

Self-funded care

Private hospital treatment without health insurance.

If you do not have private health insurance you can still access appropriate treatment at a St John of God Health Care private hospital by using our self-funded care option.

Self-funding is a simple process where you can access surgery or treatment by paying up front or using a payment provider. You can self-fund any type of surgery or hospital treatment to get:

- quick access, avoiding public hospital waiting lists
- your choice of specialist who cares for you from your initial consultation through to surgery, in hospital and after discharge
- a range of payment options.

How to self-fund private hospital treatment:

1. Find a specialist who offers self-funding at sjog.org.au/specialists and make an appointment.
2. See your local GP and get a referral to see the specialist of your choice.
3. Get estimates for your treatment from your specialist and St John of God Health Care.
4. Book your surgery with your specialist.
5. Pay the estimated costs or set up a payment plan before you go to hospital.

For more information on self-funding private hospital care and to request an estimate:
