John of God
A congregation of Catholic Sisters, originating in Ireland, who founded St John of God Health Care in Western Australia in 1895.

Specialist Training Program
An Australian Government initiative that helps fund accredited specialist training positions in settings beyond traditional public teaching hospitals.

Stewardship
Effective and sustainable use of resources.

Sustainability
The ability of an organisation to endure long term, particularly in terms of financial, workplace, environmental and community activities.

Team nursing model of care
A model of care that develops a skill mix reflective of clinical need in each ward and unit.

Telehealth
The delivery of health services via telecommunications technologies, such as videoconferencing and the internet, often for the purpose of supporting long-distance health care, education and health administration.

Transformation
Making fundamental changes to how business is conducted in response to a change in the internal or external environment, with a focus on creating holistic value.

Trustees
The first tier of St John of God Health Care’s bicameral governance structure, with overall responsibility for St John of God Health Care.

Workforce planning
Strategies and actions designed to ensure there are sufficient staff to meet current and future demand.
